### IS NO TRUTH

In The Rumored Attempt  
On Czar's Life.

### STRIKE COMMITTEE

WILL TRY TO BLACKEN IM-  
PERIAL CREDIT ABROAD.

Russia Practically Cut Off From  
Communication With Europe  
—Runs Being Made on Banks  
—Outflow of Gold for Exceeds  
in Flux.

London, Dec. 2.—There is no truth  
whatever in the rumour of the at-  
tempt on the life of the czar, says the  
St. Petersburg correspondent of the  
Times. The insubordination of the  
troops, which led to their arrest,  
aroused the correspondent says, from  
the men not being allowed to march  
against the revolutionists.

With the exception of crippled com-  
munication with Warsaw, there is no  
postal or telegraphic connection be-  
tween Europe and Russia, except at  
St. Petersburg. The capital itself is  
completely isolated from the remain-  
der of the empire, unless the report is true  
that the government has established  
wireless communication with Moscow.  
Nothing is known of what has hap-  
pened in Southern Russia, since Ad-  
miral Choukine reported the suppres-  
sion of the mutiny at Sebastopol. The  
St. Petersburg correspondent of the  
Telegraph says the banks are re-  
fusing numerous kinds of business that  
was done as late as Thursday. Among  
others, are transactions of forward  
delivery proposed by foreigners hold-  
ing Russian securities. All kinds of  
rumors are prevalent, and the lower  
middle class investors, having become  
frightened, are making a run on the  
savings banks. The outflow of gold  
from Russia continues, while the in-  
flux is very insignificant by compari-  
son.

The St. Petersburg correspondent of  
the Daily Mail says the central strike  
committee has decided to paralyze the  
government by blackening the imperial  
credit. All government loans negoti-  
ated abroad, in the future, will be re-  
putable unfamiliar of the present  
government. There is a plan to seize,  
forcibly, all the gold deposits. The  
striker's motto now is, "Destroy com-  
munication abroad in the government's  
financial position in the United States  
farre for a date in the near future."

### PURE FOOD CAMPAIGN.

Jewish Women Moving in New  
York.

New York, Dec. 2.—The New York  
section of the council of Jewish wo-  
men has decided to start a pure food  
campaign in favor of adulterated food,  
and this evening the movement will be  
formally launched at a public meet-  
ing in Mendelssohn Hall. Among the  
speakers will be the sponsors for the  
pure food bill in the United States  
senate, Senator Heyburn, of Idaho,  
and Senator McCumber of North Da-  
kota, also Dr. Harvey W. Wiley, chief  
of the bureau of chemistry in the agri-  
cultural department, and formerly  
governor of the New York board of  
health.

The senators will urge the necessity  
for national legislation. Dr. Wiley will  
speak on the evils of adulterated food  
and drugs. Dr. Lederle will speak on  
conditions in this city, and Mr.  
Strauss will give practical illustra-  
tions on the necessity for state con-  
trol, derived from his work in dis-  
tributing milk among the poor of  
New York.

### KEEPS CORPSE 22 YEARS.

Body of Child Found After  
Mother's Death.

Los Angeles, Dec. 2.—A coffin con-  
taining the dismembered remains of her  
daughter, who died twenty-seven  
years ago, was found yesterday, fol-  
lowing the death of Mrs. Lore Thomp-  
son, an aged and eccentric woman.  
The coffin, which had been sent from  
Amherst, Mass., was discovered in the  
attic of the woman's cottage on  
Boyle Heights. Neighbors say the mo-  
ther kept nightly vigil over the girl's  
body.

### Gold In Magellan.

Santiago de Chile, Dec. 2.—Great  
excitement prevails in the gold fields  
bordering on the Straits of Magellan.  
Many companies have been formed,  
and there has been a great opening of  
the field and washeries. The territory  
is said to be a second Klondyke.

### A LETTER FOUND

In the Pocket of the Frozen  
Fireman.

Detroit, Dec. 2.—A Duluth dispatch  
says: "In the pockets of Thomas H.  
Woodgate, one of the firemen frozen  
to death on the Matanala, was found  
an anonymous recorded letter from his  
father. It appears that Woodgate was  
formerly on the steamer Kensington.  
In his letter which is dated Toronto,  
November 17th, 1905, Woodgate's fa-  
ther says: 'There has been a great  
stormy weather, but as it would take  
all the United States navy to wreck  
the old Kensington, I have dared to  
presume that you are safe and  
sound.' Mr. Woodgate then bids his  
son good-bye and says he hopes soon  
to see him, and that he is exercising  
patience until the time arrives. Wil-  
liam Gherhart, an officer of Warton,  
Ont., and Walter Bush Cook, of An-  
derson, Ont., were also lost on the  
Matanala.

All Christmas presents purchased at  
Gibson's Red Cross Drug Store will be  
delivered Christmas morning.

### OVE.. AGGRESSION.

Montreal's Big Season During  
Navigation—Want to Have  
Aid. Gallery Disqualified—He  
Knew What the Committee  
Was Doing.

Montreal, Dec. 2.—A remarkable il-  
lustration of the good and bad ef-  
fects of trade combinations is to be  
found in the relations that subsist be-  
tween the Wholesale Grocers' Guild  
and the manufacturers of certain kinds  
of food products.

Of the operations of the guild a  
good deal has been said in connec-  
tion with the inquiries of the tariff  
commission in western Ontario, but  
here in Montreal, it has escaped the  
ordal of public investigation. Its  
policy has been one of silence. Behind  
the guild are certain manufacturing in-  
terests which find the wholesale gro-  
cers' organization an adaptable and  
useful instrument for accomplishing  
their purposes. It has been learned  
that the wholesale houses here out-  
side the guild have been offered big  
inducements to go in with the others  
to make the combine complete. It is  
also known that the grocers' guild is  
powerless to resist the canners' ag-  
gression, and this has made bad feel-  
ing. Some idea of how Montrealers are  
held up by the combine may be form-  
ed from the fact that last autumn  
canned tomatoes were kept up to dou-  
ble the price prevailing in New York.

R. S. White, collector of customs,  
states that the general business of the  
port of Montreal during the season,  
exceeded that of any previous year.  
The total receipts were \$5,639,319 for  
the season, compared with \$5,007,666  
last year.

Argument in the Gallery election  
case was made in the court of the  
king's bench, the petitioners asking  
for Mr. Gallery's disqualification, on  
the ground that he had criminal  
knowledge of the illegal actions of his  
committee.

R. S. Phillips, for several years man-  
ager of the St. Catharines branch of  
the Merchants Bank, left this morn-  
ing for Brandon, Man., to open a  
branch for the Northern Bank of Can-  
ada, head of Winnipeg. He will be  
succeeded here by R. Barkell, of  
the St. Jerome, Que., branch, former-  
ly at St. Thomas, Ont.

Charles Smith, general manager of  
the Richfield & Ontario Navigation  
company, visited Burrows-Furness,  
with the object of looking over some  
steamers his company propose buying.  
He goes to Glasgow next week.

### TO TOL THE MARK.

Government Strictly Enforcing  
the Regulations.

Toronto, Dec. 2.—A story comes  
from Northern Ontario to the effect  
that the Ontario government is mak-  
ing a general clean up of deerslet set-  
tlers.

On reliable authority it is stated  
that from two to three per week are  
being notified to get out for non-com-  
pliance with the regulations.

Settlers are given rights under cer-  
tain conditions. Among these it is stip-  
ulated that a settler must erect a  
house and barn, must occupy the pre-  
mises, must clear a certain number of  
acres per year, etc. When the condi-  
tions are complied with for four or  
five years, according to the district,  
a settler is given a patent to 160  
acres, for which he pays in instal-  
ments the nominal price of fifty cents  
an acre.

It is said there have been violations  
of these rules. Otherwise respectable  
and honest men have signed stringent  
affidavits which they have made little  
pretence at carrying out. The lands  
have been held for speculation and  
thus settlement has been retarded.

Hon. Frank Cochrane, it is said, is  
going carefully into all cases, mak-  
ing enquiries and then vigorously en-  
forcing the regulations.

### COUNTY OF WELLAND

Responsible For Sinking of Tug  
Davitt.

Toronto, Dec. 2.—Justice Clague, to-  
day, held the county of Welland re-  
sponsible for the sinking of the tug, Michael Davitt,  
in the Welland River, about one year  
ago. The contractor, Thomas Davitt,  
was instructed by the county war-  
den, to saw off old piles in the river,  
about four feet below the surface of  
water. The tug came along, struck  
on the piles, and sank. The county  
was held liable, because of the war-  
den's instructions. A referee will be  
appointed to decide upon the damages.  
The tug was owned by Auckland,  
R. Gross and Edward Manley.

### Has Been Run Down.

Gloucester, Mass., Dec. 2.—At the  
request of the Rochester police, Alexan-  
der H. Prescott was arrested yester-  
day, on a charge of being a fugitive  
from justice. He is being held pending  
the arrival of the officers from the  
city. It is alleged that by pretending  
to be a graduate of Queen's College,  
Ontario, Prescott has obtained large  
sums from the alumni of that insti-  
tution in the United States and Can-  
ada, and for the ostensible purpose of  
enabling him to visit his father, who,  
he claimed, was ill in California. Pres-  
cott is twenty-six years old.

### Child Has Extra Leg.

Mansfield, Ohio, Dec. 2.—A short dis-  
tance north of the village of Millin,  
southwest of this city, in the house-  
hold of Mr. and Mrs. Eichinger, is a  
remarkable child, who has three legs.  
The right one is that of an ordinary  
child of that age, but where the left  
one should be are two legs, the middle  
one curving inward and the other  
still shorter and curving outward.  
The feet are fully formed. Mr. and Mrs.  
Eichinger are the parents of three  
other children who are all of normal  
physique.

### Feasants Scared By Aurora.

Paris, Dec. 2.—So brilliant was the  
aurora borealis seen in the north of  
France, last night, that in many  
places it was thought that the neigh-  
bouring villages were on fire.  
At Bethune the inhabitants took out  
the fire engine and dragged it to a vil-  
lage some miles away, which they were  
certain was in flames.  
A panic also occurred in Cam. The  
townsfolk paraded the streets, afraid  
to enter their houses, and many pan-  
ic-stricken women remained in prayer all  
night in the churches.

### Gored By Savage Bull.

Galt, Dec. 2.—A shocking fatality oc-  
curred on the Riddell farm, Beverly  
township, the victim being William  
Riddell, a young farmer. His sister,  
who, with another brother, occupies  
the homestead, happened to go into  
the cattle barn, and was horrified to  
find her elder brother lying dead in  
the stall in which a savage bull is  
kept. Examination disclosed evidence  
that the animal had gored and tramp-  
led the young man.

### Turtle Was Pre-Historic.

Indianapolis, Dec. 2.—While at work  
in the Green Valley mine near Jaso-  
ville to-day, William Houston, found a  
perfect specimen of petrified turtle  
imbedded in a six-foot vein of coal,  
forty feet under ground.

Morgan Drops \$10,000,000.  
New York, Dec. 2.—J. P. Morgan  
will lose \$10,000,000 through the un-  
loading on him of the Cincinnati,  
Hamilton and Dayton railroad by  
Eugene F. Zimmerman.

T. A. Webster, Lansdowne, has been  
pending a couple of days in town.

### WEATHER PROBABILITIES.

Toronto, Ont., Dec. 2.—(10 a.m.)—  
Southernly and southeasterly winds,  
milder, with snow or rain, Sunday,  
westerly gales, clearing and becoming  
decidedly colder.

### JUST A WORD OR TWO

Some little time ago the Dominion  
Government collected samples of food  
stuffs, (such as Coffee, Pepper, Cream of  
Tartar, Jams and etc.) from the grocers  
throughout the country for analysis.  
Four samples were taken from our  
store and in every case they were pro-  
nounced pure.

And it was so published in their  
books.

This should please our customers and  
is worthy of the serious consideration  
everybody.

### TO TOL THE MARK.

Government Strictly Enforcing  
the Regulations.

Toronto, Dec. 2.—A story comes  
from Northern Ontario to the effect  
that the Ontario government is mak-  
ing a general clean up of deerslet set-  
tlers.

On reliable authority it is stated  
that from two to three per week are  
being notified to get out for non-com-  
pliance with the regulations.

Settlers are given rights under cer-  
tain conditions. Among these it is stip-  
ulated that a settler must erect a  
house and barn, must occupy the pre-  
mises, must clear a certain number of  
acres per year, etc. When the condi-  
tions are complied with for four or  
five years, according to the district,  
a settler is given a patent to 160  
acres, for which he pays in instal-  
ments the nominal price of fifty cents  
an acre.

It is said there have been violations  
of these rules. Otherwise respectable  
and honest men have signed stringent  
affidavits which they have made little  
pretence at carrying out. The lands  
have been held for speculation and  
thus settlement has been retarded.

Hon. Frank Cochrane, it is said, is  
going carefully into all cases, mak-  
ing enquiries and then vigorously en-  
forcing the regulations.

### COUNTY OF WELLAND

Responsible For Sinking of Tug  
Davitt.

Toronto, Dec. 2.—Justice Clague, to-  
day, held the county of Welland re-  
sponsible for the sinking of the tug, Michael Davitt,  
in the Welland River, about one year  
ago. The contractor, Thomas Davitt,  
was instructed by the county war-  
den, to saw off old piles in the river,  
about four feet below the surface of  
water. The tug came along, struck  
on the piles, and sank. The county  
was held liable, because of the war-  
den's instructions. A referee will be  
appointed to decide upon the damages.  
The tug was owned by Auckland,  
R. Gross and Edward Manley.

### Has Been Run Down.

Gloucester, Mass., Dec. 2.—At the  
request of the Rochester police, Alexan-  
der H. Prescott was arrested yester-  
day, on a charge of being a fugitive  
from justice. He is being held pending  
the arrival of the officers from the  
city. It is alleged that by pretending  
to be a graduate of Queen's College,  
Ontario, Prescott has obtained large  
sums from the alumni of that insti-  
tution in the United States and Can-  
ada, and for the ostensible purpose of  
enabling him to visit his father, who,  
he claimed, was ill in California. Pres-  
cott is twenty-six years old.

### Child Has Extra Leg.

Mansfield, Ohio, Dec. 2.—A short dis-  
tance north of the village of Millin,  
southwest of this city, in the house-  
hold of Mr. and Mrs. Eichinger, is a  
remarkable child, who has three legs.  
The right one is that of an ordinary  
child of that age, but where the left  
one should be are two legs, the middle  
one curving inward and the other  
still shorter and curving outward.  
The feet are fully formed. Mr. and Mrs.  
Eichinger are the parents of three  
other children who are all of normal  
physique.

### Feasants Scared By Aurora.

Paris, Dec. 2.—So brilliant was the  
aurora borealis seen in the north of  
France, last night, that in many  
places it was thought that the neigh-  
bouring villages were on fire.  
At Bethune the inhabitants took out  
the fire engine and dragged it to a vil-  
lage some miles away, which they were  
certain was in flames.  
A panic also occurred in Cam. The  
townsfolk paraded the streets, afraid  
to enter their houses, and many pan-  
ic-stricken women remained in prayer all  
night in the churches.

### Gored By Savage Bull.

Galt, Dec. 2.—A shocking fatality oc-  
curred on the Riddell farm, Beverly  
township, the victim being William  
Riddell, a young farmer. His sister,  
who, with another brother, occupies  
the homestead, happened to go into  
the cattle barn, and was horrified to  
find her elder brother lying dead in  
the stall in which a savage bull is  
kept. Examination disclosed evidence  
that the animal had gored and tramp-  
led the young man.

### Turtle Was Pre-Historic.

Indianapolis, Dec. 2.—While at work  
in the Green Valley mine near Jaso-  
ville to-day, William Houston, found a  
perfect specimen of petrified turtle  
imbedded in a six-foot vein of coal,  
forty feet under ground.

Morgan Drops \$10,000,000.  
New York, Dec. 2.—J. P. Morgan  
will lose \$10,000,000 through the un-  
loading on him of the Cincinnati,  
Hamilton and Dayton railroad by  
Eugene F. Zimmerman.

T. A. Webster, Lansdowne, has been  
pending a couple of days in town.
