The developments at the civic entroller.

Up to the present a 25,000 tons order from the Grand Trunk-Railway company, and one of 5,000 tons from the Temiskaming railway of Ontario, and one of 25,000 tons for the Intercolonial railway of Canada have been finished in the Dominion iron rail mill. An additional order of 37,000 tons from the Grand Trunk besides a heavy order from the Canadian Pacific, and what will be required by the Grand Trunk Pacific, have been accepted for the New Year, and it is stated on good authority that the mill has work ahead close on to the next

THE MARINE LECTURE.

Capt Donnelly Discussed Building and Registration. The room was filled to the door atthe marine lecture last evening. Captain Donnelly spoke for two hours on he building and registration of ships, taking up the subject from the time hea and registered. The lecturer explained all about Lloyd rules for the building and classification of ships gave a short history on the formation eties, and explained the provisions of the "Registration of Ships' Act, as applied to Canadian vessels. H was listened to throughout with the closest attention, and received hearty pplanse at the close of the lecture On Monday evening Abraham Shaw will give the sailors, and all interestd, a talk on the duties of measuring surveyor and masters' duties at cus-

It is stated that the village is only two days' march from Calabar River. It is known that the natives of ten indulge in cannibal feats.

Sport In Hamilton.

Hamilton Herald: Here in Hamilthe checker club and crokinole league are the only sporting organizations that help to enthuse the local sport-loving public. There is talent enough in this city from which to se lect a first-class hockey team, but as the O.H.A. objects to games under its prisdiction being played on the bay or on the Dundas canal, there is little use of a team trying to exist. The keys, 10c, to 12c, a 1b. The price of Thistle rink has the necessary ice area meat remains steady, the market be but it lacks the proper seating accoming fairly even, lamb, 9c. to 10c. a lb.; modation necessary for any fair-sized mutton, 7c, to 8c, a lb.; pork, 8c, to erowd to witness a contest. The need of a new covered skating and hockey area was never felt in this city more than at the present time, and it is to be hoped that the promoters of the proposed new rink will not allow another winter to come and find Hamilton without proper accommodation.

WARM DISCUSSIONS

Over the Local Option Question in Kingston Township.

There is a great deal of talk about the local option by-law which passed by the Kingston township rateup to a group of county councillors, B. W. Folger held out two five dollar bills and offered to wager that liquor would be sold in Kingston township till May, 1907, at any rate. A prominent township temperance man clared it would not. The people. held, wanted the liquor places abolish and had so signified by their votes his year's council was elected on the temperance ticket, and the speaker declared that its members would pass the by-law, and that after May 1st next, no more liquor licenses would be

On the other side, it was held, that the by-law carried by the ratepayers on January 1st, was illegal, because was not given sufficient advertisement in the newspapers, according to law, and also because there were not the required scrutineers at the polls. It seems that the reeve and the clerk appointed the scrutineers, but some of them did not act. The question of illegality will be decided by the courts, as local option oppositionists are bound to contest the by-law. If the polling is found not to have been according to law, another vote

will have to be taken. Williamsville, Cataraqui, Collins Bay day, that he considered the prospects and Westbrook, Storrington is the for a good hay crop, next season, to only township in Frontenae which et be very poor. gee. He is a lumber merchant at Lenkowisk. He said: "I saw a Russian town attacked on October 18th. and 300 Jews were put to death. The women were thrown out of the winerection, at Winnipeg, were wrecked dows, and the men were beaten over the head by rifle butts, and bayonets were run through the bodies of the children.

Wolf Sobak, from Crinshoff, near Odessa, said : "I saw the body of Russian boy of about eleven years of age lying dead in the road, and on his breast was a label which read, 'This is the way to kill them off young. In the streets I saw two and three year old children torn limb from limb by the insane Russians, who were inspired to the deed by the police themselves, who thus hoped to take the minds of the Russian populace from the real revolution that is spreading throughout the empire."

A Growing Institution.

The Frontenac Business College opened its winter term on Wednesday last, with a good increase in its numbers in both the day and evening classes. It is just one year since this new school started, and during that time it has won the confidence and support of the people of Kingston and the surrounding country.

The courses are modern, thorough and practical, and the business and professional men who employ its graduates speak in glowing terms of the thorough training given in all departments. The equipment is all new and the most up-to-date to be found in any college in Ontario.

Any young person contemplating a business training will find it to their payers by 349 to 301. The question advantage to visit or get particulars was the topic of discussion on the respecting the rates and courses. Day market, Saturday morning. Coming and evening classes. Phone 680. T. N.
