COMMERCIAL MATTERS.

What is Going On in the Business World—The Markets.
Canada produced last year 543,597 tons of coal.
The cotton spinning industry of British Columbia in 1903 gave employment to 17,915 persons.
The first lot of the Grand Trunk Pacific's Lake Superior branch will be turned over on September 8th. Sir Wilfrid Laurier will officiate.
A dispatch from Detroit says the Grand Trunk Railway company has placed an order for ten thousand tons of steel rails with United States mills, on account of the inability of Canadian mills to supply the demand.
E. W. Wright, the Oregonian's wheat expert, estimates the 1904-05 crop of the state of Oregon, Washington and Idaho as follows—Oregon, 13,400,000 bushels; Washington, 32,800,000 bushels; Idaho, 50,000,000 bushels.
Commercial failures in the United States during the month of August, according to a review from French offices of R. G. Dun & Co., were only 851 in number and \$1,149,500 in amount of defaulted indebtedness.

Would Not Talk About It.
The report is current that Dr. C. K. Clark, the eminent alienist and superintendent of the Rockwood Hospital for the Insane, is to be transferred to Toronto, as head of the asylum there and that Dr. Edward Ryan, president of the Conservative Association, is to become head of the Kingston institution. Neither of the gentlemen concerned have anything to say.

Dr. Merrill Married.
Dr. J. W. Merrill and bride are the guests of Mr. and Mrs. Edward Crumley, Union street. Dr. Merrill will be remembered as cover-point on Queen's championship hockey team for several seasons. He is now settled at Charlton, where he has the position of C. P. R. physician for that district.

At the convention of the Farmers' Association, President Locke Wilson considered the increased seasonal indemnity, and it was decided to adopt a resolution against any tariff increase.
A solitary drunk at the court, this morning, proved an old offender. He was given three and a half months to repeat his folly.
The Adams Furniture company have purchased the Russell House property on Yonge street, Toronto, for \$125,000.
Mr. and Mrs. Harry Singer, Montreal, are visiting the latter's mother, Mrs. Dobson, Johnston street.

THE CABINET ANNOUNCED.
N.W.T. Elections to Take Place in November.
Special to the Whig.
Regina, N.W.T., Sept. 6.—The provincial cabinet will be as follows: Premier, Hon. Walter Scott; commissioner of public works, Hon. J. A. Calder; commissioner of education, Hon. W. E. Motherwell; attorney general, Hon. George McCreaney. Walter Scott, M.P., who was called, yesterday, to government house, and entrusted with the duty of forming a government for the new province, was in consultation with party friends nearly all day, and late last night the selections he had made were announced as above. The elections will likely take place in November.

Smullen Acquitted.
Fonda, N.Y., Sept. 6.—Daniel Smullen, who has been held here on a charge of murdering Peter Conrad on March 17th last, was last night acquitted. Conrad and Smullen, who were neighbors, left Argusville together on March 17th, and Conrad's team later arrived home driverless. Conrad's body was found the next day in a shed a mile across the fields from Smullen's home. The evidence was purely circumstantial.

Crops Of The World.
Budapest, Sept. 6.—The Hungarian minister of agriculture in his yearly estimate of the world's crops, shows the wheat yield to be about the same as last year. Rye is at least ten per cent. lower, owing to the poorer Russian harvest; barley is somewhat less and oats considerably lighter. The maize crop will be larger, owing to more than makes up for the large deficiencies in Europe.

Newfoundland Fisheries.
London, Sept. 6.—President Boud, who has arrived in London to raise a loan of \$2,000,000 to be paid to the G. Reid for the Newfoundland telegraph lines, in an interview today on the subject of the fisheries question with the United States, said that if the way to be any change in the present restriction on American fishermen the initiative must be taken by the United States.

Upsets Balance Of Power.
Special to the Whig.
St. Petersburg, Sept. 6.—There is much comment in the morning papers on the Anglo-Japanese treaty, which, it is claimed, is not conducive to peace because it upsets the balance of power in the far east and makes Great Britain and Japan predominant.

Revival Of Rate War Unlikely.
London, Sept. 6.—There is very little likelihood that the North Atlantic passenger rate war will break out again. The relations of the British offer no indication that they will become antagonistic.

Saw The Wreck.
The captain of the barge Melrose, which arrived at Fort William, reports having seen the topmasts of the barge broke away from the steamer Sunday, and sank near Outer Island. It is not known whether any lives were lost.

Wanted—A live man, who understands buying and shipping hay, to represent a Montreal firm in Kingston district. State salary or terms desired. Must be able to furnish first class references. Address "K," Whig.
There was a large number of excursionists here today from the steamer Idler. This is likely to be the last excursion from the island to the city this season.
The three-year-old daughter of Stewart Culbert, Ottawa, was attacked by rats while asleep and badly bitten in the face.
Gibberin Smith says that imperialism has resulted in a demand in Canada for increased protection.

NAVAL OFFICERS' BOARD BILL WAS UNPAID.
The old reliable Kingston Business College, head of Queen street, re-opened for the fall term yesterday. During the summer months, the commodious building which is owned and entirely occupied by this school, has been thoroughly renovated, re-furnished, papered and painted. It is now the brightest and most attractive business school in Ontario. The typewriting department has been furnished with a new and complete equipment of the most modern makes. Everything has been done for the comfort and convenience of the students. Those who are contemplating taking a business course should not fail to write, telephone or call for rates which are within the reach of all.
The past year has been the most successful in the history of the college. Of the 200 students who attended this school, 150 took diplomas on graduation and are now in excellent positions; in fact the characteristic feature of this popular commercial college is that the graduates do not seek the positions, but the positions seek the graduates. The demand is always in excess of the supply. Entrance into this permanent, reliable school is an entrance into the best commercial positions in Canada. From the west, applications have been received for graduates of this school to take a course at this institution. The day of graduation is the day of appointment to first class position. Phone 440, H. F. Metcalfe, principal.

TO THINK ABOUT IT.
Resolutions Laid Before the Premier.
Special to the Whig.
Toronto, Sept. 6.—Harry Grove, master of the Dominion Grange; W. P. Fisher and Jabel Robinson, ex-M.P.s, a past master, addressed this morning's session of the Farmers' Association convention, at Victoria hall, on the advisability of amalgamating the two organizations. A resolution was adopted opposing any increase in the tariff and urging that a proposed minimum and maximum should not be greater than at present in force.
At noon a deputation waited on Premier Wilton, headed by W. L. E. Foster, the vice-president, and urged the adoption of legislation along the line of the resolution passed. They included the Pottypiece bill in regard to railway taxation, the control of tinuance of the forest resources of the province, of exercising control over the mineral resources, that both ways be a perpetual source and revenue to the province. Gratification was also expressed that no cash or land grants were made to railways and the hope was expressed that this meant the end of the system. The premier promised consideration of the matters brought before him.

FUTURE OF M. WITTE.
Reported He Is to Be Premier and Minister.
London, Sept. 6.—The St. Petersburg correspondent of the Standard says a report is current that General Teroff has refused the post of minister of the interior, and that M. Witte will receive the portfolio, with the premiership. It is evident, however, that nothing has yet been decided. M. Witte's followers are industriously circulating a report that he will be a candidate for a seat in the national Douma, and has read it through ten years old, and has read it through six or nine times since. He never went to college and only attended school for two years. He was of United Empire Loyalist and of Huguenot parentage, having been born of Wallace, N.S., in 1821. As a minister he has travelled in seventeen circuits in the maritime provinces, and is an expert of the Nova Scotia conference.

Interviewed Von Buelow.
Berlin, Sept. 6.—Chancellor Prince Von Buelow had a long interview with M. Bilboud, the French ambassador, yesterday. Dr. Rosen, German minister designate to Tangier, will go to Paris and discuss the Franco-German understanding as to Morocco with the French ministers, with the minimum of publicity, before the international conference upon Moroccan affairs is held.

Will Resign Charge Of Hospital.
Brookville, Sept. 6.—Miss Miller, matron of the Brookville General Hospital, has decided to resign her position to accept the charge of the Ross Memorial Hospital, Lindsay, commencing on October 1st. She has been connected with the Brookville institution for nearly four years.

OF For The West.
Special to the Whig.
Ottawa, Sept. 6.—About 500 left here North Atlantic on the harvesters' excursion to the North-West. Many city people took advantage of the cheap rates.

Wanted—A live man, who understands buying and shipping hay, to represent a Montreal firm in Kingston district. State salary or terms desired. Must be able to furnish first class references. Address "K," Whig.
There was a large number of excursionists here today from the steamer Idler. This is likely to be the last excursion from the island to the city this season.
The three-year-old daughter of Stewart Culbert, Ottawa, was attacked by rats while asleep and badly bitten in the face.
Gibberin Smith says that imperialism has resulted in a demand in Canada for increased protection.

KILL AND PLUNDER.
TARTAR BANDS SCOUR THE COUNTRY.
Rioters Dely Troops and Fire Oil Works—State of Wild Panic—Famine in Many Parts Adds to Horrors.
St. Petersburg, Sept. 6.—A dispatch from Tiflis says: "The whole of the south-east Caucasus is now terrorized by Tartars. Refugees are pouring in here from Baku, Elizabetopol and Shusha. Details from Shusha show that several engagements were fought between Tartars and Armenians behind regular positions and that a considerable part of the town was in flames. According to an official estimate over 200 houses were destroyed."
Rioters Fire Oil Works.
Baku, Sept. 6.—Troops under the direction of the governor are acting with the utmost vigor, but they have not succeeded in restoring order, although there is rather less firing. Armed rioters attacked the oil works in the suburb of Balakhan and after a hot fight set fire to them. Tartar bands are scouring the country, murdering and pillaging. The country is in a state of wild panic; and country houses and farms are being abandoned.
The famine in many parts of the country renders the situation more terrible.

Troops Patrol Streets.
Elizabetopol, Caucasus, Sept. 6.—Sanguinary fighting has occurred between Tartars and Armenians in the village of Khanabek.
There is great alarm here. All the Armenian shops are closed and troops are patrolling the streets gay and night.
Oil Fields In Flames.
St. Petersburg, Sept. 6.—Fighting continues between Armenians and Tartars and the troops at Baku, Caucasus. Many of the oil fields are in flames. Re-enforcements have been sent from Tiflis. Official dispatches from Baku say that the workmen's quarter of that city was burning last night.

Are Still Burning.
St. Petersburg, Sept. 6.—Private advices from Baku, Caucasus, to-day, says that the "black town district" of that town is still burning and also the works at Balkhan, Ribiebat, Noman and Sabanto. The losses amount to millions of roubles.

MOB CAUSES GIRL'S DEATH.
Child Would Have Escaped But for Crowd's Zeal.
New York, Sept. 6.—In attempting to inflict punishment on a motor man, last night, an angry crowd in Clinton street caused the death of a little girl. In a riot that followed several persons were badly hurt and police reserves had a hard fight to disperse the mob.
The victim of the accident was Anna Sherinshock, two years old. With her father and another man she was being led across the street, when a crowd of men, who followed under the fender, which she lay crying, but apparently uninjured, near the platform and lifted the fender the crowd made a rush for him and in the scramble he was forced against the controller, turning it around and putting a full current on.
Instantly the car shot forward a distance of 200 feet, and the child's body was ground to pieces. The sight of the mangled body added fury to the mob, and the motor man was dragged from the car and nearly beaten to death.

A STEAMER SUNK
In Montreal Harbor—No Lives Lost.
Special to the Whig.
Montreal, Sept. 6.—The steamer Honagan, used charter by the marine department, in connection with the river, was sunk as the result of a collision, early this morning, near Longue Pointe, in the St. Lawrence, some miles below this city. The steamer Empire, was the other steamer concerned in the accident. So far as known yet there was no loss of life.

DOCK LABORERS
On Strike Have Returned to Work.
Special to the Whig.
Montreal, Sept. 6.—Dominion Transport and Shedden company dock laborers, who have been on strike for the past few days, returned to work this morning. There were about 400 in all, and of these about one hundred and fifty will be unable to get back to their places.

Letter Carriers In Session.
Special to the Whig.
Toronto, Sept. 6.—The eleventh annual meeting of the Federated Association of Letter Carriers of Canada was opened, this morning, in the Labor Temple. The sessions are being held in secret. W. J. Cuthbert, Winnipeg, is in the chair. The men denied that they were discussing the advisability of asking for an increase of wages. Only matters of interest to the order are being debated they claim.

A certain London hotel uses a bushel of potatoes a year for pen-wipers on the tables in the writing rooms. It is claimed that a potato wiper is the best preservative that can be secured for the pen.
Dover possesses a curious character known locally as "Comrade," who hangs for a living. Armed with a cigar box for confabulations, "Comrade" parades the principal streets.
The first time a fellow marries he is just about scared to death. The second time he ought to be twice as scared, but he isn't.
The sittings of the British Columbia fisheries commission will commence in Victoria on September 9th.
Lombard plans, 37c, for a big basket, at Carnovsky's, Thursday morning.
Howard Marshall has returned to Montreal.
