FORTY MEMORIALS

ASKING FOR REPEAL OF PEACE TREATY PRESENTED.

Japan Undertakes Not to Fortify Soya Strait—This Felt to Be Greatest Humiliation—Evacuation Only Partial.

Special to the Whig. Tokyo, Sept. 23.—The number of direct memorials to the throne from different associations and individuals, condemning the peace treaty, and asking that this be not ratified, ex-ceds forty, among them being an ad-dress signed by six professors of the Imperial University. This memorial declares the treaty to be pregnant with elements of humiliation, and fu-ture danger to the national interests. It transpires that in spite of Pre-mier Katsura's assertion to the con-trary to the editors, there exists a clause in the peace treaty, by which Japan undertakes not to fortify Soya Strait, more generally known as La Perouse Strait, which separates Yezo from the Island of Saghalien. As a re-sult, intense indignation is felt among the influential classes, as this is deemed to be the greatest humili-ation Japan has ever suffered.

Evacuation Only Partial. St. Petersburg, Sept. 23.—The eva-cuation of Manchuria, after the rat-ification of the treaty of peace, will be partial only. Several army corps will remain long the Chinese frontier, and until they will be establish-ed along the Amur river.

Winnipeg, Sept. 23.—Plans have been drawn in Winnipeg to erect a warehouse building in Canada to be erected within the next year. The site chosen is on Lombard street; near the Kemp Manufacturing company's build-ing, and the plans call for a building of 115 feet by 115 feet and a length taking in the whole distance from Lombard street to McErmot-avenue, 250 feet. The structure is to be fifteen storeys in height, and will be fire proof throughout. The cover-stories will be used for warehouse purposes, while the upper storeys will be rented as offices. English capitalists are behind the scheme, and the name of A. B. Archer, of London, who has been in the city for several days, and left for Vancouver this morning, is closely associated with the project. The presence in Winnipeg of John A. Pearson, of Toronto, is said to have something to do with the enterprise.

If the building is erected as proposed it will be the finest warehouse build-ing in America. Construction will be on a scale never before attempted in Canada.

SWEETHEART COMES BACK. She Kisses Man; Husband Drinks Drug. Elkhart, Ind., Sept. 23.—Emil Peter-son, a cigarmaker, answered a ring at his front door bell, and was start-led by a woman flinging her arms about his neck, kissing him and call-ing him husband.

The scene was enacted in the pre-sence of Peterson's wife and children. The strange woman was accompanied by two children, which she declared were Peterson's.

Peterson told his wife the woman was Miss Nann Hanson, with whom he had boarded six months nine years ago in Salt Lake City, his wife at that time being in Michigan City, Ind. He denied she ever has his wife. He agreed to pay the woman's railroad expenses to Toledo, where, she said, she had relatives. She was not sat-isfied with this, however, and left, threatening to file suit for support.

Later Peterson drank chloroform in Bolton Bros' saloon and was found unconscious. His life is despaired of.

ACTED HANDSOMELY. Daughter of Superintendent of His Estate Marries. Tarrytown, N.J., Sept. 23.—Miss Mabel Hemmingway, daughter of C. V. Hemmingway, who has been super-intendent of John D. Rockefeller's estate at Westchester, was married yesterday to Walter Vanderbilt.

The ceremony was performed at the home of the bride's father, on the Rockefeller domain, and one of the pleasing features of the event was the presentation of a check to the bride for a large sum from Mr. Rockefeller. The bride is a special favorite of Mr. Rockefeller, and just before he left for Cleveland to spend the summer and fall he bought the Dumont's "King villa," at Pocatone Hills, for \$15,000, and it was learned that in addition to the check he has turned the villa over to the young couple for their future home, free of rent.

The town of Sutter, Sicily, has been buried in a landslide, caused by the bowing of the base of the mountain in mining for sulphur. It was rumored that many persons had been killed and injured, but a major-ity have escaped.

The reason why so many buy Cas-toria at Gibson's Red Cross drug store is because the genuine is sold there, and it always fits like a science. We are ex-perts in that line. A perfect fit guar-anteed. Dr. Chown's drug store.

WIFE A MURDERESS.

Victim of Jealousy Succumbed to His Wounds.

Mount Pleasant, Mich., Sept. 23.—Mrs. M. E. Switzer, Leaton, who is held in jail here, must now face a charge of murder. Her husband, Dr. John Switzer, whom she shot, died last night.

Mrs. Switzer was jealous of Mrs. Cora Willie, Leaton, whose child had been treated by Dr. Switzer. Tuesday night, when the doctor re-ceived a telephone message to go to Coleman, his wife accused him of making a date to meet Mrs. Willie, and the two engaged in an all-night jangle. Finally Mrs. Switzer started for the home of Rev. A. O. Hillwell. The doctor followed, whereupon his wife demanded that he return. When he persisted she fired at him with a thirty-eight-calibre revolver, the first ball passing through the doctor's hat and two shots missed him. The fourth shot struck his body two inches below the heart and appar-ently lodged in his spine.

She is a white-haired woman, aged fifty-nine, and was a widow with two children when Dr. Switzer mar-ried her in Woodstock, Ont., ten years ago. A son, Dr. Chris McCue, lives at Gooddale, Mich. William McCue is a hardware dealer in Ed-monton, Alberta, and a daughter lives in Woodstock.

He has a father and sister at Vancouver, the only relatives he knew of. He was a graduate of the Detroit Medical College.

DESTROYED 15,000,000 CARDS. Promise Uncle Sam They'll Be Good.

Philadelphia, Sept. 23.—That the class of postal cards characterized as vulgar by United States Judge Ban-nerman in a decision rendered at Trenton, last Tuesday, is under the ban of the post office department was fully shown to-day when it was learned that one firm had been put out of the business in this city.

The firm, one of the largest in this vicinity, had 15,000,000 postal cards printed ready for sale and admitted that their presses were unable to turn out a supply sufficient for the demand. The company, in a written statement, to the government, pro-mises to refrain from further publica-tion of the cards and will destroy those on hand.

COMPLETE ACCORD REACHED On Most Points by Moroccan Plenipotentiaries.

Paris, Sept. 23.—Sir, Rosen, Ger-many's plenipotentiary to the interna-tional Moroccan congress and M. Re-voil, France's plenipotentiary, an-nounce that they have reached a com-plete accord upon a majority of the points upon which they are already in agreement, and that only the classifica-tion of minor details remains to be done.

Minister On Strike. Tacoma, Wash., Sept. 23.—Rev. Norman H. Nesbit walked out of his pulpit in the aristocratic First Free church, Sunday, because the congrega-tion had not paid his salary of \$150 a month, giving him only the weekly collections. In place of a ser-mon he delivered a reception, say-ing he considered it "up to the members of the congregation" to pay him as agreed. He then tendered his resigna-tion and left.

Rewards For Ghoulis. Escanaba, Mich., Sept. 23.—Re-wards aggregating \$700 have been of-fered by the Knights of Columbus and St. Joseph Cemetery association for the ghoulis who exhumed the bodies in St. Joseph's and St. Anne's Catholic cemeteries here. A total of 284 monuments in these cemeteries were wrecked. All wooden crosses were pulled up, making it impossible in many instances to locate and dis-tinguish the graves.

Will Not Shake Hands. Richmond, Va., Sept. 23.—President Roosevelt who comes to Richmond for a short visit next month will not be allowed to shake a reception, if a possible danger to which he might be subjected while shaking hands with a miscellaneous gathering. He will be asked to make a short address in the Capitol square. They carried him over to a sidewalk nearby, and telephoned for a physician and priest, Dr. Lacroix, and Rev. Father Des-roches responding to the call. The unfortunate young man, apparently struck by a C. P. R. freight train, was unconscious when picked up, and had one of his arms dislocated, be-sides having two cuts on his head, and his face badly disfigured. He was recognized as Samuel Moroney, aged twenty, son of Japhet Moroney, resid-ing on Prince Edward street. The ambulance was also sent for, but be-fore it arrived the victim of the ac-cident expired on the sidewalk. He was conveyed to his home in the am-bulance, and Coroner Jolicoeur will hold an inquest.

TROOPS SENT

In Large Numbers To Duchy Of Finland.

PERSIAN WORKMEN EXPELLED BY THOUSANDS FROM BAKU.

Russians and Armenians Leave in Large Numbers—Doctors and Engineers Flee—Riots for Trouble.

Special to the Whig. St. Petersburg, Sept. 23.—An ex-plosion took place near the governor's house in Yar, Finland. No details of the affair are obtainable. It is re-ported that 900 troops are expected at Vibora, 900 at Vasa, and 4,500 at Helsinki. The troops will be quar-tered in private houses.

Fifteen Thousand Expelled. Baku, Sept. 23.—Fifteen thousand Persian workmen have been expelled from the oil region, and a similar number are to follow. Russians and Armenians are also leaving in large numbers. Lack of labor is likely to render the resumption of work diffi-cult. Bands of robbers continue to attack the trains, firing upon the pas-sengers in them. In one case fifty-three passengers were wounded, and one was killed. The robbers endeavored to cap-ture the mails, but a party of Cos-acks dispersed them. The water sup-ply of Baku has been suspended. The members of the municipal govern-ment, the doctors and the engineers have fled.

Troops Hurried To Finland. London, Sept. 23.—The Times St. Petersburg correspondent cables that the threats of further repressive mea-sures against the Finns are already being carried into effect. Several thou-sand troops have been hurried to var-ious points in the Grand Duchy in the last two days. Unless the Russian au-thorities in Finland display a course of leniency and discrimination, which have been lamentably absent in Poland and the caucases, the despatch adds, the result is bound to be deplorable.

The Russian authorities seem to have got frightened, and to think that Finland is ripe for insurrection.

ATLANTA IS SORRY Formally Apologizes for Mayor Woodward's Act.

Toledo, Ohio, Sept. 23.—Atlanta's formal apology for the conduct of Mayor Woodward, of that city, during the sessions of the League of Ameri-can Municipalities, last month, reach-ed the mayor's office, yesterday, at-ested by City Clerk W. J. Campbell and bearing the official seal of the city.

The council of Atlanta, as a com-mittee of the whole, recites the alleg-ed misconduct of Mayor Woodward, that he appeared at the convention in a state of partial intoxication and as conducted himself while in Toledo as to bring discredit upon Atlanta, and humiliation to her people, thus outraging the sentiment and spirit of our people.

The resolutions follow: "That we deplore and condemn the spectacle made of himself by the mayor of At-lanta on August 24th on the floor of the convention, and his conduct dur-ing his sojourn in Toledo, Ohio. That the condition and conduct of Mayor Woodward on the occasion mentioned are in no wise typical of Atlanta, but meet with the severest censure of the body and the strongest condemnation of our people."

A YOUNG MAN DEAD. He Was Struck by a C.P.R. Train.

Special to the Whig. Quebec, Sept. 23.—Shortly after eight o'clock, last evening, as H. Gagnon, and a couple of friends, were passing along Dorchester street, St. Roch, near the C. P. R. track, they came across the body of a young man lying alongside of the track. They carried him over to a sidewalk nearby, and telephoned for a physician and priest, Dr. Lacroix, and Rev. Father Des-roches responding to the call. The unfortunate young man, apparently struck by a C. P. R. freight train, was unconscious when picked up, and had one of his arms dislocated, be-sides having two cuts on his head, and his face badly disfigured. He was recognized as Samuel Moroney, aged twenty, son of Japhet Moroney, resid-ing on Prince Edward street. The ambulance was also sent for, but be-fore it arrived the victim of the ac-cident expired on the sidewalk. He was conveyed to his home in the am-bulance, and Coroner Jolicoeur will hold an inquest.

Inland Freight Combine. Winnipeg, Sept. 23.—The Free Press says: The conditions at present govern-ing the outward movement of wheat from Fort William are by no means satisfactory to shippers. Some-thing slowly resembling an inland freight combine appears to exist among the Canadian vessel owners. At any rate there is an agreement fixing rates in which possibly all the Canadian ship-owners but one are included.

Toadstools Had Deadly Effect. Toronto, Sept. 23.—On Sunday last Joseph Goulding, his wife, eight chil-dren and a nephew, Freddie Goulding ate toadstools in mistake for mush-rooms, and soon afterwards all were taken sick. On Wednesday morning Freddie died, and Friday morning Mr. Goulding, the father, succumbed to the ill effects of the dose. The eldest son is dangerously ill, but all the other members of the family are recovering.

TRIED TO KILL HIMSELF.

Views Loss of His Ship as Personal Disgrace.

Tokio, Sept. 23.—A special to the Jiji from Sasebo says that Captain Iwichi, commander of the ill-fated Mi-kasa, made an attempt to commit suicide, after an address to the sur-vivors of the warship, by jumping from a window.

He was severely wounded about the head, and is now reported to be in a critical condition in the Sasebo Naval Hospital.

It is said that shortly after the de-struction of the Mikasa Captain Iwichi collected the surviving members of the vessel's crew in a room in the Sailors Training School, and spoke briefly and feelingly upon the loss of the ship.

He said that after enjoying a series of victories he regarded the loss of the Mikasa as one of personal responsi-bility, but he advised his men not to lose heart.

Captain Iwichi was not on the war-ship at the time of the disaster, but he boarded the vessel when the fire was raging and did his utmost to save the ship.

ARM WAS CRUSHED. Little Boy Caught in a Corn Cutter.

Brookville, Sept. 23.—A farmer named J. Henderson, running a corn-cutter and binder in the field, found that the machine suddenly clogged. Stopping the team, he found that a three-year-old son of Mr. Fuller had gone into the field without anyone knowing it, and had concealed him-self in the corn. His arm, just above the wrist, had gotten into the ma-chine and was badly torn, mangled and broken. There are hopes of sav-ing the arm. Henderson, though only fifteen years of age, displayed won-derful presence of mind. He was alone and had to literally dig the arm out of the machine with his jack-knife. Placing his finger above the torn place and holding tightly to prevent the loss of blood, he carried the injured child to the house and held it until a doctor arrived.

A Father's Awful Deed. Madison, Ind., Sept. 23.—George Ford, a young farmer, residing on Beatty's ridge, twenty miles east of Madison, was found wandering aim-lessly about near Vevay, yesterday, apparently not in his right mind. About eight o'clock his neighbors went to his home, which was found in ashes, and in the debris was discover-ed the lifeless remains of his wife and three children. Ford was taken to his father's house, nearby, and steadily refused to answer any questions or say anything about the awful holocaust. The family is a respectable one, and the news of the tragedy has pro-duced a mournful sensation. It is re-called by some that Ford had been acting strangely of late, and occasion-ally talked in an incoherent way about
