FIRST LEGAL STEP. BALLOT BOX REMOVED TO BUREAU OF ELECTIONS.

Wholesale Fraud Alleged—Thirty Thousand Hearst Men Deprived of Votes—One Thousand and Election Inspectors Accused of Illegal Acts.

New York, Nov. 8.—With the granting of an order by Supreme Court Justice Gayer in Brooklyn to-night, compelling Police Commissioner McAdoo to remove every ballot box from all the precincts of Greater New York to the bureau of elections, William H. Hearst, the defeated municipal candidate, of Public Ownership League, took his first legal step to secure a recount of the votes cast on election day. The order was granted after Justice Gayer had reviewed the affidavits submitted by Mr. Hearst's attorneys, and half an hour later Col. Alexander S. Bacon and E. W. Brown, representing Mr. Hearst, served an order on Commissioner McAdoo, who sent out a general order to every precinct in New York, instructing the captains and other officers in charge to send the ballot boxes straightway to the bureau of elections in Manhattan.

The granting of the order came unexpectedly, and caused much surprise, and, with the opinion of Justice Gayer, that the police have no right to the ballot boxes, and should not even touch them, a new aspect is placed on the case. This is the first time such an order has ever been issued, as heretofore the police have always had charge of the ballot boxes after the count has been taken at the polling stations.

Mr. Ivin's, the defeated republican mayoralty candidate, was asked to-day by Mr. Hearst to act as his counsel in fight he will wage to be declared mayor. Mr. Ivin refused, but said he would gladly co-operate with the attorneys who will conduct the fight as an associate counsel.

McClellan's Fidelity, 3,485. That a bitter fight will be waged in the courts to decide whether George B. McClellan, or William H. Hearst is to be mayor of New York for the next four years is now assured. The complete returns give McClellan a plurality of 3,485 votes, the smallest ever recorded for a successful mayoralty candidate, and a result which might readily be reversed by a recount of the ballots.

Mr. Hearst to-day announced his intention to take an immediate appeal to the supreme court, his managers having discovered that they had secured evidence of illegal acts against 1,000 inspectors of elections, and that 3,000 Hearst men, who went to the polls to vote for Hearst, had already been voted on. Most of this fraudulent voting is said to have been done in East Side assembly districts, especially, it is claimed in the eighteenth, Charles F. Murphy's home district, and in the sixteenth, which Timothy D. Sullivan is the leader.

Mr. Hearst's proposed action meets with approval in many quarters, even among those who opposed his election and he received many assurances of support. District Attorney Jerome expressed himself in terms of strong approval of Mr. Hearst's programme, and declared that he would immediately institute a searching investigation of the alleged democratic frauds.

Ira G. Darrin, the newly-elected district attorney of Queen's county, on the republican ticket, made a similar statement. William M. Ivin, the defeated republican candidate for mayor, also commended Mr. Hearst's action and expressed the belief that a recount would show that Hearst had been elected.

Mr. Publow moved, that the government be requested to reappoint Mr. Robinson for this district, during the year 1900.

THE FOUL SEED HAS CAUSED MUCH WHEAT TO BE REJECTED.

A Report to Hand From the Chief Inspector at Winnipeg—Aid. Black Will be a Mayoralty Candidate.

Ottawa, Nov. 9.—Ald. G. W. Black, announced definitely, to-day, that he would be a candidate for mayor in the approaching election. He has taken an active part in the acquiring of a civic electric lighting plant.

The chief of the seed division of the department of agriculture, George H. Clarke, has just received a letter from David Horn, chief inspector of grain at Winnipeg, dated Nov. 4th, in which he states that he had inspected twenty million bushels of this year's crop of wheat and of that amount there is eighty-five per cent. of high grade, No. 2 northern. Mr. Horn adds: "We have never before had so much wheat rejected for being mixed with wild oats, cockle and ragweed."

STORY GROWS IN HONOR. As Accounts of the Russian Massacres Come in.

St. Petersburg, Nov. 9.—Jewish massacres have called forth a chorus of indignation against the government, particularly against Treppoff, the heroic resistance of Jews of Kishinev and Odessa against the hordes incited by the police is wilfully misrepresented by the antisemitic organs as evidence against the government. Telegrams have no doubt, who were the aggressors. Jewish massacres have occurred throughout the country as if in response to a word of command. Jews are subjected to every form of violence. All this proceeds under the eyes of the police, troops and railway officials, who take an active part in the outrages, and confess they have received orders to do so.

The government is discussing universal suffrage. One of the Zemstvo leaders said they would be willing to accept universal suffrage in the second degree for peasants and direct ballot for the remainder of the inhabitants. It is hoped the government will give way to the Zemstvo demands and obtain support of the only element capable of assuring its position. The government commits a great tactical blunder in not clamping the hand extended by the constitutional party, as this latter is compelled to remain on the same side as the socialists, although it is not in sympathy with their aims.

As details of what happened throughout European Russia during the upheaval arrive the story grows more revolting. In the Baltic provinces murder, riot and incendiarism prevailed. In Poland, even the clergy are in favor of the autonomy of the ancient kingdom. In South-western Russia hardly a city or town escaped Jewish massacres. At Tomsk, Siberia, the whole population of 40,000 (old) the military stood while 600 men, women and children were burned in a theatre, court house at Tomsk and the mayor's residence, where the students and revolutionists look refuge from the mob, were burned and those who tried to flee were killed in the streets.

In Moscow the Social Revolutionists and the Black Hundred and the Cossacks and police fought bloody battles. The descent of the butchers of Moscow with their knives and axes upon the students was one of the most horrible chapters, but not so pitiful as the attack of the Black Hundred on a procession of school children carrying red flags. When the police sought to escape a cordon of police barred their way and the youthful martyrs were beaten into insubility, and in some cases were actually torn to pieces.

In the Alexander Garden at Moscow, Cossacks lay in ambush in the shrubbery and set upon their victims with whips. Many were beaten to death and others were hardly able to crawl away.

HIS MAJESTY'S BIRTHDAY. Is Being Quietly Honored Throughout Canada.

Last night the officers gave a ball. The day is extremely disagreeable on account of the fall of snow which has been going on since an early hour, and is quickly converted into slush.
