COFFEE FOR TWO.

As yet it's a table just for two,
A plate for me and a plate for you—
My bride and I.
White as her heart is the cloth between,
Bright as her eyes the silver's sheen;
And I gaze and try
To understand and to calculate
Why I have won so much from Fate,
As she who gazes with eyes of blue
Across the table set for two,
Fragrance of flowers in her breast,
Whiff from the urn; now, which is best?
I scarcely know!
Sweet is the scent of the double rose,
But oh, that sniff from the urn's bright nose
Is surely so.
And smiles seem dearer and lips more sweet
When seen through the shimmer of fragrant
From CHASE & SANBORN'S perfect brew
Above our table set for two.

WEARY DAYS AND SLEEPLESS NIGHTS

Many men and women toss night after night upon sleepless beds until near dawn. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated the nervous system that it cannot be quieted. Or, again, you have heart palpitation and sensation of sinking, a feeling as if you are going to die, or perhaps you wake up from your sleep feeling as though you were about to choke or smother, and you leave you for the night. Allow these conditions to continue and you will feel your health declining.

It is the nerves and heart that are not acting properly.

They can be set right by the use of

MILBURN'S HEART AND NERVE PILLS

They soon induce healthful, refreshing sleep, not by depressing the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is often the cause of nervousness and sleeplessness.

Mrs. Emma Chambers, Massey Station, Ont., writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bad at times I could not lie down in bed at night but would have to sit up. I doctored for a whole year and got no relief. I took three boxes of Milburn's Heart and Nerve Pills and was so completely cured I have not been troubled since. I cannot recommend them too highly."

Milburn's Heart and Nerve Pills are 50 cents per box or three boxes for \$1.25 at all dealers or sent direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THE DAILY WHIG.
"Opiter per Orbem Dico."

Mr. Maclean, the Leader.
"We want men of ideas," said Dr. Beatty Nesbitt, and "we don't care where they come from." The party to which the doctor belongs wants men who can play ball, and it does not care what they look like or what they want so long as they are good on the tackle.

In a recent football match the giants appeared to be more ornamental than useful. They loomed up large in the field, but they did not seem to be lively in the game. So while the scrimmage went on, and a great hall of humanity rolled slowly along, there came a voice through the megaphone and it echoed across the field, "Come, Kennedy, get hold of somebody."

Our friend of the World had his ear close to the ground as usual when the bye-election was ordered, and he heard a voice which seemed to say, "Come, Maclean, get hold of somebody." And forthwith he acted. He was the moving spirit at the conservative convention. It was not a large gathering, but did what it was told. The candidate whom it selected, Archy McCallum, was equally expedient. He is therefore out of touch with his party, but he is in touch with Maclean, and, according to Beattie Nesbitt, he is the whole push.

Yellow Journalism.
The Toronto Telegram has not commended the admiration of anybody in over-estimating the virtues of W. R. Hearst. It is true that he is an opponent of grafting and for the very good reason that he has not had occasion to favour it himself. He was born rich, and he has not in his day lacked for money, and it is this lack which is the root of all evil.

Spirit of the Press.
Hamilton Spectator.
The conservatives drew three of a kind; but the liberals held a full house.

It Is Indeed.
Montreal Star.
It is indeed that the fortune tellers can tell other people how to get rich, never take their own advice.

Untimely Hint.
Toronto Star.
If the Russian students had just taken a course in football they would be able to make short work of the dynasty.

Small But Noisy.
Ottawa Free Press.
The "base" party is growing. It now consists of "Junction," Joe Clarke, Beattie Nesbitt, "Billy" Maclean and Archie McCallum. It may be a small party, but it can't be beaten for noise.

They Certainly Do.
Hamilton Herald.
Those Hastings conservatives who demand a share in the control of the spoils system deserve considerable mention as first-rate political humorists.

You Don't Say.
Toronto Telegram.
If the people of Saskatchewan wish to earn the undying gratitude of a party-bedecked Canada, they will give Haultain a free hand—the man who will blaze the non-party trail for the rest of us.

Thoughts For The Times.
Mr. Crosby's addresses in this city will long be remembered for their freshness. They represented the thoughts of a cultured man upon the conditions of our times. Mr. Crosby impressed all with his sincerity. He was a lawyer in New York, and in the enjoyment of honors and emoluments which he let go as he became engrossed with the consideration of social and religious problems.

GANOQUE RISING
TO DEMAND LOCAL OPTION ONCE MORE.

Petition to Be Made Larger—Cases Against Policeman and Liquor Dealers—Notes About Church Affairs.

Gananoque, Nov. 13.—The temperance people of Gananoque are not willing to acknowledge defeat on account of their petition for local option being thrown out by the town council. In the R. T. of T. and M. hood business meetings last week, it was unanimously decided to push another canvass of the electorate at once and secure the signatures of the merchants, business and professional men and manufacturers to add to that of the workmen which was previously sent in. A circular has been issued to the electorate comparing the Scott act and local option laws.

Editorial Notes.
All the yellow journals are not printed in the United States. The yellow press has its representatives in Canada.

The veterans who have not yet located their lands in New Ontario, will be given \$50 for them. The government may hurt itself by such generosity!

The conservatives of Alberta are now blamed because they introduced federal politics into a provincial campaign. Will they be wiser in Saskatchewan?

Gooderham, the distiller, has again an edge on him for the Toronto mayoralty. He spent \$30,000 last year in vain. Will his money bags be in evidence again?

There was no reason to say, in the Alberta election, that if the Rutherford government were defeated the Grand Trunk Pacific would not go on. That was a silly campaign cry.

The newspaper men who were examined about the work for the New York Mutual Life Insurance company, caused laughter when they said they regretted they had not signed vouchers for larger expenditure on their account. Ah, then the news men are not to be signaled as grafters. It is well.

Four huge clothes baskets of letters and newspapers awaited John Burns, at his home in Battersea, Eng., on his return from America. He was nine weeks in the new world, and in that time travelled 16,000 miles and saw more than most people see in nine or nineteen years. His impressions of Canada go into a book.

Too One Sided.

The case against Bernard Shields, of the Brophy House, for furnishing liquor to an intoxicated person will come up on Monday. A charge is also understood to be brought against Mr. McFarland, for violation of his shop license in selling less than the legal three half pints.

In the Gananoque Manhood League, Sunday morning the topic "The League of Young Men" was introduced by Israel Daniels, president of the league, in a short address. There was a good discussion. Among those taking part were Mayor Sheppard, S. G. Cook, A. S. Farmer, F. Wright and others. There was a good attendance.

Through the kindness of the pastor and officials of St. Andrew's Presbyterian church the Manhood League has been invited to hold their meetings each alternate month in the basement of the church. The league appreciates such acts of kindness and are trusting that in the near future the doors of the Anglican parish house will be thrown open to them.

A special meeting of the town council will be held Tuesday evening to consider a charge of serious gravity against one of the police force. The Young People's Society of Grace Methodist church held a box social in the lecture hall of the church last Friday evening. The Y. P. S. orchestra discoursed sweet music. There was a good attendance and an enjoyable time spent. The net proceeds were about eighteen dollars for the furtherance of church work.

The Bible Society entertainment in the lecture room of Grace church was well attended. Rev. Mr. Bennett with his stereoscopic views was much appreciated. His subject was "The Man and the Book." After the entertainment, the annual election of officers took place, resulting as follows: J. C. Linklater, president; Dr. A. H. Macabee, secretary and treasurer; L. Rogers, repositary. Proceeds about \$9.20.

The W. M. S. of Grace church had an enjoyable afternoon last Thursday, the occasion being their quarterly tea. Mrs. Muirhead of Kingston, gave the report of the branch meeting held at Sherbrooke, Que. Her address was exceptionally good, and was well appreciated by the local auxiliary.

The dance under the auspices of the citizens' band held last Thursday evening was a grand success. There was a large attendance and a thoroughly enjoyable evening.

H. J. Foik is giving good satisfaction in his position as moderns master in the high school here.

THEORIES ABOUT FOOD.

Also a Few Facts on the Subject.

We hear much nowadays of health foods, and of hygienic diets about vegetarianism, and many a fad along the same line.

Restaurants may be found in every city where no meat, past or beef, is served, and the food card in his glory, and at times and varieties grade advanced to prove that was never intended for stomachs, and almost make us believe that our sturdy ancestors, who four-score years in robust health, most beef, pork, and mutton have been grossly ignorant of laws of health.

Our forefathers had other things to do than formulate theories about food they ate. A warm welcome extended to any kind, from bacon to corn.

A healthy appetite and contentment are excellent guides to full matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables, meat furnishes the most potent in a highly concentrated and is digested and assimilated quickly than vegetables or grain. Dr. Julius Remson, on this point, says: "Nervous persons, run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble, it may be easily corrected by regular use of Stuart's Dyspepsia Tablets after each meal. Two of these tablets taken after meat, eggs or other animal food three hours, and no matter how the stomach may be, no trouble experienced if a regular practice of using Stuart's Dyspepsia Tablets and distastefulness, indigestion, and every form of difficulty will be overcome by their use. That large class of people who suffer under the head of nervousness should eat plenty of meat daily use of a safe, harmless medicine, like Stuart's Dyspepsia Tablets, composed of natural acids and salts, which actually form the work of digestion. Galbatic medicines, masterpieces of the name of dyspepsia cure absolutely no indigestion, as the digestion of food is effected upon the digestion of food in the stomach. Dyspepsia in all its many forms, a failure of the stomach to solve food, and the sensible way is to make a daily use of one of a preparation like Stuart's Dyspepsia Tablets, which is endorsed by a medical profession and known to be active digestive principles.
