SYNOPSIS OF CANADIAN NORTH-WEST.

Any even numbered section of Dominton Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not eserved, may be homesteaded upon by any person who is the sole head of a family. or any male over 18 years of age, to the extent of one-quarter section, of 160

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on applica-tion to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make HOMESTEAD DUTIES : A settler who has been granted an entry for a home

stead is required to perform the con-

ditions connected therewith under one the following plans : (1) At least six months residence upon and cultivation of the land in each year during the term of three years. (2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resider upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with

(8) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the APPLICATION FOR PATENT should be made at the end of three years, be-fore the Local Agent, Sub-Agent or the

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention

SYNOPSIS OF CANADIAN NORTH WEST MINING REGULATIONS. \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can he acquired by one individual or company. Royalty at the rate of ten cents er ton of 2,000 pounds shall be collected

on the grass output. Quartz.—A free miner's certificate is granted upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company according to capital. A free minor, having discovered mineral in place, may locate a claim 1,500x

The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or paid to the mining re-corder in lieu thereof. When \$500 has been expended or paid, the locator may. upon having a survey made, and upon complying with other requirements, purchase the land at \$1 an acre. The patent provides for the payment of a royalty of 2} per cent on the sales. PLACER mining claims generally are 100 feet square; entry fee \$5, renewable

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, \$16 per annum for each mile of river teased. Royalty at the rate of 24 per cent collected on the output after it exceeds \$10,000.

MOSQUITOES

PEOPLE BITTEN MAKE FOR THE HESPITAL.

ppearance is a Mystery-Apparently They Have Found Congenial Breeding Places on Low Lying Marshes.

London, Sept. 6.-A plague of A few years ago they were almost unknown or made their appearance fitfully in the neighborhood of the docks and Ficet street, coming it is supposed among the rolls of paper. his summer they are being found all over the metropolis, and in many laces have given considerable work to the medical practitioners and to the hospitals.

They are exceedingly plentiful along the line of docks. The lower part of the Thomas Valley seems full of them. and the suggestion is made that those brought from abroad have found a congenial breeding place in the lowlying marshy ground along the Essex shore. At the Poplar hospital this week it was stated that they had had many cases there every day, men, women and children being alike victims. There have been for years past many patients treated at their hospitals for mosquito bites, but this summer they are more numerous than

The hot weather has favored the insects or made them, so to speak, strong on the wing. They are now wandering far from their breeding places, and not a suburb is free from them. The east end has suffered, but they have made their appearance in force in the western, southern and northern suburbs. They are especially abundant in the neighborhood of Muswell Hill, where hundreds of cases are being treated by the local doctors daily. Alexandra Park, Hornsey, Wood, Green and Bowes Park swarm with them. Their clear, ringing, buzz, unlike that of any other insect, is heard nightly, and hundreds of people are suffering seriously from their punctures. One doctor in Bowes Park has

treated as many as forty cases within the week. The bites have serious effects. They are succeeded by cellulitis and the part becomes swollen and indurated, in some instances accompanied by a septie rash over the joints. In other cases vertigo has occurred, with an intense feeling of dechampion bicycle sprinter of the pression. Ladies wearing the fashionable openwork blouses are very of the best bicycle racers in a spirited liable to be bitten by the insects, as

CHAMPIONS NEWSPAPERS.

Looks on Them as a Great Insti-Montreal Gazette

Rev. C. E. Bland, preaching in Sherbrooke Street Methodist church, likened the Bible to the newspaper of today, He touched on the great resconsibility of newspaper men in giving the public true, ungarbled advice of the work of God from day to day. Some people threw papers aside as things of no interest. This was a foolinconsistency. The same people would study the Bible. What was the consistency in reading of the works of God in Old Testament history; works which He performed centuries and acons ago, and then refusing to take interest in the reports of His work in

It was also foolish for people to take the ground that the papers never published the truth, and that therefore the papers were not worth read ing. Newspaper men were high-minded conscious of their responsibility. They did their best to furnish true his tory, for the world, of the world Newspapers were among the greatest strongest institutions in existence,

Your Thirty Feet of Digesters.

DOU have thirty feet What makes Food travel through them?

A set of Muscles that line walls of these Intestines or Bowels. These Bowel Muscles are sensitive

When a piece of Food rubs the walls of the Intestines these Muscles ighten behind it, and thus drive the Food onward, to its finish. In this way a swallow of food starts a Muscle-wave which follows

the Food, and which drives it through the whole length of the Bowels and It should take about 12 hours to

do this properly, so that nutritious parts of the food may have time to be digested and absorbed.

But,-if it takes twice or three times that period you can see plainly that the food spoils in passing, and becomes as poisonous as if it had decayed before being caten. . . .

Now, the cause of delay (Constipation) is simply Weakness, or Laziness, of the Bowel Muscles .--These are the Muscles that tighten the Intestines, and thus propel Food

Want of Exercise, Indoor Employment, weakens these Bowel Muscles. just as it weakens Arm and Leg

They lose tone, tension, strength to force the food onward And, the longer they stay in that

state the weaker they become, be-

succeeding time to move the Bowel But, it is different with Cascarets Cascareta contain the only combination of drugs that acts on the
