J. W. EDWARDS, County Clerk.

### ASBESTOS!

If you have a HOT WATER FURNACE, and that furnace has not a covering on, you are using more fuel than you need to.

You are keeping your cellar warm, which is the one place in the house that should be cool.

You are not getting a proper distribution of heat.

We have covered furnaces and effected a saving in fuel alone of more than ten per cent a year, and at the same time rooms were satisfactorily heated that had never been fit for occupancy before.

If you live in your own house, doesn't this appeal to you?

If a tenant lives in your house, won't you have satisfaction and profit in hearing your tenant say that it is a warm house and easy on fuel?

Think it over!

The expense—very moderate—occurs once!

THE SAVING IN FUEL goes on FOREVER!

## SUNLIGHT SOAP

is better than other Soaps but is best when used in the Sunlight way. Follow directions.

### SUNLIGHT WAY OF WASHING

FIRST.—Tip the article to be washed, in a tub of lukewarm water, draw it out on a washboard and scrub the soap lightly over it. Be particular not to miss anything all over. THEN rub it in a right roll, lay in the tub under the water, and go on the same way until all the pieces have the soap rolled on, and are rolled up.

Then go away for thirty minutes to one hour and let the Sunlight Soap do its work.

NEXT.—After washing the full time rub the clothes lightly out on a washboard, and the dirt will drop out. Turn the garment inside out to get at the seams. Then don't use any more soap; don't scrub or hold a single piece, and don't wash through two soaps. If the water gets too dirty, pour a little out and add fresh. If a streak is hard to wash, rub some more soap on it, and thereby the piece back into the tub.

LASTLY COMES THE RINSING, which is to be done in lukewarm water, taking special care to get all the dirty suds away, then wring out and hang up to dry.

For Whites and Flannels proceed as follows:—Shake the article free from dirt. Cut a tablet of SUNLIGHT SOAP into shavings, pour into a gallon of boiling water and whisk into a lather. When lukewarm, work article in the lather without rubbing. Squirt out dirty water without rinsing and rise through in two relays of lukewarm water. Squeeze out water without twisting and hang in open air.

The most delicate colors may be washed in the "Sunlight" way.

**\$5,000 REWARD** will be paid to any person who proves that Sunlight Soap contains any injurious chemicals or any form of adulteration.

5c. Buy it and follow directions. 5c.

### Mr. Kemp's Idle Work.

Mr. Kemp, M.P., at Stony Creek, in Wentworth, charged that the government in power, ignored its pledges to get better trade relations from the United States and so forced the Canadians to seek a market for their products in Great Britain.

The Liberal government did not break any pledges in this regard. Many years ago the Liberals thought there might be something in unrestricted reciprocity, and advocated it. The conservative government went one better, and in an appeal to the electorate, promised if returned to power to send ambassadors to Washington and see what they could do towards securing reciprocity.

The government was sustained, and Sir Charles Tupper and Hon. Mr. D'Alton (not then a Sir), called on Secretary of State Blaine, and got such a poor reception that they did not linger long in Washington. Reciprocity was a dead letter, and it is a dead letter still.

At no time since 1896 was the Liberal government under any promise or obligation to urge or advocate reciprocity and as a matter of fact before the last election Sir Wilfrid Laurier intimated that it was not within the realm of practical politics.

As for the appeal to Britain is it not just what the people desire? Do they not want the trade between Canada and the mother country to be so developed that there will be no occasion to seek markets for the products of this land elsewhere? Mr. Kemp is not doing his party any good by opening up this subject or seeking to place the Liberals in a false light before the people.

### Montreal In The Tolls.

The Canadian Tammany, which is being organized in Montreal, is a queer institution. It is to "purify" society, and put an end to municipal and political blackmail, but just how that is going to be done "deponent saith not."

The new institution is called "The Montreal Benevolent and Protective Society." It is going to put down grafting and blackmail, but in what way is not quite clear.

Tammany will see how the candidates stand on certain questions, and if favourable will see that they are elected. It will put up the money for this purpose.

"Where is all the money coming from this?"  
"Any person can subscribe," was the whole-hearted reply. "I have subscribed \$5,000 myself. But my chief funds? Well, supposing a corporation or a trust wants certain charters or legislation put through. We look into it, and if we decide it is all right and to the city's interest to grant it, we get that put through."  
"And what do these corporations—or 'donate'?" he was asked.

"They will subscribe every year the same as anybody else, only more." "Some of them might want to give \$25,000 or even \$50,000."  
When were men known to put up thousands of dollars for election or political contests in the public interests? What is Tammany Hall in New York? It stands for nearly every electoral evil that is known. The Canadian imitation of it is not likely to be any better in its plans and purposes. Montreal has a need to fear results from its latest political venture. It threatens to make men "sit up," and it will probably succeed.

### What Of Home Rule?

Where will Home Rule be with the next Liberal government in England? It has been taken for granted that the Balfour government will suffer a terrible defeat in the next election. The men who have been conspicuous in the Liberal leadership are singled out for some attention.

John Morley announces that he is for home rule for Ireland. He favoured it in the government of Mr. Gladstone. He went down to defeat as an advocate of it. He does not see any reason why he should not be an advocate of it now.

Campbell-Bannerman, the leader of the Liberal party in opposition, has been an advocate of home rule for Ireland. Is he a contender for it now? He is silent. Is there a method in it? Rosebery, who has been mentioned as the possible premier in a new government, and undoubtedly the ablest man in the Liberal party, has been an anti-home ruler. Long before there was an expected change of government, and so of his recall to office, he declared the demands of the nationalists to be impossible. What will he do? Is the home rule question being crowded to the front?

"Up to the present," said a contented

### IN OUR OWN CIRCUIT.

News of The District on Both Sides of The Line.

The Perth creamery turns out an average of 1,000 pounds of butter a day.  
John L. Ferguson, Deseronto, a former resident of Picton, is critically ill.

The funeral of the late Rev. R. E. Oliver took place at Frankville, on Monday, and was very largely attended. The services were conducted by Rev. Mr. Hughes, of Athens, chairman of the Brockville district. The bearers were: Revs. W. Purley, William Williamson, John Garin, H. W. Burnett, E. W. Crane and A. G. Robertson.

Joseph James, Actinolite, claims unstated damages from the Rathbun company for alleged injury to a dam, which he claims was blown up by dynamite by the defendants, or by parties employed by them. The dam was upon the Scottamatta river, a tributary to the Moira, about four miles from Tweed, and some distance from Actinolite. The trial is proceeding at Belleville.

### SPIRIT OF THE PRESS.

The Time They Had.  
Montreal Herald.  
Still, 1,056 Prince Louis's sailors missing isn't so many, considering the time they had. The ones who got back to the ships must be very hard-headed.

Conservative Harmony.  
Montreal Star.  
As there is now only one conservative in Alberta, it looks as if there would be perfect harmony when he assembled at his own mass meeting and unanimously elects himself leader.

Lost Their Courage.  
London Advertiser.  
Not a word about the autonomy bill in West Lambton, North York or West Toronto. Hasn't the opposition the courage of its own convictions, or hasn't it any convictions on the subject?

Canada Is Spreading.  
Hamilton Times.  
Our export of domestic produce last month was \$30,192,699, an increase of \$10,885,544 over that of October, 1904. Canada appears to be doing fairly well under the liberal policy.

Looking For Trouble.  
Toronto News.  
Dr. Joseph Nesbitt, Mr. Ganey and Mr. Crawford are said to be the leaders of a conservative hold-up gang that intends to make Mr. Whitney hand over all the patronage now in his side vest pocket. People who go looking for trouble generally get it (with a capital G.).

Forfar Facts.  
Forfar, Nov. 21.—During the recent severe frosts farmers have found it rather difficult to continue ploughing. R. J. Davison has purchased the interest in the cheese factory, lately owned by W. A. Derbyshire, and is now sole proprietor. Mr. Derbyshire has bought the Crosby factory, and will take possession about December 1st. His many friends and those of his family, will be sorry to learn of his departure. Thomas Myers, who has been suffering from a heart lesion for a couple of months, is now able to take a short walk daily. R. E. Derbyshire has been engaged as cheese maker in our factory for the summer of 1906. Our school is progressing favourably under the management of Miss Hattie Myers. F. W. Mattice has a large stock of fall and winter dry goods now on exhibition in his fine store. The many friends in this vicinity of ex-Constable H. G. Davidson, will be pleased to learn of his convalescence from a recent severe attack of typhoid. The condition of G. W. Mattice, Sr., remains about the same. He is suffering, at present, from a severe nervous affection.

## STOP, WOMEN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman who has experienced with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and dash out to sea. They ought to have immediate relief, but a natural instinct makes them shrink from exposing themselves to the questions and examination of even a physician. It is unnecessary, because if you can get a man whose knowledge of experience is great.

Mrs. Pinkham's Standing.

Women suffering from female weakness relate to the physician, and Mrs. Pinkham, Lynn, Mass. All letters opened, read and answered only. A woman can free private illness to a woman established the eternal verities of America which has broken. Out of the vast experience of Mrs. Pinkham's Compound alone, and for many years, as far as I know, she does not take advantage of other assistants.

If you are ill, don't hesi- tate to write Mrs. Pinkham, Compound alone, and for many years, as far as I know, she does not take advantage of other assistants.

When a medicine has been in restoring to health so many cannot well say, with- out "I do not believe it will."

## A Greatly Improved Remedy

There is only one remedy about Zutoo Tablets that is so good that it is to try them. If half what is said about this remedy is true, it should be in every office, in every lady's gentleman's pocket.

And yet, not one in a hundred has ever seen it, or ever tried it. For while others have ever made so many failures in so short a time, never deserved so many.
