Wright Never Tried to Break It-Never Said What Mr. Wright Challenges Him About. Kingston, Jan. 31 .- (To the Editor) . W. In the first place Mr. Wright company, of which Mr. Wright is an agent, is a member of it. If Mr. Wright means that he succeeded in cutting rates on the civic insurance and in maintaining those cut rates for a period of fifteen or sixteen months, then Mr. Wright is telling the truth; but that does not break up the combine, nor was it 'Mr. Wright's intention to try and break the combine, but rather, while cutting rates himself, his desire was that the other tariff companies should refuse to cut rates, for if they had done so, a rate war would have been percipitated which would have been disastrous to Mr. Wright in his efforts to hold the civic business.

Mr. Wright puts up a big bluff that if I can produce a document which proves that the English head office of the Union ordered a cancellation of the Kingston risk, he will give \$500 to charities. Now my statement was that if Mr. Wright considered himself injured by anything I said I could produce documents to prove the truth of my statements, Of course, I referred only to matters in which I charged Mr. Wright with mis-statements made
