The members of the committee in charge of the dance, at the City Hall, on Wednesday night next, have been working like Trojans, to make it a success, and it promises to be that in a marked degree. Dances have been very infrequent things, in Kingston, of late years, hostesses with large houses, having apparently got out of the good old-fashioned way of taking up carpets, and clearing out long drawing-rooms for the dances, which used to be the great amusement of all the young people. The charge sometimes brought against the younger set, to-day, that they prefer sitting down "like old fogies," to cards, is really rather unfair. "I often look round a big drawing-room, when I'm playing cards in it, and think what an awful waste of a good thing it is," said a young girl, not long ago, and she voices the feelings of plenty of others. These things being considered, the few dances, like the R. M. C. mixers and affairs, and such functions as the one coming off next week, are oases in the desert for the young dancing set.

Mrs. Joseph Power asked a few young people to make up a table of cards, on Thursday evening.

Mrs. John Donnelly had a houseful of no less than fifty little boys and girls, at her party for her little daughter, Harriet, and Theris, on Friday, and high revel rejoiced for a few hours. Little Miss Olivia Woods got the prize for pinning on the donkey's tail, a most difficult feat, and another small maid, Miss Ruth Martin, came out victorious in the musical chair contest. Those who assisted, Mrs. Donnelly were Miss Trendell and Miss Walsh, Miss Sadie Reid, Miss Edna Booth, and Miss Jessie Begg.

The Science dance at Queen's last night, was a very smart and successful event in the college's social year. The decorations were very pretty, and unique, from the "School of Mining, 1906," which blazed in colored electric lights, over the entrance to Grant Hall, to the flowers which decked the small supper tables set in the reading room, and where delicious refreshments were found. The principal very kindly appeared, and received with Mrs. Gordon, Mrs. Schmidt, and Mrs. Gill, Mr. McKewen introducing the guests to Dr. Gordon, and the patronesses. The orchestra, Merry's, from the opera house, played capital music, and the dancers had a merry evening trip-ping out their programme. There were several out-of-town people present—Miss Laura Smith, of Ottawa, who is Mrs. Daniel Gordon's guest; Miss Dorothy Cross, who is staying with Mrs. Buxton Smith; and Miss Stewart, of Harrowsmith, who is with Mrs. James Craig, Princess street, and Miss Catherine Andrews, Ancaster, who is staying at St. James' rectory. The members of the committee are being heartily congratulated on the success of the party.

Delicate From Birth.
In three words—"delicate from birth"—is expressed a world of anxieties suffered by mothers whose babies have had a bad start in life. For babies who are ailing, peevish, cross and unable to digest their food Baby's Own Tablets are invaluable. They act almost like magic, and change cross, peevish children into smiling, happy babies. Mrs. J. W. Munroe, Sinalata, N.W.T., says: "I have used Baby's Own Tablets for two years and would not like to be without them. They have changed our weak, sickly baby into a fat, healthy little girl. I can warmly recommend the tablets to other mothers." And mothers who have a guarantee that the Tablets contain no poisonous "soothing" stuff, or harmful drug. They are absolutely safe and always good. Sold by medicine dealers or by mail at 25c. a box by writing to the Dr. Williams Medicine Co., Brockville, Ont.

Ice Cutting in Progress—A Holiness Revival.
Gananoque, Feb. 3.—The Holiness revival started in McKenzie's opera house this evening, for a ten days' series of meetings, morning and afternoon. Rev. A. C. Horner is present to assist the local pastor.

The fifth of the Citizens' band series of dances was held this evening in the band hall. There was a good attendance of young people to enjoy a good time.

New Cure For Old Toppers.
Mayor Sheriff, new reform executive of Marion, O., proposes to punish habitual toppers by putting them on a diet of bread and water for forty-eight hours or more whenever they are arrested. He believes that this would be the most effective punishment that could be devised, and will put it into practice at once. In the past all typical "soaks" were kept in durance vile until sober and were then released.

THE WORLD MOVERS.
Where the Officials Found De Witte.

Sergius Yulievitch Witte, the Russian prime minister, is a remarkable product of that country. Born in Lithuania only fifty-six years ago, he is comparatively young to have achieved such eminence. He commenced life as a station master at a small place near Krasna. Promotion rapidly followed. After being appointed director of railroads he became minister of ways of communication.

In 1893, he was elected minister of finance. As all the world knows, he was the chief Russian plenipotentiary at the peace conference in Washington this year.

Sergius Witte is more of a thinker and organizer than a man of action. He possesses extraordinary determination and power of application, that amount to genius. His will is indomitable, and his power of initiative almost unequalled.

He is indubitably one of the forces who are moving the world. He was strongly opposed to the war. With the recent strike and terrible scenes of bloodshed he has shown his power and tact, influencing the czar and begging him to adopt reforms.

A good story is told of his power as an organizer and his masterful way of acquiring details of his business. Some high government officials sought him at his office when he was director of the railways. He was not in his office, and a search high and low was made for him. He was ultimately discovered miles down the line sitting on the foot-plate of an engine eating black bread and cheese in company with an engine driver.

"We expected to find you at your proper place, the office," said one of the officials.

"Oh, did you?" calmly returned Witte. "I prefer to master details of my business as director of railroads by getting at things first hand, not by opening letters of complaint in a room."
