Band at Covered Walk tonight.
Masters and Matos Meeting, 8 p.m. Skating at the Royal Rink, 8 o'clock.
Hockey Match at Rockwood rink, 7 p.m.
Cataract Bridge Company, 2 p.m., Friday.
A banknote often supplies the keynote to the situation.
Farmers' Institute Meetings, at Glenburnie to-morrow.
Lecture on "Historical Kingston," City Hall, 8 p.m.
A small man dodges when he meets a great opportunity.
The sun rises Friday at 7:17 a.m., and sets at 5:11 p.m.
Queen's Excursion to Toronto, by G. T. H., 11:30 a.m., Friday.
The elevator boy manages to reach the top, but he isn't allowed to stay there.
A millinery bill frightens a man almost as much as a mouse frightens a woman.
School Trustees Election, St. Lawrence Ward, to-morrow. Pools open from 9 a.m. to 5 p.m.
Home Missionary Meeting, Friday at 8 o'clock, N.W.C.A. Hall, Rev. Robt. Laird will preside.
This day in history—Quebec House of Parliament burned, 1854. First popular election in Spain, 1891. Napoleon defeated allies, 1814.
It's bad for the health to fill up the car.
You may have heard this old song, "And it's bad for the health to wait in the street."
"Till an uncrowded car comes along."

A SENSATION

Caused By Remark In Japan's Diet.

ASK GREAT BRITAIN TO REFORM ITS ARMY ORGANIZATION.

The British Papers Do Not Say Much as a Wrong Impression Might Have Been Conveyed by Telegraph—Diplomatic Correspondence Probable.
Tokio, Feb. 1.—Before the budget committee of the diet, yesterday, Mr. Oshio, leader of the progressive party, interpellated Gen. Terachi, minister of war, as to whether the government, as the result of the Anglo-Japanese alliance, intended to urge the British government to reform its army organization. The minister replied that the government would do so at some future time.

To Cause A Sensation.

London, Feb. 1.—The cablegram from Tokio, regarding the incident before the budget committee of the diet, is likely to cause a sensation throughout Great Britain. For the moment most of the papers refrain from comments under the idea that a wrong impression might have been conveyed through a close telegraphic summary by a telegraphic cable. The Daily News says it is reluctant to believe that the common rules of international courtesy has been intentionally disregarded. It expresses the belief that the statement of Gen. Terachi will result in diplomatic correspondence.

A CANADIAN MURDERED.

German Soldiers Charged With Crime.
London, Feb. 1.—A despatch to the Central News from Cape Town, published here, says:
"Canadians are charged at an alleged outrage by German soldiers at Swakopmund, German Southwest Africa, who are said to have shot and killed Dr. Anson-Donaldson, of Brockville, Ont. According to the story, Dr. Donaldson was walking peacefully in the streets when a soldier fired at him and while he was lying wounded on the ground other soldiers riddled his body with bullets."

Dr. Donaldson was well known in Kingston. He served in South Africa with Strathearn's Horse, being one of the two medical officers of the regiment under Capt. Surgeon Keenan, formerly of Ottawa, and now of Royal Victoria Hospital, Montreal. Returning with the regiment from South Africa, he completed his medical course at McGill, and then went back to South Africa, as captain surgeon in the British army going through the South African campaign.
From South Africa he apparently went to German West Africa. He was of a quiet disposition, and exceedingly popular among his fellow comrades in Strathearn's Horse.

A Boer War Veteran.

Brockville, Ont., Jan. 31.—Dr. Anson Donaldson, murdered in South Africa, was twenty-eight years of age, and was educated in Brockville and McGill University. He was a member of the Royal Victoria Hospital, and went from there to South Africa with one of the Canadian contingents. He was a surgeon during the Boer war, and then returned home. After a few months' visit here he returned to South Africa, where he has been practising his profession. He was unmarried, and leaves two brothers and one sister. He was of a quiet, unassuming disposition, and a good physician. Brockvillians in general deeply mourn his loss.

TO TENDER ADVICE.

This is Mission of National Assembly.
St. Petersburg, Feb. 1.—It is fully established that Count Witte is forcibly and inflexibly resisting every effort being made to confer any degree of legislative authority upon the national assembly. He insists that the assembly is entitled only to tender advice to the crown and the existing government, which must continue on the Technovnik basis. It is understood that the government has failed to raise money abroad, the reason furnished in Paris and elsewhere being that the loan should at least have the cognizance of the assembly. Drastic limitations of the assembly's powers are regarded as creating the danger that a centre party in the assembly will take a more hostile attitude toward the government than originally. The minister of finance is overlooking the issue of lottery bonds, in view of the necessity of ready money.

Successful Canadian.

Cornwall, Ont., Jan. 31.—Howard James Redmond, recently elected mayor of Jefferson, Ohio, is a son of the late James Redmond, a former resident of Morrisburg. He was born at Dundas, Dundas county, in 1870, and attended the rural school, after which he graduated from the Iroquois high school. He then taught school for three years, after which he went to Jefferson, and took up the study of law, being admitted to the bar in 1897. Mr. Redmond has been seven years a justice of the peace and five years city solicitor. He is a republican in politics.

HE HAD FEARS

Of War Between Russia And Britain.

LORD KITCHENER WHY HE OPPOSED CURZON AND DEMANDED REFORM.

India Will Be Prey For Some Russian Conqueror—Famous General Points Out How Great Britain Will Be Handicapped if Founder of New Dynasty Invades Far East.
Calcutta, India, Feb. 1.—Lord Kitchener, commander-in-chief of the British army in India, fears the next great war of the world will be between Russia and England. It is for this reason he opposed former Viceroy Curzon and insisted upon radical changes in the army in India. He revealed that this was the secret of his movements in an interview a few days ago.
"Lord Kitchener points out that history teaches that a nation in revolution usually ends by throwing up a great soldier as the founder of a new dynasty. If this proves true in Russia, as it has in other nations, India will prove a natural field for conquest. The new Russian leader, who would make good with the people and attract attention from domestic troubles, will be likely to plunge into a foreign war."
If the Russian revolution follows this course the world's peace will assuredly be in much peril. Much water, of course, must run under the bridge before this happens, but Lord Kitchener thinks that the period during which Russia must remain preoccupied with its own domestic troubles will not be longer than ten years. He thinks, too, that the success with which Russia transported great armies to Manchuria—a distance of nearly 6,000 miles—and fed them with supplies, with only a single railway, shows that with the two lines of railway she has running toward the Indian frontier a formidable army might easily be flung on India.
England, on the other hand, to protect her possessions in the far east, must supply to India by water. For this reason, Kitchener contends that it behooves England to be prepared for such a contingency as a Russian invasion of India, which he believes is more of a probability than a possibility.

MISS JESSIE JOHNSON, KOKOMO, IND.

Bears the distinction of being the youngest notary public in the state of Indiana and perhaps in the United States. She is only fourteen years old and is exceedingly bright and mature for her age.

THE TARIFF CHANGES.

Will Not Be of a Drastic Character.

Ottawa, Feb. 1.—The tariff commission reached the city early this morning on their return from the maritime provinces. The work of the commission is now completed, so far as hearing evidence is concerned, with the exception of the sitting at Ottawa next week. The commissioners will devote all their time for the next two or three weeks putting things in shape for a concrete recommendation to council as to tariff changes if any. Those in the know, everything circle there will not be any drastic changes.

Guarding The Public Eyesight.

Spraguefield, Mass., Republic.
The American optician in England faced the doctors and the opticians, who have been increasing their scientific equipment and prescribing a much lower price than the oculists, while general practitioners as a rule, prescribe spectacles as a rule, prescription of glasses. It is a curious thing that there has been no organized crusade by the profession against allowing the public to select its own spectacles from the display cases in the practice ever since glasses came into use in the seventeenth century, though this is obviously more injurious. But now that the opticians have undertaken to prescribe the doctors' plans, the public has been free to choose their own spectacles. The opticians have prepared a counter bill providing for opticians' diplomas to be awarded by a central council of the whole trade.

Montana Sheep Business Big.

Billings, Mont., Feb. 1.—During the season just closed more sheep have been shipped out of this state to Eastern markets, it is stated, than in any previous year in the history of the state. The buyer has handled more than 210,000 head. One shipper in St. Paul has purchased, within the year 1905 the enormous number of 100,000 head. Nearly 200,000 of this number were bought in the northern part of the state, along the line of the Great Northern railroad. Of the remainder 200,000 have been shipped from the Yellowstone Valley and 25,000 are being fed near this city. They will be shipped in a few days. To transport the vast number of animals above mentioned, requires about 2,850 wagons, which would make a single train about twenty-seven miles in length.

Made Maple Sugar.

Forest, Ont., Feb. 1.—The first maple syrup of the season was made on the farm of Duncan McIntyre, 14th concession, Hamburg, on January 29th. The quality was first class. On the same afternoon a party of young people from this town picnicked at Jett Point. They lunched and spent a very pleasant time in the open air.

Perfect fitting glasses, the result of a perfect test. Dr. Chown's drug store.

Blood Poison From Corns.

Is rare to follow if you use a razor or irritating corn salve. For fifty years the one safe remedy has been Putnam's Corn Extractor. It's safe, absolutely painless, and guaranteed.

This is the first day of the February rubber goods sale at Gibson's Red Cross drug store.

WANTS TO HOLD DRINK TEST

To Tackle Beer Users in An Endurance Trial.

Los Angeles, Cal., Jan. 31.—Dr. H. S. Tanner, the famous forty-day fast, has issued a challenge to the brewers of the city. He wants to hold an endurance drinking bout, he is set by the brewers to be likewise. Each side will take no food or drink other than water or beer. He says he can live on water alone for 100 days and doesn't believe anybody can live half that time on an exclusively beer diet.

This is the first day of the February rubber goods sale at Gibson's Red Cross drug store.

WANT ASTOR'S MILLIONS.

Four Hundred and Eighty Heirs to the Fortune.

Pittsburg, Feb. 1.—Amor Emery, of Lewiston, is in Pittsburg and declares it is his intention to get possession of \$18,000,000, half of the present fortune of the Astors. He says he is trying to find the heirs of John Emery, who was a partner of the original John Jacob Astor, and that they were in business together when Astor started the fur trade. It is asserted that John Emery left a will leaving his share of the business to his heirs, but that this will was not discovered for seventy-five years. Amor Emery says this will was opened several years ago. He has found 480 heirs.

HAMILTON SATURDAY REVIEW

Proprietor Charged With Criminal Libel.

Hamilton, Feb. 1.—Mark Lynch Staunton, proprietor of the Hamilton Saturday Review, who is charged by George Summers, a theatrical man, with criminal libel, was committed for trial in the police court, this morning. No evidence was offered for the defence. Staunton's counsel was ready this morning, causing a loss of justice. After court the editor offered to apologize in his paper, if Summers would drop further prosecution, but Summers said he wanted vengeance.

VESSEL TOOK FIRE.

There Was Loss of Life and Serious Injuries.

San Francisco, Cal., Feb. 1.—The United States transport Meade, loaded with soldiers and supplies, ready to sail for the Philippines, caught fire, early this morning, causing a loss of life and serious injury to a number of others. So far, three bodies have been brought ashore and it is believed there are others in the vessel. The dead include Third Officer G. Wallace, and Engineer Captain Charles Bakin. The Meade had, on board, a cargo of three thousand tons of commissary and quartermaster's supplies consigned to the Philippines.

ROW OVER A BATH.

Montreal Gaol Birds Now in Doctor's Care.

Montreal, Feb. 1.—A desperate fight between two prisoners, at the Montreal jail, is reported, in which Max Genser, a bankrupt debtor, whose affairs are now in the hands of the court, was struck on the head with a bottle, and badly injured by a fellow-prisoner, named Max Phillips. The trouble arose over a bath, which Genser wanted, and which Phillips, who was ward captain, refused. Genser is in the hands of the doctors.

Germany On Top.

Berlin, Feb. 1.—The foreign office declares Germany has gained the upper hand at the Algeciras conference on Moroccan affairs. All the powers, except those which are bound by a special agreement to support France, have come over to the German position.

Had To Give Up Cash.

Chicago, Feb. 1.—Two armed robbers entered the Empire Loan Bank, 114 North Clark street, last night, compelled the two clerks to kneel behind the counter, looted the cash register of three hundred dollars, and made their escape. The jewelry stolen is valued at \$700.

Referred To Sultan.

Algeciras, Spain, Feb. 1.—The Moroccan conference, to-day adopted, without modification, the draft of the taxation project. The Moorish delegates refer the proposals to the sultan. The question of reforming the customs duties was not considered.

Boy Asphyxiated.

Cornwall, Feb. 1.—Charlie Thompson, the ten-year-old son of Mr. and Mrs. Robert Thompson, who live near Hansville, east of Cornwall, died the other day from asphyxiation, and the whole family had a very narrow escape.

Will Visit America.

Tokio, Feb. 1.—The statement is made upon reliable authority, that Admiral Togo, commander of the Japanese fleet in the naval battle of the Sea of Japan, will make a visit to America in April with two cruisers.

Buried In A Cave-In.

Ottisville, N.Y., Feb. 1.—Several workmen were buried by a cave-in which occurred, to-day, in the Erie tunnel, now being constructed near here. Three dead have been taken out. Two are injured.
