Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most dicient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleans. g purpose. Charcoal is a remedy that the more

you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present n the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after

smoking, drinking or after eating onions, and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which ollect in the stomach and bowels; it disinfects the mouth and throat from

All druggists sell charcoal in form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health. better comcontinued use, but on the contrary reat benefit.

A splendidly equipped and stocked A Buffalo physician in speaking d the benefits of charcoal says: "I ade patients suffering from gas in stomach and bowels, and to clear the complex them; they cost but twenty-five cents in some sense a patent preparation yet I believe I get more and better coal tablets."
