READ THE PROOF

MR. HERRELL writes, Sept. 24th, 2004, about his remarkable recovery from acute complications: "About a year ago I was taken down with La Grippe, then Pneumonia and Typhoid Fever,
which soon affected my lungs. I was under treatment of several physicians and also in the hospital at
Halifax, but the disease gained such headway that I was regarded as a hopeless case. Words cannot
express my gratitude for what the Dr. Slocum Remedies, particularly Psychine, have done for me. I
am daily giving my testimonial to friends and acquaintances." JAMES HERRELL. Box 227 Springbill, N.S.

Members of Congress to Be Chosen-National Issues Do Not Figure Largely - The Eastern, Contests Are Full of Interest.

Washington, D.C., Nov. 4.-Elections are to be held in a half dozen states next Tuesday. Four states, Ohio, Massachusetts, Virginia and Rhode Island, will chose governors. Several other states will elect minor state officers. No members of congress are to te chosen, and comparatively few members of state legislatures who will have an opportunity to vote for United States senators are to be elected. A few municipal elections are of more han usual interest and importance to the cities in which they are to be held. The country as a whole, is, apparently, not greatly interested in the tate elections. In political purlance, th's appears to be the "offest" of the

The contest is attracting attention for the reason that the democratic candidate for governor, Pattison, s ems to be crowding Myron T. Herrick, the republican nominee, in the race. It is regarded as remarkable that there should be at this time the lightest prospect of the election of democratic candidate in the Buckeye state, but many well informed politicians seem to think it within the range of possibilities that Pattison

Mr. Schwiningen, rector of St. Francis of Assisi, a church right in the very centre of the tainted district, was well aware of, and so, to protect his parishioners he issued a card of identification to every lady of his flock, certifying that she was well-known to him as a lady of good character and righteous living, and a true and sincere worshipper in his church. Capt. Dooley found it best to drop interference with such ladies, Mir being caught several times holding up church members who had as much right on the street as Dooley or any of his officers. Then Magistrate Mayo discharged a bunch of twenty-six, brought in by Dooley's subordinates and the curfew law was done for.
