WANT TERRITORY THERE MAY BE ANOTHER ALASKAN DISPUTE.

United States Claim Strip Four-
teen Miles Wide and About
Three Hundred Miles Long,
Rich in Minerals.
Tacoma, Wash., Nov. 3.—Another
territorial dispute between Canada and
the United States has been raised by
British and American engineers. At
present the states stand in danger of
losing a strip of territory fourteen
miles wide, and between 200 and 300
miles long, containing gold, silver and
copper valued at many millions.
When the international boundary
was established it was decided that
monuments marking the line should
be placed ten marine leagues or thirty-
five miles from the head waters of
all bays and inlets north of the
Portland canal. Engineers now at
work are setting monuments only
twenty-one miles from such head
waters. Americans who own property
within the strip are formulating pro-
tests to congress.
The general opinion of miners is
that American engineers are being
"double-crossed" by British, who have
rough sketches of the proposed line,
while Americans have none.

FASHION'S FORM A Tidy Design for Flannel Shirt Waist.

Any and all of the modish waists
will develop well above this plain but
are laid in inverted pleats, those
stitched down in the center, but re-
leased to form fullness over the bust
in front. The fastening is effected in
the center front under a "yoke" so that it
is invisible. The sleeve has the stitched
inverted pleat down the outer
edge of the arm, is full at the cuff,
and caught into a plain band cuff.
The collar is of the goods and is
made over one of those ready-to-wear
feathered foundations.

THE C.A.A.U. IS DEAD. The Colleges Determined to Stand Together.

Toronto Telegram.
After their own amateur matters
passes without comment. This means
that the C.A.A.U. is so dead that it
cannot even feel the amputation of
another limb. At any rate there is
nothing new about the intercollegiate
movement. One reason the O.H.A. has
managed to keep so clear of profes-
sionalism, is that it refused to recog-
nize the C.A.A.U., whitewashes, and
did its own selecting of the sheep from
the goats. Any association that bows
the knee to the C.A.A.U. soon gets so
full of whitewashed professionals that
it resembles a band of whitecaps.

Sporting Notes.
The University of Chicago will take
up Association football.
Ottawa College expects confidently
to win from Varsity and Queen's.
If Edward Duran does not go to
Australia, Champion Sculler Stanbury
will make a return match with Towns-
ville. Opinion in Toronto rugby circles
leans to believe that Varsity is
favored for the championship of Can-
ada this year.

The Hamilton Tigers will not play
the Rough Riders in Ottawa for the
Canadian championship. They prefer
Montreal.
Toronto News: All of the clubs are
after the two Clarke boys, who have
come to live in Toronto since last
season. These are two great men, but
it is more than likely that they will
play with the Varsity seven this
winter.

The Pittsburgh Leader tells its read-
ers that efforts are being made in
Toronto to organize a professional
team, and put it on the road. If the
team materialize Toronto will be
taken into the international league,
with the Soo, Houghton and Pitts-
burgh.

At the annual meeting of McGill
University hockey team, Billy Gilmore
of the Ottawa Stanley cup holders,
was elected captain. The question of
the Pittsburg tournament between
Yale, Princeton, Toronto University,
Queen's and McGill, was taken up
and it was decided that if suitable
arrangements can be made that Mc-
Gill should take part.

Two hockey teams in the interna-
tional professional league last year
played without any salary limit. This
year it is understood that an agree-
ment has been reached, that the team
will be paid more than \$3,000. It
is understood that the Calumet team
last season alone cost over \$4,000, so
that just where the cut will be made
is a matter still to be settled. Either
the clubs will bring down the salary
of the players to twenty-five per cent.
below what they were or seek cheaper
men to play the game during the com-
ing winter.

London Advertiser: The duty of the
O.H.A. at this time is to elect the
strongest man that can be found for
the position of president, a man who
is opposed to professionalism, either
open or assumed, a man who is above
reproach in the matter, a man who
is not afraid to wield the axe. A
shadow of suspicion against any man
in regard to his stand on profes-
sionalism should be a disqualification.
It is also to be noted that Dr. Clarke,
of Kingston, is the man for the position.
Of this there is not the shadow of a
doubt.

Canada's rugby will be tested on
Saturday, November 11th, when the
Saidie Field, on November 11th,
says the Rugby Post. Two imported
teams will show the beauties of the
game across the border. Graduate
completing all the arrangements. The
game will be watched carefully with
the idea of picking out some features
which will benefit the American game.
Walter Camp, Yale's head coach, has
just made a tour of Canada, to study
Canadian rugby. He thinks that there
are some features which possibly
might be adopted with profit on this
side. Harvard men propose to do a
little experimenting on their own
account, so have sent for the Can-
adian teams. The greatest problem in
college sport is to open up and tone
down football. The visit of the Can-
adians may give some pointers which
will solve the riddle.

IS AT WASHINGTON.

The Visit of the British Squad-
ron.
Washington, D.C., Nov. 3.—Prince
Louis of Battenberg, commander of
the British cruiser squadron now vi-
siting in this country, the members of
his staff, and the captains of the
ships, constituting the squadron, ar-
rived here this forenoon from Annap-
olis, Md. They were escorted by Ad-
miral Evans and several officers of his
staff and were received by a repre-
sentative of Sir Mortimer Durand, the
British ambassador in this city.
The prince and the members of his
party will devote the afternoon to
sight-seeing and in the evening they
will be the guests of Sir Mortimer
and Lady Durand, at a formal recep-
tion given in their honor at the Brit-
ish embassy on Connecticut avenue.
To-morrow afternoon, Prince Louis
and his staff will be received by Pres-
ident Roosevelt, at the White House,
and in the evening they will be en-
tertained by the president at a formal
dinner. The latter is expected to be
the most brilliant social feature of
the visit of the prince to the United
States.

Czar's Coronation Anniversary.
St. Petersburg, Nov. 3.—The ele-
venth anniversary of Emperor Nicholas
the third was more generally
celebrated to-day than last year, when
war anxieties dimmed the celebration.
The imperial family attended a Te-
Deum at the Kazan cathedral, and
church services in all the church-
es. Everywhere M. Witte was honored
with the czar for his great diplomatic
coupe. There were free exhibitions at
the theatres this afternoon, for the
benefit of the school children, and a
parade of the troops. Free concerts
were given in all the parks and there
was a general holiday display and
attire throughout the city.

Miss Florence Bateman and George
Countryman, both of Lodge Room,
were married Wednesday, October
25th.

TO GET THE WRECKS REID WRECKING CO., MAKES A PURCHASE.

And the Tug Has Gone to Re-
lease the Barge—The Steel
Steamer Sevona is in Good
Condition.
Detroit, Mich., Nov. 3.—The Reid
Wrecking company, of Sarnia, has
purchased the barge Alta, wrecked on
Grand Island, Lake Superior, in the
last big storm. The Alta has six
hundred thousand feet of lumber in
her hold. The tug Reid leaves to-
day, to release the barge. Capt. Reid
has returned from Bayfield, Wis. An
inspection of the wrecked vessel, the
steel steamer Sevona, which he recently
purchased, shows the hull from the
main deck down is in first class con-
dition and that the only part that is
damaged is from the main deck up.
The cargo of ore is all there and can
be saved with good weather. Capt.
Reid expects to have the wreck up in
three weeks.

MISS ELIZABETH J. MOSS.
Daughter of Frank Moss, a New York
attorney, is the youngest woman lawyer
ever admitted to the bar in the city of
New York. She is only twenty-three
years old, handsome and an accom-
plished singer and pianist.

Woke the Wrong Man.

Brooklyn Eagle.
Frank Bush, down at Brighton
Beach, tells of a Jew peddler who ar-
rived at a country hotel one night in
a blizzard. The storm was so bad
that he could not proceed farther, yet
the landlord had no room for him un-
less he was willing to occupy a bed-
with a negro. The peddler balked at
this for some time, but finally became
so sleepy that he accepted the situa-
tion, and turned in with the black
man, leaving an order to be called
early in the morning. "About seven
o'clock the door opened and the
hotel got in his funny work, and
blackened the peddler's face while he
slept. In the morning the boy called
the Jew at the appointed time, but
when the guest had peddler's face
while he slept, in the mirror he re-
turned to bed, saying "Well, I go
back to sleep. Day had woke de wrong
man."

Father Doyle Dead.

Rev. Father James Doyle, curate of
St. Francis Xavier church, Brook-
ville, Ont., passed away, Thursday
morning, following an illness of five
years, contracted at Athens. The
late Father James Doyle was a na-
tive of the parish of Garrick-on-Suir,
in the diocese of Waterford, Ireland,
and came to Canada in October, 1858.
In the following month he was ordained
a priest in St. Francis de Sales
church, Smith's Falls. He is survived
by two brothers, living in the United
States. By the death of Father
Doyle, the archdiocese of Kingston
loses a devoted and zealous priest.

Cheese At High Figure.

James Crawford, grocer, said this
morning: "Butter is very scarce, due
to the high price paid for cheese. I
never before heard of cheese selling at
11c. per lb. With butter at only 25c.
a lb. it is not to be wondered at that
people rather send the milk to the
cheese factories and have no further
trouble, and also make more money
out of it. I should not be at all sur-
prised to see the cheese factories run-
ning until Christmas."

The Young Men Saie.

A report was current yesterday that
Bertram and George Revell, 9 Catara-
gus street, had been drowned, with
the wrecking of a steamer in the up-
per lake. The fathers, this morning,
said he felt he could not say it, as his
boys were on the S.S. Minneapolis and
had been heard from on Tuesday from
Buffalo.

Excursion To Ottawa.

About 125 people went to Ottawa at
noon on Queen's rugby excursion, by
special K. & P. railway train. The
bad weather cut down the expected
crowd considerably. Queen's team to
meet Ottawa College on the latter's
campus to-morrow will be the same
as played Varsity here, and should
be able to win, though Ottawa Col-
lege claim the match will be theirs.

Have Left The Battery.

Two English fellows, soldiers in "B"
Battery, jumped the job, on Wednes-
day morning, and it is thought they
have gone across the border to enter
the United States navy.
