A PLEASING LECTURE

You can

wear it out

but you can not

wear it out.

Given in Queen's By Dr. A. P

In the old Arts Building at Queen's College, Monday evening, Dr. A. P. Knight, professor of animal biology and physiology, gave an interesting and physiology, gave an interesting and practical address on "Shifts for a Living," to the Epworth League of Sydenham Street Methodist church. here was a large number present and the lecture was much enjoyed, the illustrative features adding an educative value: "The struggle to get on, in humans, is very keen," said the lecturer, "and it is likewise in animals. Living is not the same, course, and yet in some cases it How is it there, is a struggle? Th struggle to get on is because there are so many mouths to feed. Thereare more mouths to feed, amon animals, Food, shelter, and clothin these three things we struggle for. the animals' case there is no struc gle for shelter but always for food, and to avoid enemies. Some few animals have houses-for instance the beaver. People have enemies, course, but the law protects us: ani mels have only their own cunning." Then with the help of the lantern views to further his ideas the shifts for a living of animals were shown, The commonest "shift" is that of the the blood of the crab, like the crimi

Protective resemblance-animals select surroundings which closely resemble them, Shrimp, for example, will resemble the sand in the bottom of ponds. The tiger will choose environment which most suits his colors. Then there is the principal of mimi cry, shown by snakes and birds.
