 "Fruit-a-lives" changed Pale, of Health.
 carried all over the system by the Heartburn, Sour Stomach, Indigestion, Laches, Backaches, Sallow Skin, Pimples, etc.
 who wants complexion
 free of headaches and backaches well, sleep well and look well well ALL THE TIME
 if she takes "Fruit-a-lives."
 Happiness of health in
 lives
 and the black circles under my eyes went away. The pain in the back gradually disappeared by the first of August after I had taken three boxes. Since then I have continued to improve and now I have none of my old symptoms and my appearance is good, digestion splendid and my young girl. Also the constipation from which I had suffered so long has been entirely cured and it is not necessary for me to take the "Fruit-a-lives" now as I am quite well but I followed faithfully the directions as to diet etc. given in the pamphlet which accompanies each box of "Fruit-a-lives."
 To all persons suffering from constipation and indigestion, headache and backache, and particularly those with sallow complexion, I would strongly recommend them to try "Fruit-a-lives" and faithfully carry out the directions in the pamphlet, and I feel certain they will find this medicine simply marvelous. I might also say that the action of "Fruit-a-lives" is very mild and non-irritating, no griping is felt and the stomach is sweetened by taking them.
 [Signed] FLORENCE JAMISON.
 cure Constipation just as surely as pain.
 Take "Fruit-a-lives."
 these health preserving, pleasant worth ten times so, to any woman the luxury of perfect health.

Armour's Extract of Beef in the Kitchen.
 Armour's Extract of Beef gives a rich flavor of roast beef to hash, stews, ragouts and potpies. It restores to left-over meats the full flavor lost in the first cooking. With Armour's Extract of Beef in the kitchen a soup or sauce is made ready for the table in a few minutes that it would take an hour or two to prepare with fresh meat, and it would not be as good and would cost more.
 Don't forget that a 2-ounce jar of Armour's Extract of Beef will go further than an 8-ounce bottle of Fluid Beef. It is therefore less expensive. Use a quarter teaspoonful to make a cup of beef broth, etc., etc.
 Sold by all Grocers and Druggists.
Armour Limited, Toronto, Ont.
Armour Tomato and Beef Soup
 An appetizing relish for steaks, chops, roasts, pork and beans, and fish of all kind. It is just a little bit better than others.

ANTHRACITE MINE OWNERS
 Must Soon Give Definite Answer.
 Wilkesbarre, Pa., Sept. 30.—The anthracite region will have to give a definite answer to the demands of the miners, is rapidly approaching and the situation is becoming clearer defined every day. The statement that President Taft, during his recent visit to the anthracite region, had declared the demand of the miners for an eight-hour day would not be granted, seems to have made no impression upon the miners and their leaders. One of them said in an interview today, that the miners would insist upon the demand for an eight-hour day. The miners in the soft coal region only worked eight hours and the work of the miners in the anthracite region is even more difficult and hazardous than that of the soft-coal miners. There was no reason why the demand for an eight-hour day should not be granted. The miners would insist upon that point. They considered it of far greater importance than even the recognition of the union.

Didn't Agree.
 Chicago Inter-Ocean.
 Bishop Bloomfield discovered one day as he entered the pulpit that he had forgotten the manuscript of his sermon. It was impossible to do as his Scottish minister did in similar circumstances, send for the sermon from his home while the congregation sang Psalm 119. No, he must preach extempore, and did so, taking for his theme the existence of God. Very well satisfied he felt with his effort. As he walked home he overtook one of his congregation, whose opinion of the sermon he invited. "Well, it was a very good sermon," was the reply, "but I don't agree with it. I believe there is a God!"

Portrait of Charles I. and Queen Henrietta Maria by Sir Anthony Van Dyck, were sold recently at Christie's, London, for \$89,250.

A FASHION LETTER
GOOD SEASON FOR TAILORS AND DRESSMAKERS.
 Women Must Have Three Tailor-Mades to Be in Swim—Long Coat Popular—Green Prominent in Colors.
 Special to the Whig.
 New York, Sept. 30.—This seems to be a prosperous season for the tailors and dressmakers. They are busy earlier than ever before getting out orders for the coming season. Broadcloth and velvet costumes seem to be more in demand than ever, and the other materials used in making up the necessary gowns, of which by the way, there seem to be a larger number needed than formerly, are of the finest quality. Instead of one tailor suit for every-day wear, the woman who wishes to be in the swim must have three. One of these is the walking frock with short skirt for rough wear. Another is a more elaborate walking suit, and the third is a visiting or carriage costume. The same rule applies to the men of the year. Where once was sufficient formerly milady now needs at least three for various occasions. Speaking of coats, the long model seems to be by far the most popular. It is the latest handsome tailored costume seen thus far show the long coat in some form. The lines of most of them are very similar, the variety being secured in the clever way in which the trimming is put on. The long coat which fits and looks the best is the one in which the skirts and body are made separate and then joined at the waist line. This is so skilfully done in some instances that the coat looks as if it had been fashioned in one piece.
 Soft medium shades of gray are to be among the popular colors; this season. There are many costumes of gray cloth among the latest models. The long coats of these being trimmed with silk or velvet of a slightly darker shade set on in stitched bands. A new tone called paltine seems to have first place among the different shades of gray which will be used in millinery and dress styles. Touches of gold or silver judiciously used are one of the novelties in the way of ornamentation on some of the new costumes. They are, however, to be skilfully applied and not overdone as too much of either at once takes away from the smart look of the gown and makes it common.
 Green holds a prominent place among the autumn colorings and is to be seen in all the olive shades, grayish olive which the Parisians call pea soup green being much used, both in costumes and millinery. This color is not becoming to everyone and should be used with care. If properly combined with the right shades it is soft and attractive.
 Reds of all shades and tones; warm rich yellow or brown reds, blue reds, in all the fascinating shadings, are seen everywhere. Anyone who loves this warm color for winter wear ought to be able to satisfy her taste which will be becoming and smart looking.
 The rich wine reds may be found joined with brown in some of the most beautiful shaded plaids. Whether the plaid will be popular, on this side of the water is a question which remains to be decided yet. On the other side they are wearing them in large checks and pronounced colorings, but America has never taken kindly to the sharp contrasts in plaids, and it is hardly probable that they will have much vogue here. The quieter tartans and color schemes will have the preference with those who favor this style of material.
 Besides the costumes made of the plaids, combinations of the mixed goods with plain material in one of the colors predominating in the plaid are seen in a variety of styles. These are skirts of the mixed cloth with the coat of plain goods. Or, the whole costume may be of plain material with the trimming consisting of bands of some harmonizing plaid applied in bands and straps.
 Broadcloth bids fair to be the rage this season for visiting and walking costumes of all kinds. All the new shades are to be had in this popular and handsome material. The new browns are on the same style as the faded leaf tones which were popular last season, but besides these there is a light copper brown which seems to be destined to become a fad this season.
 Blues, in spite of predictions to the contrary, are to be as popular as ever, especially the navy blues which are always serviceable and becoming for street wear. A new shade of electric blue somewhat on the style of the once popular cadet blue will also be much worn. Alice blue has been superseded by turquoise, peacock and kingfisher blues, both in millinery and gowns.
 Velvet for street costumes is one of the popular materials and will divide the honors with broadcloth and the other materials popular for such gowns. The quality of the material and the variety of coloring was never so good as now and its success is already assured by the demand at this early date for whole costumes of velvet.
 With the first signs of cool weather, women are turning their attention again to the separate blouse which has been conspicuous by its absence from the summer wardrobe. The new styles are in the form of long, thin, sheer lingerie forms. These same lingerie blouses will be worn all winter with slips of china silk under frocks and warm coats. The innovation of

Largest Organ In The Body.
 Is the liver. Small wonder that liver trouble makes you feel so miserable. The symptoms are constant pain, dizziness, indigestion, headache, feeling of depression and lack of appetite.
 There is but one cure—Dr. Hamilton's Pills. In every case they are successful. By relying on Dr. Hamilton's Pills you are sure of strong vitality, nourishing blood, bright cheery spirits. No longer will you suffer from disordered liver or kidneys. The marvel of this medicine is that it keeps you well—prevents and wards off sickness of every kind; 25c. per box everywhere.
A Man of The Day.
 "Truth" states that the king has appointed the Rev. Leonard Tyrwhitt, vicar of Fenton, Staffordshire, to act as chaplain to the Prince and Princess of Wales on board H.M.S. Renown during their voyages to India and back. Mr. Tyrwhitt, who is one of the youngest sons of the late Baroness Berners and the late Sir Henry Tyrwhitt, has been vicar of Fenton, which is a large parish in the Potteries, for ten years. He is also a chaplain-in-ordinary to his majesty. It is generally expected that Mr. Tyrwhitt will be the next rector of Sandringham if that living should become vacant by the preferment of Canon Harvey.

Destroyed All The Roots.
 Not sufficient to ease a corn—you must cure it for all time. Use Putnam's Corn Extractor and both root and branch of the corn are forever removed. No pain, quick cure. Use only Putnam's.
 There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local remedies, it has become constitutional and general. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to 100, and acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Write for circular. Hall's Family Pills for constipation.

Where does your Heat go to?
 Every stick of wood, every piece of coal contains a certain number of heat units, according to the size and quality of the stick or chunk.
 Now some ranges let these heat units escape up the chimney. Heat units which go up the chimney do not heat the oven or the frying-pan. They are wasted. Every heat unit that is wasted is money lost, money burnt. The science of range building is the successful utilization of all the heat units.
 The Pandora Range is the only range that utilizes all the heat units and sends none up the chimney.
 You can't put your hand over the chimney when some ranges are in use, because so much heat goes up the chimney. Your hand would be burned. That is heat wasted, money wasted, time wasted, because it takes so much longer to do your work when a large part of your heat is lost.
 The Pandora Range is built to keep all the heat units in the range—keeps them there till the heat is exhausted—it is the only range that does not waste heat. It uses all the heat there is in the coal or wood.
 That's the kind of range you want in your kitchen—it is economical—it saves coal, wood, money, time. It makes kitchen work easy.

FIG IRON MILLS
 In Pittsburgh Work Night and Day.
 Pittsburgh, Pa., Sept. 30.—The pig iron mills in this district are working day and night to keep up with the enormous demand for pig iron and now orders are constantly coming in. The United States steel corporation, better known as the steel trust, has closed a contract for 20,000 tons of Bessemer pig iron for delivery early in October at the minimum rate of \$15 a ton with the Valley Furnaces. One half of the order went to the Bessemer Furnace Association and the other half to W. P. Snyder & Co. The corporation is expected to duplicate the order for October, and will be a regular buyer all the year taking about 80,000 tons a month. The Cambria Steel company has also entered the pig iron market and has closed contract for 20,000 tons of Bessemer and basic iron for delivery during the last quarter of the year.
Fall Importation.
 Prevost, Brock street, has received all his fall importations for outer work, consisting of Scotch and English tweeds, blue and black serges, chevrot and venetian for suitings, a great variety, nine splendid assortments of black and blue beaver and fancy overcoatings. A splendid assortment of paring at prices that defy competition.
 Henry Cunningham, piano tuner from Chickering's. Orders received at McAnley's book store, Princess street. McLeod's tooth paste in tubes, 15c. each. McLeod's Drug Store.

Carling's Ale
 Noted for its Purity, Brilliance and Uniformity.
 The barley used in Carling's Ale is grown in the most favored barley growing sections in the world, and selected by Carling's own experts.
 Every pound is put through a machine which separates all imperfect grains and foreign substances.
 The same expense and care is given to every part of the Carling process—the result is that Carling's Ale is popularly known as Canada's favorite beverage.
 Sold by all enterprising dealers.
