### FOOD\_ NOT MEDICINE.

If all the treatments for consumption were put in book form it would make a pretty big library. But after all there has been little improvement over the old treatment of rest, fresh air, sunshine, plain, wholesome food and Scott's Emulsion. The latter supplies nourishment that cannot be secured in any other way, and after all, nourishment is what the consumptive needs first.

A gain in weight, however slight, is a long step toward improvement. If there is the least thing to build on Scett's Emulsion will enable the patient to make that gain. People have gained a pound in weight from a bottle of Scott's Emulsion-it's an exception when they don't.

We have seen Scott's Emulsion take hold of a patient and bring about a change for the better inside of a week. It always helps even the most stubborn cases.

A Queen's Man Elected,

The victory of M. Mackenzie, M.A. in Macleod, Alberta, is a significant one, Mr. Mackenzie is one of the distinguished graduates of Queen's University. He was a former partner Mr. Haultain's. He was, through the Chinese vote, defeated in the same riding in the dominion elections, last November by Mr. Herron, the conservative candidate. He is likewise Presbyterian. His election is the best possible evidence of the way the autonomy bills are viewed in the west.
