QUEEN'S ENDOWMENT PROGRESS REPORT HAS JUST BEEN ISSUED.

Kingston A Centre of University—Life of Great Vigor and Catholicity—Her Student Body Important Factor in Educational Matters.

Toronto News. A progress report has been issued which shows that those in charge of the movement to procure an enlarged endowment for Queen's University have secured \$210,000 of the half-million aimed at.

This is the fruit of a partial canvass. The centre to which the most serious attention so far has been paid is Ottawa. In that city and its vicinity a total sum of \$54,000 has been subscribed.

It is understood that Toronto will soon be visited by the financial agent, Rev. Robert Laird, M.A., and it may be confidently expected that substantial results will follow his efforts.

Queen's occupies an interesting and in many respects peculiar position in the educational world of the province. Thanks to her, Kingston is a centre of university instruction of great vigor and catholicity, nearly, if not fully one thousand students finding instruction in the several faculties connected with the university.

In no small measure she has developed on her own lines, the influence of the government system of education being confined to those of the standards set by it, to which the independent university, for one reason or another, has been confined.

To a considerable extent the up-building of this energetic centre of education has been accomplished without expense to the public. The core of the institution, the long-established university of Queen's College, with its combined faculty of arts and divinity—a peculiarity which is valued in Queen's—is purely the result of private giving.

So also hitherto has been the medical faculty, formerly the Royal College of Medicine, The Kingston School of Mining, which is technical in character, but in practice closely associated with the university, has been made stepping stone for a great body of scientific work, including instruction in engineering, and other work of an exceedingly practical nature.

From 1875 to a very recent date Queen's was in the position of reaping all the disadvantages and few of the benefits of being a denominational university. The circumstances under which the amalgamation of the several Presbyterian bodies was effected caused the united church to renounce all but a remote and ultimate control of the institution.

The greatest volume of her support came from individual Presbyterians, but the Presbyterian church as a body took a slight and perfunctory interest in her welfare.

This anomaly was a source of great regret to Principal Grant, who strove in vain for over twenty years to induce the church to take a warmer interest in "the Presbyterian university."

comment itself to many who are not Presbyterians, who are interested in a university whose history has been marked by energy, self-reliance, independence and progress. Whether Queen's should have support, and whether it should have state support, are entirely different questions. It is now generally agreed that there can be only one state university in this province, and that state aid divided is state aid lost—weakening the central university, and of very doubtful benefit to other universities, which have established and are establishing a strong claim to denominational and private support; and it is likely to be all the more successful in obtaining that kind of assistance if it abandon the idea of receiving aid from the state.

COMING NEXT WEEK.

Letters to the Editor. Increase The Wages. Kingston, Jan. 6.—(To the Editor): In comment on the letters appearing in the Whig re an increase in the salaries of the police, mention might be made of their expenses for wearing apparel.

For regulation wear—Double-breasted coat, \$27.50; trousers, \$6; single-breasted overcoat, \$25; serge suit, \$20; overcoat, \$25. It might be stated that in twenty-four years has a raise in wages been made. Has not the force become more efficient? Is not the work two-fold? Have not living expenses doubly increased?

An excellent lot of mpu are our "bobbies!" Should not 7 man, faithful in his duties, receive more than \$40 per month after being connected with the force for two years—MAN ABOUT TOWN.

Visiting Lodges. L. W. Knight of Gananogue, D.D.G. M., of the I.O.O.F., Kingston district, assisted by P. M. Have Lost Interest. There is little or no talk about ice boating at the Cape this winter. For several seasons up to last year this village had a large fleet of boats, some of which were exceedingly speedy.

COD LIVER OIL. It almost makes you sick to think of it, but it isn't nearly as bad as it is used to be. The improved method of refining it makes it much easier to take, and when made into Scott's Emulsion almost every one can take it.

Widow Wants Damages. The widow of the late H. W. Henderson, agent for the P. F. Collier company, killed on the Levis Electric railway line, Quebec, last fall, as a result of a loaded freight car on the electric railway track colliding with a passenger car, has instituted action for \$20,000 damages for the death of her husband against Foreman and Ernest McNutt, Montreal, the owners of the railway.

Prosperous Times. "Where there is a will, there is a way" is an old saying, and in nothing does it apply with more force than in the matter of saving money.

Caught In A Wheel. The other day an errand boy, with a medicine box on his arm, jumped on to the back axle of a cab at Teignmouth, England. The result was that the wheel of the conveyance dragged his box into the spokes and the boy after it. The boy's head was on the outside of the wheel and his legs inside, and in this position he was dragged a distance of 400 yards.

THE DAY'S EPISODES LOCAL NOTES AND THINGS IN GENERAL.

Occurrences in The City and Vicinity—Other Brief Items of Interest Easily Read and Remembered.

Stick to good resolutions. Does any one predict a big snow storm? Let all young men prepare to register next week.

Speak well of your city and that will help to make it go ahead. William Swain, piano tuner. Orders received at McAuley's Book Store. Buy Peruna and Liquezone at Gibson's Red Cross drug store.

All supporters of Mr. Pense should see that every probable voter in his behalf registers next week. The less snow this winter the more money in the city coffers for the repairs of the streets in the spring and summer.

Dr. Bogart is to have a winter moving. He hopes to be in his new home, 110 Wellington street, early next week. Who has a word to say against Kingston's police force and fire brigade? Let him stand up so Jimmy can hit him.

Are the aldermen willing to risk their lives by entering the council chambers on Monday morning and run the chance of falling plaster? Every voter who had not a vote in the municipal elections last Monday, will require to register next week, 10th to 14th, if he wishes to exercise his franchise in the Ontario by-election of the 29th.

Fountain syringes and hot water bottles. It saves you money to buy these at Gibson's Red Cross drug store. To-day is the festival of the Epiphany, which is celebrated with much solemnity in the Anglican and Roman Catholic churches. In England and on the continent it is observed as a general holiday.

The citizens will doubtless be favored with a few concerts next summer by the splendid band of the R.C.H.A. The good old days of the eighties when the artillery band was so prominent here, seem to have returned. Evidently there will be no aldermanic recount in Frontenac ward. There are many who would like to see the veteran Joseph Tate an alderman again, for he represented the people well.

The Trusts and Guarantee company, limited, Toronto, has been appointed guardian of the estates of the three infant children of Dr. John W. Collier, St. Catharines, who are beneficiaries under the will of their late uncle, Orlando Collier.

Charles Aulin, from the township of Kingston, an old timer in police circles, but who has not been in the cooler for some time, was arrested yesterday afternoon, by Police Constable Bateson, for being drunk. He was let go this morning.

The business men of our country from all quarters, are turning to the Kingston Business College, head of Queen street, when they desire the services of well-trained office assistants. Five graduates were appointed to excellent positions on the 1st of January.

The late Mrs. Henry Armstrong, died at her late residence, Forest Mills, on December 29th, Letitia Perry, wife of Henry Armstrong, in the eighty-fourth year of her age. The remains were placed in the vault of the Eastern cemetery, Nanapan. She was born in County Tyrone, Ireland, and together with her surviving husband, came to Canada in the year 1841, settling in the township of Kingston.

About ten years later, they removed to the township of Richmond, where they since resided. She led a quiet, unassuming life, devoted to her husband and family, and maintained all her mental faculties to the last. Her illness occasioned by appendicitis followed by peritonitis, lasted only five days. She left a family of seven children, two having died previously: Mrs. E. J. Shorts, Mont Pleasant, Michigan; Mrs. Margaret Breeze, Forest Mills; Hamilton and Henry, Carleton Place; Robert E., Bracebridge, Ont.; Mrs. E. Perry, Patterson, New Jersey, and John, Forest Mills, Ont. Her aged partner, now in his ninety-first year, feels his loss keenly, they having shared the pleasures and toils of life together for a period of sixty-two years. She was the last surviving member of a large family.

Sleighting Has Come Again. A large black cloud hung over the city early this morning, and from it came a good snow fall. For a time it looked as though an all day's fall would result, but at 8:30 o'clock the sun suddenly peeped out. The fall of snow made sleighting again. The street railway company had to send a sweeper over the line to clean the tracks.

A Happy Time. Montreal Star. In Kingston, a gentleman bearing the name of John Macdonald Mowat was elected mayor and the only marvel is that anyone could have been induced to run against a man who possessed so happy a name.

Wesley Guis, Watertown, N.Y., has leased the Hotel Dewey at Clayton, and will take possession May 1st.

The Catholic Schools. The separate school board will have its inaugural meeting on Tuesday evening. The Catholic schools of the city are in the very best condition, having a year ago been fitted with all modern conveniences. They have excellent teaching staffs, and large attendance of pupils.
