GOVERNMENT.

British View. St. Petersburg, Nov. 11.-Threats to nassacre the Jews, here, on Sunday, are causing much alarm, Many Jews have gone to Finland. It is certain that the continued quiet here is owing to the strong military measures taken, which are as complete as they can be short of martial law, and any day may bring an attempt to let loose ruffianism. The government will prosecute its intention to restore order throught the empire to the best of its ability. It will begin in Poland, where martial law will be proclaimed to-day. Official reports represent that all other law there is a dead letter. Reports of many sporadic outbreaks are arriving from the provinces. However the outbrooks seems as transient

as they are mimerous. Martial law has been declared at Kronstadt. It is officially declared that the city is still orderly, but many rumors are current to the effect that the mutineers have again commenced their work of pillage and destruction, Admiral Birileff, minister of marine, has gone to investigate the situation. The mutineers and rowdies gutted the Tartar and Jewish mar kets, near the barracks of the Seventh Fort Equipage, to which the mutinous sailors belonged, and destroyed ten modern business blocks and number of smaller stores. The fires burned almost a whole day unchecked.
