BELGIUM'S GAME UP

In Congo Free State—Leopold in Trouble.

London, Oct. 11.—According to the Chronicle, King Leopold is secretly making overtures to various political notabilities, with the view to procuring the immediate annexation of the Congo Free State by Belgium. The proposal will be engineered on the patriotic ground that Great Britain is seeking territorial aggrandizement at the Congo State's expense, but the real reason is that King Leopold, and his financial friends, who for years have bled the state to death, see that their game is up. It is doubtful, however, whether Belgium will consent to annexation, owing to her realization of the frightful task it will be to remedy the ravages of the last ten years.

AMERICAN CAPITALISTS

Lease Ship-Building on Baltic and Black Seas.

Copenhagen, Oct. 11.—A despatch to the Politiken, from St. Petersburg, says that American capitalists have secured the lease of a number of ship-building wharfs on the Baltic and Black Seas. The wharves which the government intend to have built in Russia, will be constructed, almost exclusively, by American engineers and American workmen, formally supervised by Russian officials.

Famine in Southern Spain.

Gibraltar, Oct. 11.—Great poverty prevails throughout Spain, due to the disastrous harvest. The cattle are dying for want of water and food. Highway robberies are of daily occurrence. The authorities of Gibraltar are taking precautions to prevent the spread of cholera. A freight train one flat car was demolished, while a car containing soft coal was burned. The passenger train was running thirty miles an hour.

Not Yet Identified.

Washington, Oct. 11.—The treaty of peace between Russia and Japan will become effective upon its approval without awaiting the formal exchange of ratifications at Washington. This information was imparted at the Japanese legation to-day.

This course has been decided upon, so that the speediest possible termination of the war may be had. The treaty, it is understood, has passed through the necessary preliminary stages of approval in each country and now is before the respective emperors of Japan and Russia for the royal signatures.

As soon as it has been signed the fact will be communicated by cable to

STATE OF SIEGE.

Liverpool, Oct. 11.—A shipping firm here, yesterday, received a despatch from Buenos Ayres stating a general strike is in progress and business is suspended. A later despatch says that a state of siege has been proclaimed.

NEGRO KILLED THREE.

Barricaded in House, He Stood Off Police.

Chicago, Oct. 11.—Robert Newcomb, colored, last night, went to the home of Mrs. Florence Force, colored, in West Sixty-first street, and during a quarrel, shot her dead. Robert Shaw, colored, went to the assistance of Mrs. Force, and was fatally shot.

Newcomb then barricaded himself at home and stood off two squads of policemen for an hour, firing many shots and killing Officer John Shine. During a fusillade, a hurt was made on the house by policemen and Newcomb was captured and guarded from a large crowd by several officers, armed with rifles, and taken to jail.

Fog Caused Collision.

Watertown, Oct. 10.—On account of the heavy fog the passenger train leaving this city at an early hour, and a local freight train collided about 6.30 o'clock. The passenger engine had the cab burned off. The combination mail and baggage coach was derailed and telescoped, while the smoker was hurled on top of it. The mail clerk and baggage man escaped without injury, but Engineer William Bell, of the passenger train, jumped and received serious internal injuries. The fireman on the same train received several bad cuts about the head and face. On account of the early hour, few passengers were aboard and none were injured. From the freight train one flat car was demolished, while a car containing soft coal was burned. The passenger train was running thirty miles an hour.

WORK BEGUN

On Tunnel Under the Detroit River.

Windsor, Ont., Oct. 11.—Active operations have begun on the tunnel under the Detroit river, being built by the Michigan Central railway, and there will be no cessation of work from now until the big hole is completed. Test holes are being sunk on this side of the river from the shore to a point 5,500 feet from the river. So far mostly blue clay has been found with little indication of quick sand. The engineers are much pleased with the results of the tests.

HE CAN'T BE HANGED.

Alleged Murderer Has Ossification of the Neck.

Chicago, Ill., Oct. 11.—Because of a peculiar freak of nature, Robert Gardner, charged with the murder of Agnes Morrison, may escape the death penalty. When his was arranged, his attorney startled the court by saying: "This is a case where it won't do you any good to ask for the death penalty. They can't break this man's neck if they do try to hang him, and you may lose him altogether by hanging him, and failing to execute the sentence in full." It appears that the prisoner is suffering from ossification of the vertebrae and tissues of the neck. According to Prof. Stevenson of Rush Medical College, only five similar cases have ever come to the notice of the medical profession. The attorney declares that the hardening of the bone and tissues has proceeded so far that it would be impossible to bring any strain upon the patient's neck that would be sufficiently severe to cause any discomfort, other than a slight straining of the muscles.

WOLF SEIZED INFANT.

Was Carrying It Off When Mother Rescued It.

Paris, Oct. 11.—The inhabitants of the little village of Mircourt, in the Vosges, are living in a state of terror owing to the incursions of wolves from the neighboring forests. Sheep and cattle are being killed and fowls carried off by the score.

As a peasant woman was returning home she met a wolf running out of her cottage carrying her baby in its mouth. She seized a wooden bucket and hung it at the wolf, which dropped the child and fled. A hunt was organized by the villagers, and the animal was killed later in the evening.

A corps of sentries has been organized for the protection of the flock, and lives of the inhabitants. They will keep guard night and day.

The presence of the wolves in the neighborhood of the peasants' houses so early in the season is taken as indicating a hard winter.
