

**When you know you have a Liver**

Fruit-a-tives let you forget it. Nothing makes you so thoroughly uncomfortable as a torpid liver—and nothing makes you so thoroughly comfortable as Fruit-a-tives.

Fruit-a-tives wake up the liver like a cold bath glows the skin—make the liver give up more bile—make the bowels move regularly—clean the stomach—clear up the complexion.

"I have had a good chance to try your Fruit-a-tives as I have been bed for a week with a Bilious Attack. I am now getting around fine, thanks to Fruit-a-tives. I have used nearly a box and they do their work all right."

MAK E. H. WALLIS, St. Mary's, Ont.

Fruit-a-tives are the discovery of an Ottawa physician. After years of experimenting, he accidentally found the secret process by which fruit juices can be combined and their medicinal action greatly intensified. It is this secret process which gives Fruit-a-tives their remarkable powers over the stomach, liver and kidneys.

If you are bilious, constipated, have sick headaches, sick stomach, no appetite, nervous—get well by taking

or Fruit Liver Tablets.

30c. a box. At all druggists. Manufactured by Fruit-a-tives Limited, Ottawa.

**No Gas—No Smoke—No Dust in the "HECLA" FURNACE.**

As the mercury in a thermometer expands with heat and contracts with cold, so does every other metal expand and contract but in different proportions. Steel and iron in a furnace expand and contract, but in different degrees. When the metals are joined by bolts and cement, the expansion and contractions gradually loosen the bolts and allows the cement to drop out, and the openings left allow the dust and gas to escape to the rooms above.

In the HECLA, there are no bolts—no cement. The joints are made by fusing the steel and iron together at white heat—just as a blacksmith welds together the pieces of a horseshoe.

The HECLA FUSED JOINTS are indestructible—as tight after ten years use, as before the first was started.

Send us a rough plan of your house and we will give you an estimate of the cost of installing a HECLA FURNACE. No charge for this.

**THINGS THEATRICAL**

**NEW YORK DOES NOT TAKE TO "A PRODIGAL SON."**

Lines in Memory of Sir Henry Irving—Mansfield Plays "Don Carlos," on the 30th—Olga Nethersole to Visit Toronto.

Miss Olga Nethersole will be at the Toronto, Princess the week of November 13th.

The repertoire for the Sothern-Marrow company next season, the third and last year of the costar engagement, will be "King Lear," "Cymbeline" and "As You Like It."

Richard Mansfield has postponed the inaugural of his season and the first production in English of Schiller's "Don Carlos" until October 30th. This event will take place on the stage of the Grand Opera House, Chicago.

Herbert Keiley and Ellis Shannon, who, since their experience with "Lips" have been in vaudeville, are arranging to return to the stellar ranks in "The Rector's Garden," which Robert Edison used a couple of seasons ago. The play will be revised.

**Abbey's Effervescent Salt**

Almost its greatest use is to prevent sickness. ABBEY'S SALT keeps you so well, that there is no chance of Stomach, Liver and Bowels going wrong. It is the ounce of prevention that is worth tons of cure.

AT DRUGGISTS. 50c AND 40c A BOTTLE

expects to receive the money, say Lilian is mistaken as to the profits, that instead of being large they were small.

The following lines, in memory of the late Sir Henry Irving, appeared in the Toronto News:

Low bend the weeping willow and the yew,  
Sway the sad arms and moan  
While mournful bells their vocal sorrow sing.  
From towers all ivy-grown.

A nobleman is dead. His bark is gone.  
To sail a misty sea,  
With ten-dimmed eyes we wander on the strand,  
And say "God-speed to thee."

**BLOOD DISEASES**

Can All Be Cured by the Use of Dr. Williams' Pink Pills.

More than half the disease in the world is caused by bad blood—weak blood, blood poisoned by impurities. Bad blood is the one cause of all the headaches and backaches, the lumbago and rheumatism, the neuralgia and sciatica, the debility and biliousness and indigestion, the paleness and pimples and all the disgusting skin diseases like eczema, that show how impure the blood actually is. It is no use trying a different medicine for each disease, because they all spring from the one cause—bad blood. To cure disease you must get right down to the root of the trouble in the blood. That is what Dr. Williams' Pink Pills do. They make new rich blood. Common medicines only touch the symptoms of disease. Dr. Williams' Pink Pills root out the cause. That is why these pills cure when doctors and common medicines fail. Here is positive proof: "I suffered agony from indigestion," says Frederick Pills, of Grand Desert, N.B. "I had no appetite for my work; my stomach caused me constant distress, and everything I ate lay like lead on my chest. At last I found my life a burden. I was always doctored, but it did me no good. Then a little book came into my hands, and I read that Dr. Williams' Pink Pills would cure indigestion. I got them and began taking them, and I soon found they were helping me. My appetite began to improve, and my food to digest better. I used the pills for a couple of months and I was well. Now I am always ready for my meals and I can eat anything, and all the credit is due to Dr. Williams' Pink Pills. I keep the pills in the house all the time, and I occasionally take a few as a precaution. I can honestly advise all dyspeptics to use this medicine, as I am sure it will cure them as it did me."

Give Dr. Williams' Pink Pills a fair trial and they will cure you, simply because they make that rich, strong blood that disease cannot resist. See that you get the genuine pills, with the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper around every box. You can get them from your medicine dealer or by mail at 50c. a box or six boxes for \$2.50 by writing the Dr. Williams Medicine Co., Brockville, Ont.

Statistics find that something like 2,000 vessels of all sorts disappear in the sea every year, never to be heard from, taking 12,000 human beings and involving a money loss of \$100,000,000.

Aluminum oil heaters, guaranteed, no smell. At Yellow Hardware Store.

**JOSEPH HOFFMANN.**

The pianist, well known in United States from his former successful concert tours, has caused considerable sensation by becoming engaged to Mrs. Marie Busst, the divorced wife of George Penbody, a well-known society woman and talented musician.

Despite the tinkering that Hall Caine has been doing at "The Prodigal Son," New York does not seem to take to it, and the play will close its brief run and take to the road. The taste of New Yorkers, however, is not a criterion of the value of any play.

"The Admirable Bashville," the dramatization of "Cashed Byron's" Profession," by George Bernard Shaw, was produced on October 2nd, in Manchester. The play is in blank verse, which medium, Mr. Shaw says, he chose, as he had only a week to write it in, and "blank verse is so chiselly easy and expeditious."

Montreal Star: Sarah Bernhardt observes that a good play should "run on like a river." Could a more apt and trenchant description be given of the manner of correctly telling a story in dramatic form? The aphorism, indeed, deserves to rank with Victorien Sardou's famous dictum that "the plot of a good play may be written on the back of a visiting card."

Arnold Daly produced at the Garrick theatre, New York, last Tuesday night, George Bernard Shaw's "John Bull's Other Island." Although the play deals with the Irish question, with English politics, conditions not well understood of New Yorkers, there is every probability that the play will win success. Mr. Daly has converted a large number of New Yorkers into Shawites, and in the language of the sportsman, "the limit is off, and everything goes."

Lillian Russell is in law. She wants her profits in "Lady Toxide." The fair Lillian as "Lady Toxide," was very charming, so charming, indeed, that she really thinks she should be paid for summoning all her charms of speech, of expression, and of figure, and she claims she did. As the house was crowded at every performance she concluded that the play was a success, and she only wants half of the profits, which she feels sure were large. The Schuberts' from whom she

**THE MONEY LOSS OF THE DRINK HABIT**

is one of its most serious features. The man who drinks not only ruins himself but deprives those dependent upon him of the support to which they are entitled.

The Samaria Telectes Prescription has saved many men from Drunkard's Graves and restored wife and family to plenty and happiness. Given without patients knowledge in tea, coffee or food.

The money a moderate drinker will waste in one week will cover the cost of a month's treatment with the Samaria Telectes Prescription is a cure for drunkenness, no publicity, all private.

**DAAPHNE POLLARD,**  
With the Lilliputian Opera Company at The Grand, on Monday.

**A BLUNDERED ORDER**

**CAUSED THE CHARGE OF THE LIGHT BRIGADE.**

Lord Lucan felt it was wrong, but there was nothing to do but obey—Capt. Nolan brought the order.

A subscriber asks: Who was blamed for the charge of the Light Brigade at Balaclava in the war of the Crimea, 1854? Who was Lord Lucan? Was he killed in the charge? Answer.—The charge was the result of a blundered order. The historian Kingslake finds Lord Lucan primarily responsible for the blunder. Lord Lucan, the divisional general, received an order from Lord Raglan, commander-in-chief, as follows: Lord Raglan wishes the cavalry to advance rapidly to the front and try to prevent the enemy carrying away these guns. The commander-in-chief meant Lord Lucan to operate against the Russians on the Causeway Heights, where the enemy were posted with seven English guns they had captured. Between the Causeway Heights and the hill opposite, both held by the Russians, ran the North Valley, and at the farther end of the valley was drawn up the Light Brigade, under Lord Cardigan. Lord Lucan read the order, and then asked Capt. Nolan, the aide-de-camp, who had brought it, "What guns?" A gesture of the aide-de-camp was interpreted by the lieutenant-general to mean the North Valley. The angle of divergence between the routes into the valley and to the heights being not more than twenty degrees, such a gesture might easily be mistaken. Lord Lucan, especially taking in connection with the previous orders, should have been clear enough, that it was intended to try to retake the English guns on the Causeway Heights. Lord Lucan conceived that the North Valley, directed Lord Cardigan to advance with the Light Brigade. Lord Lucan explained afterwards that his idea was that Lord Cardigan should advance steadily, keeping his men well in the rear, and that he should have halted his squadrons as soon as he found there was no useful object to be gained, but great risk to be incurred. Lord Cardigan understood that an order to advance meant to go down the valley against the guns and cavalry drawn across it. He pointed out to the divisional general that his brigade would have a battery in front, and the enemy also on either side. Lord Lucan saw the force to the objection, but said there was no choice but to obey. Lord Cardigan then began the celebrated advance down the valley. Lord Lucan followed with the heavy brigade to the support of the light division, but halted his men when he found that to go on was only to lead them to death. He was wounded in the leg by a ball.

**PRISON REFORM**

Will Be Advocated by Two Associations.

Lincoln, Neb., Oct. 21.—Three important conventions opened their annual sessions, here, to-day: the National Prison Association of the United States, the National Prison Physicians' Association, and the National Prison Chaplains' Association. All three organizations practically belong together and have been organized for the purpose of improving and reforming the prison system in the United States, regard to their general administration and management, their hygienic conditions and their moral and religious side. Every state in the union and every territory is represented by delegates appointed by the respective state or territorial governments and the United States government is especially represented by the Rev. J. L. Milligan, who for years has represented the United States government in various national and international prison congresses in this country and Europe. The three conventions will continue until next Thursday.

**THE COTTON SITUATION.**

Quarantine Has Seriously Affected Transportation.

New York, Oct. 21.—In their review of the cotton situation Miller & Co. say: "One of the effects of the recent drop in temperature will be the release of a great deal of pent-up cotton in Mississippi Valley, where quarantines have seriously interfered with transportation. Quarantines cease when frosts sets in, and it is believed that a heavy movement of cotton will begin toward New Orleans. Such a movement would take at least a week or ten days before showing in the official record of receipts and meanwhile, there may be quite a sharp falling off in the total, since private reports are almost unanimous in stating that farmers have sold little or nothing since October 3rd, and the holdings by merchants and others have, by this time, been shipped out."

The lakes in Batterssea Park have become so thickly stocked with fish that some tons of broom, carp, roach and tench are to be removed from the park and turned into the Thames in its upper reaches.
