People.

A scheme is being evolved to have a series of popular lectures delivered by well known citizens and clergymen during the coming fall and winter. It is hoped to interest the Board of o Education and separate school board and to utilize the schools for the gatherings of the people, The lectures oo will be free, will be illustrated and will be on topics of great practical benefit. A year ago Kingston ladies gave an exhibition of Shakespearean pictures in Queen's University and I 200 persons, parents and children, en joyed the view and so impressed those interested that one citizen offered to meet expenses of a series of lectures which would have the aim of showing in what ways the beautifying of the city might be accomplished. Another exhibition of pictures is being arranged for next Thanksgiving Day,
