IT IS UNFAVORED

CITY OFFICIALS HAVE SCANT ENOUGH ROOM.

Three Will Be Thrust Out of Offices if the Board of Education Headquarters Were to Be in City Buildings.

The proposed remodeling of the city buildings include the Board of Education headquarters has yet to receive the city council's sanction.

The question of renovating the east wing was discussed by the city property committee last January.

The scheme of heating the wing would doubtless have met with favor, which the present scheme does not.

Why then, it is asked, should the Board of Education headquarters be moved to the city buildings?

THE ICE SHORTAGE

A Proof That Kingston Enjoyed a Real Summer.

There are a great many people who have been pleased to say that the summer just passed was not warm.

The ice houses prove that conclusively. Last winter, there was more ice than for some years past.

The condition of things to-day is well-known. The supply is nearly at an end.

One meat merchant who had a couple of tons to spare a year ago, has now enough left to last another week.

The summer was decidedly warm, including the nights. The warmth was steady and prolonged.

The ice dealers will likely begin to store earlier and put away a larger amount, in view of present conditions.
