FRANCIS VON BUHL, CONCERT BARITONE

Teacher of Vocal Physiology and the Art of Singing.

Formerly a Student of Delacote, Italy, and of the Vocal Physiology School of Coni, Bohemia and Leonard Browne, London, Eng., late Vocal Instructor at the U.S. College, Michigan, U.S.A.

Vocal Studio now, Room "A," at the Williams Piano Co., Warerooms, 267 Francis St.

"M.A. College, May 24th, 1905.

During the last year Prof. Francis von Buhl has been teaching voice culture at the M.A. College. In the early part of the winter he gave a recital in the College Chapel. At this, the naturalness and ease of his voice production commended itself to me, and the smoothness of his diction and syntax.

As a teacher, Mr. von Buhl is very much liked by his pupils who give him great praise and consider they have made excellent progress under his instruction.

LOUISE FREYHOFER, Head of the Piano Dept., M.A.C.

KILLED BY SHOCK.

As He Was Seeking to Relieve a Comrade.

Special to the Whig.

Detroit, Mich., Sept. 8.—Alexander H. Howie, treasurer and manager of the Howie Roofing company, of this city, was superintending the roofing of the Rapid Railway electric freight house, at Algoma, yesterday afternoon, when Frank Lebow, one of his employees, accidentally came in contact with a live wire running over the building and screamed for help. Mr. Howie attempted to pull Lebow away but himself received the full current and was killed. Foreman Curran was severely shocked, but he and Lebow recovered. Mr. Howie was a Canadian and had a brother in Brantford and two sisters in Paris, Ont.

MARTIAL LAW

Has Been Proclaimed in Tokio.

THE MASS MEETINGS

IN MANY CITIES DENOUNCE PEACE TREATY.

Objections Based on Partition of Saghalien, and Continued Exercise of Russian Power in Manchuria—Russian Ministers Ordered to be Conciliatory.

Special to the Whig.
London, Sept. 8.—The Tokio correspondent of the Times cables under date of September 4th. There is considerable excitement in Japan concerning the terms of peace. These have not been officially published, but are believed not to secure permanent peace, which was the sole object for which the nation fought.

Mass meetings at Osaka, Nabaya Kioke denounced the treaty. The police attempted to exclude citizens of Tokio from a park belonging to the municipality, whereupon proceedings became riotous. Four police stations and a number of police boxes were destroyed. About thirty people were hurt, and two killed. The object of the meetings is to prevent a ratification of the treaty, but all thoughtful persons acknowledge that ratification is inevitable.

The newspapers urge that the ministry should resign, since it failed to satisfy the nation. The main objections based on the partition of Saghalien Island, and the continued exercise of Russian influence in Northern Manchuria.

The St. Petersburg correspondent of the Times cables: Instructions have been issued to all the ministers to display promptitude, and a desire for conciliation of principle, etc., and the questions arising from the treaty of peace. Many of these questions are of the highest importance, such as the commercial treaty, the delimitation of the frontiers of the railway, tariffs, the exchange of prisoners, etc., and this country recognizes the necessity of approaching them in a conciliatory fashion. Indeed, an excellent spirit prevails in high quarters.

Martial Law in Tokio.

Tokio, Sept. 6.—(Delayed in transmission).—An imperial ordinance establishes martial law in Tokio. Disorder was resumed to-night.

Troops Guard Legations.

Tokio, Sept. 7. (Delayed).—Troops are guarding the foreign legations. Apparently there is no outbreak of anti-foreign sentiment, but the government is anxious to prevent any danger of injury to the legations and other foreigners. A few foreigners already caught by mobs were roughly handled.

Denounces Treaty.

Tokio, Sept. 7.—(Delayed).—Last night's disturbances were not particularly serious. Thirteen cars, and one kiosk were destroyed. Thirty persons were wounded in the clashes with the police. The Tokio municipality has passed a resolution denouncing the peace treaty.

Will Study Immigration Question.

Special to the Whig.

Victoria, B.C., Sept. 8.—Dr. T. T. Tong, representing the Imperial Chinese Board of Treaty Revision, and now on his way to Washington, left here to-day. He has come to this country to study the classes and character of the persons immigrating to the United States from the various parts of Europe and other continents, with a view of learning whether China is discriminated against by the government. It is believed in China that the United States government, while refusing admission to the Chinese, is permitting the immigration of classes of Europeans, far inferior to the Chinese.

His report will be of great importance in determining the future development of trade relations between China and the United States.

Court Martial of Mutineers.

Sebagopol, Russia, Sept. 8.—The court martial, which is to try the cases of the mutinous crews of the Russian warships Kniaz Potemkin and Georgi Pobedonosoff convened here this morning, and began with the hearing of witnesses. It is generally believed that the court martial will deal severely with the mutineers, particularly with the leaders of the mutiny, but that the emperor will mitigate the severity of their sentence.

Warm Weather in West.

Winnipeg, Sept. 8.—The weather yesterday was as hot as midsummer, and magnificent for the few fields of late grain still standing. The outlook is that everything will be in stock by the end of the week. In the Brandon district the crop will be very valuable. The grain is likely to be for the most part No. 1 northern, and of a good color.

Davies' Ham Sale.

Boneshoulder hams, special mild cure for boiling or frying, guaranteed to give the utmost satisfaction. Order a pair at 13c., or whole at 12c. lb. Frederick C. Rossiter, a Chicago civil engineer, was struck and killed by a train as he was trying to get his chain from the track near Hammond, Ill.

SEQUEL TO ELOPEMENT.

Mother-in-Law Broke Her Parapet on the Groom.

Galt, Ont., Sept. 8.—(Rodgers-Gregg)—At Niagara Falls, N.Y., on Monday, September 4th, by the Rev. Mr. Roy, John Rodgers, to Miss Victoria Gregg. This wedding announcement is one of the climaxes of an elopement which has ruffled the serenity of things here. Another result is the bruised head of the groom, who when he returned with his bride last night was met at the station by the mother of the bride, who proceeded to break her parapet by assailing her son-in-law. Mrs. Rodgers is seventeen years of age. The groom is a drifter employed on sewer construction, and is about thirty years of age. The affection between the two sprang up while Rodgers boarded at Mrs. Gregg's house.

MRS. MARY MAUP'S DAUGHTER. Editor of the St. Nicholas Magazine. Author of many children's stories and novels. She died at her summer home in Putney Park, Tannersville, N.Y., the other day.

SEIZED THEM

Gasoline Launches Are Held Up.

A WARNING ISSUED

VALUABLE DEPOSITS OF MINERALS IN QUEBEC.

But Cannot Be Handled Until a Railway is Built—Canada's Population Has Increased by Over 800,000 Since 1901 and Now Exceeds Six Millions.

Ottawa, Sept. 8.—Fred L. Jones, chief preventive officer of the Canadian customs, has recently seized several gasoline launches in the maritime provinces which were carrying passengers without having the necessary certificates to ensure public safety. As a result, the marine department has issued a warning that the law will be strictly enforced in this respect.

A. V. Low, of the geological survey, has returned from a trip 200 miles northwest of Lake St. John, at Chibougamau, where he found valuable deposits of asbestos, some gold quartz and fine spruce-for pulp wood. Nothing could be done with these resources until such time as a railway was built.

Canada's population is now considerably over 6,000,000, having increased over 800,000 since the 1901 census. This estimate is derived by the most careful computation in the census department here. Here is the official statement: "The natural increase of population in Canada in the twelve months of the last census year was at the rate of 12.70 per 1,000, the ratio of births having been 27.32, and of deaths 15.12. Computed at the same rate, and adding to the number of immigrants reported, the population on July 1st, of each year should be as follows:

"Population April 1st, 1901, 5,371,315; population July 1st, 1901, 5,413,375; natural increase in twelve months, 6,750; immigration in twelve months, 67,329.

"Population July 1st, 1902, 5,549,500; natural increase in twelve months, 70,478; immigration in twelve months, 128,301.

"Population July 1st, 1903, 5,748,242; natural increase in twelve months, 70,094; immigration in twelve months, 130,313.

"Population July 1, 1904, 5,951,677; natural increase in twelve months, 75,857; immigration in twelve months, 114,265.

"Population July 1st, 1905, 6,173,530. Increase in population since the census of 1901, 802,215."

WORST OVER IN BAKU.

But Deep Gloom Prevails—100,000 Workless Fugitives.

Special to the Whig.
London, Sept. 8.—The St. Petersburg correspondent of the Times cables: The latest reports from Baku indicate that the worst is over, but the picture is one of deepest gloom. Over 1,000 persons have been killed, and several thousand wounded, almost exclusively Tartars, Fergians and Armenians. There are nearly 100,000 workless fugitives, and almost the whole oil industry is ruined, involving serious consequences to the trade and commerce of the whole country, and the loss of about £20,000,000 annually to the state revenue from the excise.

The Russ presents the case as a solely just indictment of the existing system of government.

The Bourse Gazette says the authorities, at Erivan, have discovered unmistakable evidence of a Mahomedan plot for the conquest of the country.

Balakhan Burned Out.

Baku, Sept. 8.—Street fighting continued until late last night. The consulates, banks, and government buildings are guarded by troops. Balakhan was completely burned out after the Tartars had plundered it of everything valuable. Although shot down in masses by the artillery the Tartars were not deterred from their work of wreckage and looting. Fires fighting hospital where one thousand Armenians and workmen gathered, was destroyed.

Trying to Drive Him Out.

Special to the Whig.
Warkerville, Ont., Sept. 8.—County Constable Vanderliner, whose home is in Sandwich East township, thinks an attempt is being made to force him to leave the township because of his activity in enforcing the liquor law. He had several hints to leave the township alone and two nights ago an attempt was made to burn his blacksmith shop.

Engineer Is Killed.

Winnipeg, Sept. 8.—A Canadian Pacific passenger train struck a milk train near Dingley Siding, forty-seven miles east of Regina, N.W.T. Passenger Engineer Emerson was instantly killed. No passengers were injured.

A Disastrous Fire.

Special to the Whig.
Harrow, Ont., Sept. 8.—Darius Wight has lost his barn, hay stacks and farming implements by fire. Loss \$3,500.

Davies' Sausages.

Noted for nicety of seasoning and meat quality. Pork, 10c.; New England, 12c.

Buy your baby foods at Gibson's Red Cross drug store. It's fresh there.

COOK THROWN ON RANGE

By a Guest Who Was Waiting for Breakfast.

Ogdensburg, N.Y., Sept. 8.—A lively altercation occurred at 8, J. Jackson's boarding house, River street, as a result of which Hermann Oberndorfer, the cook, is in the hospital. He had received instructions not to serve Louis Pierce, one of the boarders, with breakfast unless he settled his bill. Pierce gave his order and waited, but his bacon failed to arrive. He then went back to the kitchen and was informed of the situation. Pierce and the cook then proceeded to scrap and in the scuffle Pierce forced the big German cook on to the hot range. Jackson's daughter heard the screams of the cook and gallantly attacked Pierce from the rear. He let go of the cook and grabbed the girl, but at this point Mr. Jackson arrived in the kitchen and Pierce jumped through a window and escaped. A warrant was sworn out for his arrest. Oberndorfer was badly burned on the back from the neck to the waist.

THINK SHE IS SAFE.

The Steamer Golpie Used by Canadian Government.

Special to the Whig.
Detroit, Mich., Sept. 8.—H. A. Wilkinson of this city, who has friends aboard the steamer Golpie, supposed to have been lost on Lake Superior, in the recent storm, believes that the Golpie was not on Lake Superior at all and that she is safe in some out-of-the-way place beyond communication. He has a postcard, dated from Little Current, Michigan, and saying the boat had struck a rock in French river and was slightly damaged. As she has not since been reported as having passed the Soo, it is not likely that the Golpie was badly storm-torn. Her owners had chartered her to the Canadian government as a lighthouse tender.

LOSS OF LIFE.

By An Earthquake in Calabria.

Special to the Whig.
Catanzaro, Calabria, Italy, Sept. 8.—A violent earthquake at 1.35 o'clock this morning caused serious loss of life, and widespread destruction in Calabria. The towns of Pizzo, Monteleone, Calabria, and Martiano, were almost entirely destroyed. At Monteleone, D.I., Calabria, seven persons were killed outright, and many were injured by the collapse of the prison there. The Pizzo district is said to be almost entirely destroyed. All the houses at Sta. Pataonia have been wrecked, and villages about Tripani have been also destroyed.

Chief Loses His Place.

St. Catharines, Ont., Sept. 8.—The town council of this city has decided to advertise for a chief of police. The present chief, A. Clarke, had a fight recently, in a hotel bar-room with the bartender, the result of which was that, in the police court, he was ordered to pay \$20 in fines and costs. The town council took up the matter, and, not being satisfied with the conduct of the chief, decided to dispense with his services.
