"The Perfect Food"

A perfect breakfast is impossible without it and it's just as good three times a day. It gives you real nourishment and renewed vitality. For Malta-Vita is rich in nutrition-every nutritive element of the best white wheat and finest barley malt extract. The malt extract, mixed with the flaked wheat, converts the starch of the wheat into maltose, or malt sugar, makes it easy for even the weakest stomach to digest and adds a pleasing taste which cannot be found in grain foods sweetened with sugar, glucose or syrups. AMONGST THE BIG LIFE IN-SURANCE MEN.

Nemesis Hughes Making Them Disgorge Their Illgotten Gains -The Great Horse Show

Called Out the Four Hundred. Special Correspondence Letter, No. 1,489 New York, Nov. 24.-The life insurance investigation which has been progressing during the past week, as reported in extensio, by the press has not been pleasant reading. Men who for years have occupied the highest places of honor and trust that it was in the power of an over confiding people to bestow have come out of the ordeal with reputations clouded and smirched, and with characters very little above the moral ethics of a common thief,

Two men were in evidence this week who have occupied positons of the most important public trust. They had accumulated colossal fortunes and were rated in the temples of finance as among the most unquestioned of our multi-millionaires, yet upon simple question of fact, not involving a large amount of money, each of these financial giants sat in the witness box, and committed as rank perjury as ever sent a burglar or highway robber to state's prison. From out the chaos of crime, gloom and sin, come visions of rare and golden promise, as long as an independent and fearless press holds the tribune entrenched and screne defending the rights of the people. There is a never failing hope, even in the darkest and most trying hours that as long as one avenging Nemesis like Charles E. Hughes remains alive this world of ours will not be such a bad place to live in, but, good or bad, it is the only one of which we have any present knowledge; statistics,, I think, will warrant me in asserting that there are more averagely decent people on the globe, than there are roughs, toughs and criminals; the man who is too weak to do his own fighting can generally find a champion to fight his battles, and he need not fear annihilation no matter how strenuous the power against him as long as the earth holds a majority of "God and ' A distressing and shameful feature of these life insurance investigations has been the utter absence of anything like conscience among these munificent salary to sing on the Vaudepious robbers when Nemesis Hughes compells them to make restitution of voice and it was the latter which attheir ill-gotten gains, one disgorges a tracted the attention of a theatrical hundred thousand dollars, another manager, who bought a bouquet in the financial scoundrel planks down a Passengers leaving Kingston at 12:30 a May day observance. On the prince's visit the "four hundred" turned out in full force, the army, the navy and the diplomatic corps had each a marked representation and the army of beautiful women was second to none of the grand functions given so far this holiday season. The reason for this preference is plain; the horse is the aristocrat of the animal creation, representing pure blue blood. and pedigree as it is represented by no other creature among the living or the dead. The fair of this year has been the most successful in the history of the association; financially and socially and in its personal it left nothing to be desired; at no time was favoritism seen in the rendering of the awards; a very gratifying feature was the large representation of ladies on the different committees and the entries made by them were among the very best stock in the exhibition. up and downs, to be sure, in an ele vator boy's life, but sometimes he strikes it rich. Joseph Goss was above the common sort, as he was educated for the priesthood in Ireland, but found it expedient to come to this country to earn his living as an elevator boy in the Waldorf-Astoria Hotel. As most elevator boys, and some other boys, do, he fell in love with pretty May Reifly, who also was in the employ of the Astoria, having been a checker in the Hotel Sstor. When they came to marry Joe's pockets were bulging with gifts that patrons of the hotel showered upon him. John F.
