Train Blown Up; Many Killed.

Paris, Dec. 19.—A dispatch to the Echo de Paris from Riga, says that a Russian military train was broken up there on Saturday, near St. Petersburg. The train was carrying 120,000,000 roubles to pay the interest on Russian loans. It is believed that the wreckers intended to capture the gold for revolutionary purposes. The treasure was consigned to one of the grand dukes, who is at Cannes, France.

The Lett Republic.

Stockholm, Dec. 19.—Reports from Riga state that the municipal council and the chamber of nobles endeavored to negotiate with the Lett revolutionary party for the release of seventeen noblemen and landowners, held as hostages. The latter demanded recognition of the Lett republic, the cessation of the state of siege proclaimed by the governor, the cancelling of all arrears of rents and taxes due from peasants, and, on the rejection of this claim, the mob set fire to the town, and opposed every attempt of the better classes to escape from the town. Metax, Libau, and Reval are said also to be in the power of the revolutionary party. The troops so far have confined their activity to protecting the railway line, but have not been able to reorganize the service, and interruption of communication continues.

Terrible Barbarities.

Berlin, Dec. 19.—The Lokal Anzeiger has the following from Eydtkuhnen: A train of about eighteen cars brought fugitives here from Riga by way of Duenaburg, West Russia. A GENERAL STRIKE

RUSSIAN WORKMEN'S COUNCIL DECIDES TO CALL ONE.

Revolutionaries Warned That Unless Present Disorders Cease Exceptional Methods Will Be Taken by Government—Attempt on Treasure Train.

St. Petersburg, Dec. 19.—The new delegates of the workmen's council who took the places of those who were arrested, met secretly in the outskirts of St. Petersburg, and decided to call a general strike on Wednesday.

An official government document reads: Among the various political parties, those groups are making themselves particularly noticeable, whose object is to oppose reforms announced in the imperial manifesto, and demolish the economic, social and political edifice of the country. The government considers it its duty to carry out reforms on the basis of the manifesto, and its best methods of fighting revolutionaries is to rely on laws, regulations and ordinance. Should these not suffice to check the revolutionaries, the necessity of adopting exceptional measures will become evident. The decision will be communicated to the workmen's leaders, at Moscow.

The Novoe Vremya and Slovo were the only newspapers published yesterday.

The workmen arrested have been released.

Attempt on Treasure Train.

London, Dec. 19.—The St. Petersburg correspondent of the Daily Mail says that an unsuccessful attempt was made Saturday, near St. Petersburg, to wreck a train carrying 120,000,000 roubles to pay the interest on Russian loans. It is believed that the wreckers intended to capture the gold for revolutionary purposes. The treasure was consigned to one of the grand dukes, who is at Cannes, France.

THINK WELL OF CANADA.

Regard It as a Very Progressive Colony.

Capt. Karl C. Folger, S.A.C., arrived in the city on Monday, from Heidelberg, South Africa, to be the guest of his mother and brothers, on Sydenham street, after a journey covering over 12,000 miles, leaving Johannesburg on November 9th, thirty-nine days ago. Capt. Folger left here with the 2nd Canadian contingent, in March, 1901. When they arrived in South Africa, he was drafted to the Eastern Transvaal with 400 others. At that time there were seventeen different troops in Heidelberg, and the Canadians were the first drafted out. At the end of the war, in May, 1902, he was promoted from the lieutenant to captain and out in command of the Mobile troops at Heidelberg. These troops are available for police or military work and have been patrolling Swaziland because of the fears of a native uprising. In June, of this year, Capt. Folger was married to Miss A. C. Moffatt.

Seen, to-day, Capt. Folger, had quite a chat with the Whig: "The people in South Africa," he remarked, "are under the impression that Canada is the best and most progressive of the British colonies. The greater portion of Canadians there, are returning home, thinking there are better prospects in the North West. There is little doing in South Africa, since the war, more mounted police work than anything else. The troops are gradually being withdrawn. The times have considerably improved since the importation of Chinese labor.

Among the Kingstons, whom I have seen out there," continued, "are E. Dunlop and Henry Wilson. Dunlop is still with the S. A. Constabulary, and doing well. Wilson is representing an insurance company, in Johannesburg."

Capt. Folger is undecided in his plans. He does not know, yet, whether he will return to South Africa, or remain in Canada.

TRYING TO UPSET IT.

Given Leave to Go to Court of Appeal.

Toronto, Dec. 19.—An attempt to upset Judge Tetlow's winding-up order, in the case of the York County Loan, was made before Chief Justice Meredith, in single court, this morning. James Bicknell, K.C., for a number of outside shareholders, made the company, having a provincial charter, could not come under the Dominion winding-up act; secondly, that the company was not insolvent, as the shareholders, as such, were not creditors. Chief Justice Meredith replied that the shareholders were creditors, and declined to consider the question of insolvency. The act of the directors was an admission of their inability to conduct the affairs of the company. He refused leave to appeal against the winding-up order on the point of insolvency. On the point as to the jurisdiction of the Dominion winding-up act the chief justice granted leave to appeal to the court of appeal, with the proviso, however, that the liquidation proceedings should not be stayed unless so ordered by the court of appeal. Chief Justice Meredith added that he could not see what advantage would be gained by the shareholders to have the winding-up done by the officials of an inferior court, officials who had no experience in such matters.

Toronto, Dec. 19.—The conspiracy cases against individual members of the Master Plumbers' Association were commenced in the police court, to-day. There are 125 in all. W. H. Meredith, secretary of the association, was put in the box to show that the accused men were members of the association, that they were interested in the association's workings and had taken the obligation. This evidence took up the entire morning session.

Price Higher Than Kingston.

Toronto, Ont., Dec. 19.—The Toronto Electric Light company was, to-day, awarded the contract for lighting the city for the next five years at \$63.34 per electric-light per year for a three years' contract. The company wants to pay \$1.22 per light. The Carbon Light and Power company received the contract for gas lamps at \$28.60 per lamp per year.

She Had Narrow Escape.

As the result of "hitching on," Florence Barrigan narrowly escaped having her leg badly crushed on Monday. Coming from school, the young girl caught on a farmer's sleigh going down Brock street, when, in some manner, she fell. The back runner passed over her right ankle, but, remarkable to say, no bones were broken. She was driven to her home, on Gore street, and was able to walk into the house.
