Hildebrand's attack on Jailer Wise, hegun as soon as they entered the jail office, was for the purpose of wresting the keys from the jailer. Wise was carrying the keys in his hip locket, and Hildebrand made a desperate effort to reach them. When he was thrown aside by the jailer, Hildebrand drew the gun from his right treusers pocket and opened fire.

The Pumpkin,

The following essay on "The Pumpfrom the collection of Mark Tawin's "Editorial Wild Oats" was written thirty years ago not long after Mr. Clemens terminated his brief residence in Buffalo

This berry is a favorite with the natives of the interior of New England who prefer it to the gooseberry for the making of fruit cake, and .. who ikewise give it the preference over the raspherry for feeding cows, as being more filling and fully as satisfying. The pumpkin is the only esculent the orange family that will thrive the north, except the gourd and one or two varitieties of squash. But the custom of planting it in the front yard with the shrubbery is fast going out of vogue, for it is now generally conceded that the pumpkin as a shade tree is a failure.
