SKETCH OF THE LAND BY KINGSTONIAN.

The Writer Speaks of Omaha and Its Beauty-Was Glad When He Saw the Glowing Tints of Our Canadian Autumn.

Denver having been left at 4:35 on the 19th September, we wended our way back to Omaha through Colorado and Nebraska, where we found another large hustling and progressive city, where over a fortnight was spent While not so uniformly complete and grand as the former city, it some beautiful sections which excel those presented by Denver. covers a wide area and is rapidly growing, having extensive manufacturing industries, especially those requir ed in the handling of minerals, smelt ing; meat packing, increasing railway growth, and in many other ways too numerous to mention. Every one here appears to be unusually busy, having plenty of money, and every one rides on the street cars which is not to be wondered at, as like Denver, in this matter also, it is a place of magnificent distances, which sucks the blood out of the patrons of the cars as nothing else can. One needs to be a millionaire, almost, in order to keep up with this demand, which cannot be avoided people have to travel, who are en- age, which is shameful and unnecesgaged at places far from their homes. | sary. shops in various sections of the city have got into a rather ramshackle condition for the want of being regularly titivated up and repaired, and having the necessary paint applied to them. Most of these are frame residential and shop properties, in the older sections of the city, but the down-town commercial properties and places of business are very fine, costly and heavy. At the same time Omaha has very many beautiful residential sections, much of which is of a very picturesque and varying characabounding in valleys, hills, many than is Denver, house rent alone be-

Ferguson, Dr. Walkem and house, until it is fit to be forced into Dean of Ontario. made by Messrs, Chalmers & Co., Ferguson, who moved the vote Chicago, and Milwaukee, Illinois, and I thanks at the close of the address. are capable of keeping the city constantly supplied, if need be, with 20,-000,000 gallons of water. A most competent staff of engineers are regularly employed to conduct this business, and everything, as massive as it is, runs as regularly and easily as

This village is seven miles from the city, to which a friend of mine and myself walked. There are hundreds of other things in the city of which much might be written, but time and space forbid it, and, therefore, the story must be curtailed. It might be said, however, that as many large buildings and stores as there are in the city, there is one now in course of enlargement, called the Boston store, which is to be extended to premises nearby, half a block in extent, which has been excavated twenty feet deep receive additional walls, which, as well as those already built, are to be erected sufficiently high for eight storeys in all sections of it, so as to be large enough to enable the proprietors to perform their extensive business, much of which is to be done under the ordinary level of the per storeys will be used as offices and the other portions of five or six storeys and basements utilized for department store business.

We left our friends at this great city 7th, and proceeded to Chicago, an- tended the fair at Odessa report account, so vast and important is everything to be met with there, especially its public official buildings, state and municipal, and its beautiful parks; but this must not, and will not be attempted. All its streets are squarely laid out, and lie parallel to each other; by which means the best results are attained. Toronto was reached at 7.30 on Monday morning, and was left at fifteen minutes to two in the afternoon. This beautiful city of our own. deserves lengthened and favorable comment, such a lovely place is it, but for the same reason, it must be rassed by in silence. While we made our way to

at the same particular to the same particular to the same of the s

for, and decides to plant in it, excelled by none excepting perhaps our own great North-West. Our variegated and beautifully tinted foliage was missed until we came to Pickering, this side of Toronto, when the scarlets, crome yellows and other beautiful colors for which the foliage of our lovely eastern Canada is noted, conspicuously loomed up, and increased in volume as we proceeded further east, and forcibly reminded us of home. Stoney ground until we touched Guelph, was also conspicuous by its absence throughout the whole journey, no stones whatever having been seen, except in the Rocky Mountain region. This reminded us of what may be witnessed out on the K. & P. railroad, not far from our

own Limestone City. While I can speak only in the highterms of all that the railroad peodid to make every one comfortaand safe, and took their live cargoes speedily to their destination, would suggest that trunk manufacturers make their wares more durable, reliable, substantial, and satisfactory, instead of in the flimsy manner that they do, in order that they may bear the rough usage, wear and tear, which trainmen and baggage smashers, the hurry which they are compelled necessity to adopt in order to get the goods they have to handle to their destination in time, and to train managers to see that due precaution be exercised to preserve those goods from unduly rough handling so that they be better preserved from wilful owing to the long distances which and shameful molestation and wreck-

THE HISTORIANS MEET

Hear a Talk By Dr. Walkem. The first meeting for the season of

the Kingston Historical Society was held in St. George's hall, on Tues lay evening, the second vice-president, Miss Gildersleeve, in the chair. A new member, William Allen, the Brock street historian, was introduced, and

House Work **Need Not** Wear Her Out The drudgery of house work seems never ending to tired-out, dispirited women who suffer from female complaints or irregularities. flammation and ulceration of the womb and ovaries cause fearful bearing down pains which are aggravated by much standing on the feet, and lifting necessary in house work. But let no woman despair of relief from this torture. That famous tonic reconstructor of diseased or disordered female organism, Lydia E. Pinkham's Vegetable Compound has cured more than five hundred thousand American Women, and it will cure you. When monthly periods are painful or irregular, when

backaches and headaches drive out all ambition, Lydia E. Pinkham's Vegetable Compound will bring back health, strength, and happiness.

It Made Me a Well Woman

Dear Mrs. Pinkham :- Lydia E. Pinkham's Vegetable Compound has done more for me than doctors or medicines. I suffered for four months with suppression of monthly periods. Headaches were a daily occurrence. Pains in my back and limbs made it hard for me to attend to my domestic duties.

The medicines I had taken did not help me, and I was in misery and despair until one day I read an account of your Vegetable Compound, and decided to try it, and I thank God that I did so, for it not only regulated my monthly periods, but made me a well woman.

MADAME CAROLINE MARTINEAU, 22 La Chapelle St., Quebec, Que.

Do not let disease make headway. Write at once to Mrs. Pinkham, Lynn, Mass. Her advice is free and will contain information of great value to you.

POET SEEKS DIVORCE TO WED. Attentions to a Rich Widow

Cause Scandal. Rome, Oct. 181-A new scandal here which it is required, no less than four | Walkem gave a most interesting talk is causing much comment, One of the engines being required for all these on Australia, illustrating it with a principals is Italy's famous and most the water runs are immensely large, touched on matters of deep interest, Some months ago it was said that he wished to marry Signora Carlotti, the clean and in first-class working order. | treating them in the graphic way | widowed daughter of the great ex-

The couple spent such great sums of money that the relatives of Signora' Carlotti's dead husband demanded a delicate and massive machinery was doctor was warmly thanked by Prof. | declaration by law of her irresponsibility, and had her children's fortune put under an administrator. It is now stated that Signor d'Annunzio has gone to Switzerland, and adopted Swiss nationality, as he desires to divorce his wife, which he cannot do as an Italian. Roman society is much excited over

the romance, and anxious to see how

it will end.

The church has won again in a bitter campaign. The Plainfield, N.J., Country Club proposed to introduce Sunday golf, for the enjoyment of six hundred members, chiefly New York bankers and professional men. Thirty Protestant clergymen protested to th lub and impressed upon the people the evil effect of an open Sunday. The re sult of the agitation was defeat of the proposal by a shortage of twenty-five on a two-thirds vote. But the club has a godless majority clearly. The monument to Gladstone in Lon-

ion will be unveiled October 21st
