LOCAL CROP CONDITIONS

Heavy Rains Have Meant Losses to the Farmers. Heavy rains of the past few weeks have robbed farmers of the surrounding district of hundreds of thousands of dollars...

The main crop in this district is made up of barley and oats; very little wheat is grown. Barley is an average crop, though it has been badly damaged and colored by the preponderance of rain...

Oats, three weeks ago, promised an abundant yield; but, like other grains, has suffered badly from rain. The early crop of potatoes is about 40 per cent, and is very materially increased...

Only a small acreage of peas is sown in this district, and it is questionable if the crop will be an average one; most of it is still in the field, and it will not mature...

LIGHTNING KILLS CATTLE

Newburgh School Starts Out Well. Newburgh, Aug. 29.—In writing of the attendance at the high school, last year, your correspondent was in error. There were 134 students enrolled, instead of 118. The prospects for the coming term are brighter than ever for a record-breaking attendance...

After the lesson in the Methodist church on Sunday evening, Miss Flo Thomson sang "Thy Will Be Done." During the offertory, Mr. Mott sang "Only members were old favorites, while here and were heard with much pleasure by the large congregation. Course of revision will be held here, to-day, District meeting of Napanee district of the Methodist church, on this morning, at ten o'clock in the Methodist church here. Will Not Go Home. Grand Dukes Afraid to Face Fox and Plead Illness. Paris, Aug. 29.—Grand Dukes Alexis, Boris, Kirill and others living here and on the Riviera sent another batch of medical certificates to Russia, saying that the state of their health does not allow them to return at present to the headquarters of Holy Russia. The precaution was necessary because the Russian law says that imperial highnesses that do not spend at least two months out of every twelve within the radius of pistols, poison and explosives, must forego their appanage of four million dollars per annum. But, of course, if a grand duke is sick, that makes a difference.

Your correspondent had occasion to see Grand Duke Alexis in places of public resort, Grand Duke Alexis, one of these "sick men." Up to a month ago, Alexis was high lord admiral of the Russian navy, which was used as a quarry by him for tens of years. He is said to have made twenty million dollars per annum out of his job. The navy he commanded being at the bottom of the sea, its chief has the best of excuses for calling himself a sick man. Strange to say, he is never seen in care of a doctor. More often than not, Lena Cavalieri keeps his company, and if it isn't Lena, some other blonde or brunette beauty follows him about.

Victoria, B.C., Aug. 29.—A strange conflict has occurred in connection with the trial of the American fishing schooner North, ordered to be confiscated by Justice Martin in the admiralty court, for fishing within British Columbia waters.

The officiating clergyman proceeded with the services in the hope of getting it through by three o'clock, after which hour weddings cannot be legalized. He read the exhortation, and had just put the usual question to the bridegroom, who had answered, "I will," when the church clock began to chime the hour of three.
