## A NEW TREATY

### Between Great Britain And Japan.

### THE TEXT THEREOF

ISSUED BY THE BRITISH FOREIGN OFFICE.

### Defensive Alliance Not Intended As Menace, But As Guarantee of Peace and Prosperity—Copies Sent Russia and France.

London, Sept. 27.—The text of the new agreement between Great Britain and Japan, which was signed by Lord Lansdowne, the British foreign secretary and Baron Hayashi, the Japanese minister to Great Britain, on August 22nd, was issued by the foreign office last night. The momentous document is one comprising less than 800 words, and includes eight articles and a preamble. Accompanying the agreement is a letter from Lord Lansdowne to the British ambassador at St. Petersburg, and Paris, for transmission to the Russian and French governments, respectively, in which the foreign secretary reviews the agreement and points out that the new defensive alliance is not intended as a menace, but rather as a guarantee of peace and prosperity, in the far east, in which all countries may participate. The preamble to the treaty reads as follows: "The governments of Great Britain and Japan, being desirous of replacing the agreement agreed between them, January 30th, 1902, by fresh stipulations, have agreed upon the following articles, which have for their object: (A) The consolidation and the maintenance of general peace in the regions of eastern Asia and India. (B) The preservation of the common interests of all the powers in China, in insuring the independence and integrity of China, and the principles of equal opportunities for the commerce and industry of all nations in China. (C) The maintenance of the territorial rights of the high contracting parties in the regions of Eastern Asia and of India and the defence of their special interests in the said regions. The alliance practically makes Great Britain, Japan and Japan Great Britain for purposes of defence "in the regions of East Asia and India." This inclusion of India, specifically, as a point at which any aggression by a foreign power will be met with assistance of Japan, finds much favor with the press of London, the morning papers, in long laudatory articles, welcoming the new and more extensive alliance of the two great kingdoms, west and east as giving immediate relief from the dangerous thunder cloud which for so many years has hung over the Indian frontier. While there is some criticism of the treaty in the radical newspapers, it is only half-hearted.

Buda Pest, Sept. 27.—The popular excitement is spreading. The independent party, it is believed has gained 10,000 new adherents, at the expense of the liberals and socialists. ## A SLOW MOVE

The Chinese Will Not Stand For It.

China Will Not Agree to Allow 18 Months for the Evacuation Nor to 15,000 Armed Guards.

Washington, Sept. 27.—The Chinese government a week or more ago made a formal protest to the Russian and Japanese governments concerning two of the conditions set forth in the treaty of peace signed at Portsmouth. China objects to two things: First, the length of time allowed for the evacuation of Manchuria, and second, the provisions made for an armed guard for the railroad lines owned by Russia and Japan in Manchuria. China believes that nine months is entirely sufficient time within which Japan and Russia shall evacuate Manchuria, instead of eighteen months, provided in the peace treaty. The provision made for guarding the railroad lines, the Chinese contend, contemplates an armed force of probably 15,000 men in Chinese territory. The Chinese government regards the maintenance of the guard in Manchuria of such size as a menace, and it does not propose to agree to such a plan.

## AGREEMENT IS LIKELY

Between Germany and France Over Morocco.

Berlin, Sept. 27.—The Berlin correspondent of the Paris Temps states that after the interview with Chancellor von Buelow, on Monday, M. De Wittes informed M. Riboud, the French ambassador to Germany, that Russia was interesting itself in the Moroccan question, and would give France the fullest support. The present negotiations, the correspondent adds, will result, shortly, in a clear and amicable understanding between Germany and France.

The correspondent is informed by the foreign office that the agreement between Germany and France, upon the international congress, was ratified at the meeting on Monday night. Germany and France agreed on the points to be laid before the sultan of Morocco, and embodied them in the form of diplomatic notes. These will constitute the programme which Germany and France will present, mutually to congress. There is every reason to suppose that the sultan will accept the programme, and lay it before the congress, which will offer no demur on any important point.

## CAPTAINS ARE BLAMED.

Company Says They Must Quit Canadian Waters.

Buffalo, N.Y., Sept. 27.—Vernon Booth, of the firm of Booth & Co., of Chicago, one of the largest companies in the fishing industry on the great lakes, said that the companies interested in fishing in Lake Erie did not uphold the captains of fishing boats who have been poaching in Canadian waters. The captain of the tug, he said, had a financial interest in the boats and were willing to run the risk of poaching for the sake of gain. The fishing companies, Mr. Booth said, regretted the recent occurrences of a warlike character, and he added that if the captains could not be curbed, the only alternative would be to use boats owned entirely by the companies.

This woman's niece made a complaint that in 1888, Cameron had married Mary Remley of Cohoes, who is still living. Cameron is sixty years old.

## LIKELY TO GET OFF.

The Men Cannot Be Convicted in Toronto.

## Typhoid Epidemic In Toronto

Toronto, Sept. 27.—Much comment has been caused by the fact that the number of patients in the hospitals of the city very greatly exceed that of the same period last year. This is caused by the large number of patients, male and female, who are suffering from typhoid fever, to accommodate whom the resources of the hospitals are being taxed to the utmost. So far the mortality has not been excessive, but there is no disguising the fact that the disease has become epidemic in its character.
