Mrs. W. Bagley, Stoco, spent the day BOARD OF EDUCATION CON SIDERING PLAN.

> For a Teachers' Institute or College in the City-Will Likely Ask the Department For Its Co-Operation.

A proposition has been affoat som time looking to the establishment i Kingston of a model school, teachers' This was the third morning of the college or training institute, as it ity's goodness, with nothing doing at severally called. The matter is now be fore the Board of Education, and be Belleville won a Central Canada fore many weeks may take tangible

During the past few years the Rummage sale, 351 Princess street, viction has been growing that the mo near Barrie. Everything to-night at del schools, as now constituted, are somewhat antiquated and not up to the requirements of the teaching pro fession. And this is most manifest in Kingston, where advantages of a high order could readily be made available. Queen's staff could easily be utilized in more thoroughly instructing teachers in pedagogy; thus qualifying them more adequately for the service they are expected to fulfil in such a progresssive province as Ontario. Prof. Dvde Prof. Knight, Prof. Marshall, along with members of the Board of Educacuss allowing senior O.H.A. players tion, have been discussing and canvas-

> The minister was impressed and intimated that he was of opinion that fewer model schools with longer terms, was desirable and he hoped for an

> early solution of the question. Mr. Pense, while in the house, felt impressed with the proposition, and manifested a lively interest, hoping that details would be brought down which would make Kingston the centre of a flourishing school. Though a change of government came a year ago the matter has not been lost sight of by either the late member or the edueationists of the city.

Additional interest was given the matter by addresses at the recent banquet given by Ex-Chairman Mer Kelvey, especially by Dr. Knight, who developed the schemes as he deemed most desirable for the advancement of the teachers' profession. Then Chairman Kelly, in his inaugural ad dress at the Board of Education, cmphasized the desirability of a schooland the matter is now before the management committee for a report. This !! will be made at an early date.

The board is desirous, however, o having a school of the type desired under its control, in affiliation with Queen's just as School of Mining is The members who have looked into the proposition believe that the education department would second their desires in equipping a school with expert teachers, and it is hoped would apportion all of Eastern Ontario as its field

of operation. In such a school the non-professional teachers could be gathered and a term of seven to ten months created. With Queen's classes available a course could be drafted that would so capably equip teachers that their grasp of the requirements would cause material advance in salaries and the much-needed and highly desired end secured, in having teachers who would make the profession their life work. Hitherto the drain from the teach ing profession has been so great, and the constant coming in of inexperienced teachers, has had a deteriorof ice in the St. Lawrence river just ating effect upon the work and the schools have suffered most severely. The educationists concerned believe I For running his car at a dangerous the new scheme would happily imrate of speed, Motorman Herbert Hol. prove conditions and a higher stan lingshead. Toronto, is under arrest, dard and better work would result. The matter has been discussed by I The Liverpool Daily Post says per- outside inspectors of Eastern Ontario haps the most remarkable of Wednes- and almost invariably they have sig-

Of course in the development of the perty on Alfred street, now held by the board, between the Collegiate Institute and Victoria school, valuable help would be given by the education department. It might require 825,000 for a building, but it could also be used for school purposes both by the institute and the public schools. Several of the uptown schools, parance was published to-day. Its purpose | ticularly Louise and Rideau schools, is reform of the army by retiring are deteriorating so rapidly that nineteen generals, who are members of something must be done, hence the the council of war, and representa- conviction that a large new structure. tives for the most part of the high as we have indicated, could be made

ed programme of reforms, and it is There is every prospect that the Moscow, Jan. 20, The police have considered indispensable that the army board will be asked to send a deputaof Russia should be in sympathy with tion to Toronto to consult the deit. The czar's action practically means partment, and backed by the strong and will be extremely advantageous cerned feel they can make out a good case. Anyway the proposition is likely to be brought into the realm practical exploitation and we are all lovers of the highest type of education in the public schools will give their support to bring about such beneficial work.
