Toronto, Jan. 8 .- Dr. P. Howard Hunter, 'inspector of insurance companies and registrar of loan corporations, speaking in regard to the methods of usuerers, as revealed in some recent instances expressed the opinion that magistrates should have authority to hear charges arising from such cases in camera. Outside of speculation the market is likely to have the support of strong banking interests for some time. Many men and women toss night after night upon sleepless beds until near dawn, Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated the nervous system that it cannot be quieted. Or, again, you have heart palpi-tation and sensation of sinking, a feeling you are going to die; or perhaps you wake up from your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. Allow these conditions to continue and you will feel your health declining. It is the nerves and heart that are not

acting properly. They can be set right by the use of MILBURN'S HEART AND NERVE PILLS

They soon induce healthful, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is often the cause of nervousness and charged borrowers as the "cost of the

Awoke. Sydney, Jan. The American's story is vouched for by two Sydney doctors who have investigated the circumstances The mysterious traveller left Para

He work ed his way to Sydney, a distance of some hundreds of miles, and is now trying to obtain employment there to get money to return to his family. He is in total ignorance as to their whereabouts and as to his own doings during the six months between April and October.

This Bonus Picture must not be confused with cheap premium pictures. It is a work of art worthy a place in the most cultured home. - The subject is extremely interesting.

On the grass in a charming woodland spot by a lake a mother and her three beautiful children have spread their picnic table cloth. Everything indicates wealth and health and happiness, the cake and fruit are served on choice china with snowy linen, and both mother and children are daintily attired. Standing apart and gazing with wondering, wistful eyes at the luncheon so temptingly spread, are a tiny girl and her tinier brother, barefoot and evidently less fortunate in worldly possessions. Prompted by her mother, the wee tot of the picnic party, with some of the best of the luncheon on a plate carried before her, is advancing toward the little ragged intruders, tendering with shy and gentle grace her offering. The little barefoot boy seems embarrassed yet delighted by this immediate prospect of good things and is shyly putting out a little brown hand to receive.

Altogether the picture is one of the most charming conceptions, and is sure to please and delight.
