NOT IN VAIN!

McMaster, Defeated Tory, Kissed By Ladies.

THE FATE OF AUSTEN

WILL BE ANNOUNCED SOME TIME TO-DAY.

Literals Hold 274 Seats—Sir E. Clarke, London City, Conservative, Has 10,706 Majority—Chamberlain Says Tariff Reform Must Come.

London, Jan. 23.—D. McMaster, K.C., has failed in his effort to wrest the Liberal division of Laneshire from the Liberal candidate, yesterday, by J. F. Brammer, Liberal, by 2,006, the vote being 7,175 to 5,169. The constituency has been liberal for over twenty years, with majorities ranging in the neighborhood of a thousand. At the last election the majority was reduced to 120. The riding includes large mining interests, and the labor vote is considerable.

Appearing for the labor vote, the liberal candidate pointed out, in a recent speech that Mr. McMaster had spoken against labor candidates in the other ridings, while he himself had shown his friendship for labor by loaning his motor car to three labor candidates, near London, but the campaign has not been entirely in vain for the conservative candidate. A report from the riding says that after his meetings several ladies insisted on kissing Mr. McMaster.

Only two other returns were received last night, out of twenty-two pollings to-day. Sir J. F. Lesse retains the Acricion division of Laneshire for the liberals, by 2,357 majority, over the labor and conservative candidate. The Corton division of Lancashire goes to labor, Podge defeating S. W. Roys, conservative, by 4,225.

This seat was won for the conservatives by Mr. Hatch, by a majority of 520 to 1,900, but Mr. Hatch was over to the liberals last year, and did not seek re-election.

Austen Chamberlain's fate cannot be announced to-day. An uncertainty will arise from the fact that 9,000 new voters have been added to the list since the last contest in 1892.

In the race for the biggest majority Pomeroy held fair to be second. Sir Edward Clarke, known as Law's Horse, 10,706 in the city of London, is on top. Romford yesterday disclosed a liberal majority of 8,858, a change from the conservative majority of 3,162 last time. Right Hon. J. Sinclair, elected for Evesham, is secretary for Scotland, and a son-in-law of Lord Aberdeen.

The score to date is: Liberals, 274 seats; labor, 37; conservatives, 115; nationalists, 80, including 150 liberal gains, 39 labor gains, 9 conservative gains, and one nationalist gain.

In a campaign speech last night Mr. Chamberlain admitted the majority against him was much larger than he expected, and he recognized that a political revolution had been in the air. He was determined, nevertheless, to pursue to the end a policy which he believed to be demanded in the interest of the population. "Tariff reform," Mr. Chamberlain went on, "is not dead. When the conditions which have moment overwhelmed it have come home to roost, when all side issues are forgotten, tariff reform will remain as the only practical remedy for what distresses our country. It will come back, and in the meanwhile our duty is to keep the lamp alight."

TOOK A DRUG

On The Day She Was To Have Married.

GIRL PREFERRED

DEATH TO A MARRIAGE WITH-OUT LOVE.

Had Transferred Her Affections to Another Young Man—And Poisoned Herself Rather Than Marry the Other.

Philadelphia, Jan. 23.—Choosing the day that should have been the happiest day in her life, her wedding day, Mrs. Margaret street, Frank-19, attempted to take her life rather than marry the man to whom she had pledged her truth, but whose place in her affection had been taken by another. The young girl swallowed an ounce of laudanum at the home of her aunt, Mrs. Walter Anstee, No. 1422 York street, and was found in a semi-conscious condition in an upstairs room by a member of the family.

Robert Dean, the man who the girl was to marry, was in the lower portion of the house and when he learned of her deed he rushed to the office of Dr. Herbert Chandler, Frankford avenue, below Waking street, and told him of the case. Dr. Chandler telephoned for the Frankford patrol wagon and then left for the house. On arriving he administered an antidote and had her removed to the Frankford hospital, where, by the prompt use of the stomach pump, Mrs. Ross and Lynch had the girl on a fair way to recovery in a few hours.

Miss Graham was to have married Robert Dean yesterday morning at the home of her aunt and when the prospective bridegroom put in his appearance early, fully arrayed in his wedding garb. The girl had stopped at a drug store on her way to the home of her aunt and purchased the poison, telling the clerk that she wanted to use it for a poultice. When she arrived at the Anstee house she seemed despondent and in a few minutes had taken the drug.

At the hospital she admitted that the affection she once had for Dean had been transferred to Charles Parlett, a young man who worked in the same mill with her, and said that she regretted that she had not loved the man she did not love she tried to end her life.

Dean is heart-broken over the affair, as he did not know that another had claimed the affections of Miss Graham.

THE FUNERAL TRAIN

Will Reach Montreal This Evening.

Quebec, Jan. 23.—The funeral train, bearing the remains of Hon. Raymond Prefontaine, which is due at Montreal at seven o'clock this evening, arrived at Levis, at a quarter past twelve o'clock, and will leave for Montreal, about half past one, after the arrival of the express train from Halifax, which is thirty-five minutes late. The station of the Intercolonial railway is crowded, but nobody is admitted to see the remains. There is a guard of four of the Canada's sailors outside the car. The funeral train was met at the station by some of the most prominent citizens, among them the prime minister, Hon. Mr. Gouin. The funeral train, draped in black, has a very impressive and commanding aspect.

AUSTEN WON.

The Liberals Are Still Making Gains.

London, Jan. 23.—The Bromsgrove division of Worcestershire has re-elected Joseph Austen (Chamberlain), liberal unionist, eldest son of Joseph Chamberlain, and former chancellor of the exchequer, by over 4,000. Otherwise the election returns continue to record liberal successes. Out of ten seats for which liberals were elected, to-day, six were won from unionists, 271 unionists, 121 Irish nationalists, 79 laborites, 42.

RAID ON TONGKIN.

Chinese Massacred Inhabitants of Indo-China Villages.

Paris, Jan. 23.—The newspapers print mailed advices to the effect that bands of Chinese regular troops raided Tongkin, Indo-China, and pillaged villages, massacring women and children. A French column of 400 men surprised part of the invaders and fought them for three hours. Two hundred of the Chinese were killed and 300 wounded. The French lost forty-nine killed. The French commander was seriously wounded.

He Should Have Died.

Schenectady, N.Y., Jan. 23.—F. W. McClinton, Washington, D.C., received the current from 44,000 volts of electricity, at the General Electric Works, and will recover. He was unconscious for eight minutes, and it was at first believed that he was dead.

It is probable that Messrs. Tarney and Alexander, the singing evangelists, will visit Ottawa in the early part of June.

WOMAN'S BODY FOUND.

There Does Not Appear to Be Foul Play.

Wellesford, Ont., Jan. 23.—The body of an unknown woman was found by the road, about three miles north of Wellesford, last night. The woman apparently is about thirty years of age, has light hair and is about five feet, four inches in height and is very poorly clad, from appearances. The body has been there a week on account of being hidden behind a large stump and, therefore, out of sight of passersby. The body is in charge of an undertaker and an inquest will be held here this morning. From appearance no foul play is suspected.

Terrific Slaughter Of Workmen.

Pittsburg, Pa., Jan. 23.—Statistics for the year 1905 just given out by the authorities of Allegheny county indicate that during the past year more than 17,700 persons were killed and injured in this country, while at their daily work. Of this number the blast furnaces and iron and steel mills are responsible for nine thousand. The other factories and shops have four thousand to their credit and the victims of the railroads numbered four thousand, while those of the mines numbered 4,000. In this there were several thousand injured whose names were not reported, as the injured persons were taken straight home and not to any of the hospitals or morgues. Several of the mills have furnished such a large number of death and injury cases that the insurance companies refuse to insure men working there.

Earned Falls Under Engine.

Brantford, Jan. 23.—James Leonard, a farmer, from near Bright, was killed here, Saturday evening. He slipped from the platform at the Market street depot beneath a yard engine and both legs were cut off. He died on the way to the hospital. He was sixty years of age and was in the city all day.

VISCONTI SUISSO ACKL.

Washington, Jan. 23.—Viscount Suisso has been appointed Japanese ambassador to the United States and will be the first Japanese representative in Washington holding the rank of ambassador. He is about sixty years old and considered one of the ablest men of Japan. Viscount Ackl received his education in Germany and married a German girl while holding a diplomatic position in that country. He retired from the diplomatic career six years ago and has since then been one of the privy councillors of the emperor.

Lumber Men Form A Merger.

Minneapolis, Minn., Jan. 23.—The first convention of the Northern Pine Manufacturing association opened here today. The new organization, which has not yet been permanently organized, is the result of a merger of the early part of December, and the two associations, whose interests were so closely allied. The matter was discussed in both organizations and committees were appointed to bring about the merger. The latter was effected at a meeting in Milwaukee in the early part of December, and the present convention is the first joint convention of the consolidated associations. The new association will permanently organize and elect its officers for the ensuing year. It is probable that the headquarters of the new organization will be established in this city. The new organization includes nearly all the prominent white and Norway pine lumbermen and manufacturers of Minnesota, Wisconsin, Michigan and Iowa.

"Baby Vanderbilt's" Birthday.

SEPARATION OF FAMOUS BOHEMIAN TWINS EFFECTED.

Vienna, Jan. 23.—Professor Kukula, of Prague University, is reported to have successfully separated the famous Bohemian twins, Rosa and Josefa Black, recently.

The sisters Black have furnished one of the most remarkable anomalies in the history of surgery, being joined at the hips, and having a separate and distinct existence from the waist upwards, and two pairs of legs.

A minor operation was first submitted to by Rosa, with the result that while her temperature increased by six degrees that of her sister remained stationary.

This led to the conclusion that the twins enjoyed independent constitutions, and it was found on enquiry that a few years ago Rosa had scarlet fever and typhoid without her sister suffering in health.

The sisters are the daughters of a Bohemian farmer, and were born in 1878. Though united physically, they have always displayed distinct individualities. One could sleep while the other read a book or played the violin.

In childhood they were often at variance. If Rosa wanted to go away and Josefa would not agree, Rosa invariably lifted her sister off the ground and carried her, kicking in the desired direction.

"TAG" SWEETHEARTS.

Unpleasant Dilemma of a Hotel Man's Daughter.

Trenton, N.J., Jan. 23.—The crusade against Sunday liquor selling, now in full swing in this city, is greatly worried a prosperous saloon-keeper who has five marriageable daughters. It is because he has these daughters that he is worried, and the cause of his anxiety is explained in a communication sent anonymously to a newspaper by one of the young women.

She writes that she and her sisters have five young men calling on them Sunday evenings, and her father has objected on the plea that the young fellows coming and going Sunday nights through the side door lead the police to suspect that they are bar patrons getting drinks in violation of the Sunday law. The young woman asks if the five sweethearts should not be in danger of arrest on their Sunday evening visits.
