COWARDLY ASSAULT.

Lansdowne, Feb. 9.—Some time last

'fall a crowd of young fellows from

n, Upon a Lansdowne Man Gananoque.

Gananoque came to the Stewart house here. In paying their account they tendered a \$5 bill. When change was returned they claimed that the bill was a \$10 one. Subsequently, they returned and tried the same trick, when Charles Goodall, son of the proprietor, ordered them out. Last Wednesday night Goodall and Elmer Burns were attacked by the crowd of five in Gananoque, Two, held Burns, and the other three as saulted Goodall, but for the arrival of a friend from here, he would probably have been killed, as he was very seriously injured internally, as well as being disfigured for life. He is still in bed at . Gananoque. Goodall, who is about twenty-six years old, is very slightly built, weighing only about one hundred pounds. He had on a fur coat, so had absolutely no chance to defend himself. He gave them no provocation, so that it was as cowardly and brutal an assault, as could be imagined. His assailants were arrested next day. Their trial has been postponed. It will take the fall penalty of the law to satisfy the indignation aroused in this section.

Better than any other, Lily White potatoes, Crawford's. Mr. Miller is Lennox and Addington council's delegate to attend the sessions of the High Schools' Trustees'

Association at Toronto. Not Just As Good. When you go to your druggist to buy "Ozone" ask and demand "Solution of Ozone (the coupon kind.) This will give you a twenty-five cent package of "Celery King." give you the best preparation "Ozone" in the world and it gives you about twice as much for you money as other brands, sixteen ounces for fifty cents, over twice that much for a dollar and a package of well-known remedy "Celery King" free We put "Celery King" coupon in our "Ozone," because the people know "Celery King," because it gives better results with "Celery King" and because no other firm can give "Celery King" with Ozone." It cures, that's the reason we give you a pack age free and that's the reason should never buy any other kind. Ask for "Solution of Ozone (the dollar at your drug store and don't take any other kind, because if you

do you won't get a package of

"Celery King."

GOOD FLOW OF OIL.

In Western Oil and Coal Co's.

Dear Sir-In response to your re-

quest that I make a further report,

detailing the progress of our work

1905, I beg to say:

since my last report of April 12th,

In June last we overcame the diffi-

culty of the tools, which your former

driller got stuck in the No. 3 well

on September 12th, 1904, and shortly

after began drilling with some degree

of success, although it was impossible

to push the work as rapidly as I could

otherwise have done, because of the

condition left by Mr. Berrsford. The

well is now down to 1,5841 feet in depth. At 1,205 feet we struck a con-

out, at the time, about ten bar-

and of light specific gravity. This oil

convinced that we were not down to

the main pool, but that the oil was

tance below us and forced up by ex-

a good deal of oil and gas in the well

at intervals since. Frequently the gas

the hole. On each occasion, when we

have had a flow of gas, it has been

This has been steadily increasing on

each occasion. At present we are in a

soap-stone formation exactly similar

to the soapstones encountered in the

oil fields of Ohio, Ontario and

Pennsylvania. This I regard as by far

the most favorable indication that we

have yet encountered, and strengthens

distance to which we will be obliged

is impossible to make any very accur-

any field in which I have worked be-

fore. These, while favorable to a very

productive and lasting field, make it

difficult for any one to base an opin-

ion. Of one thing I can speak con-

fidently-that in my opinion this will

prove one of the greatest oil fields

that I have ever operated in, and the

grade of oil is not surpassed anv-

where and only equalled in one or two

places. Our work is progressiog rapid-

ly, considering depth and conditions,

We have been averaging about ten

At the time of writing we have

struck a very soft streak of soap-

stone, followed by a very soft streak

necessary to case it off. There is also

with a good deal of oil coming up

agree with me that we are over or

near an enormous pool of oil I would

strongly advise the immediate con-

oil. We should be in a position to

The caving of the well at so great a

depth may delay our drilling for a

store at least 50,000 barrels of oil

these delays are to you and the direc-

tors, but in drilling for oil as in most

other things, it is cheaper to avoid

them after they have been made.

with the final results.

mistakes, if you can, than to correct

possible under the circumstances. I am

sure you will be more than satisfied

At No. 4 camp, well No. 4 is ready

to begin drilling. We are only waiting

months ago. We have the machinery

now for the large tools ordered two

bunk houses, and other cabins, all

ready for occupations, and 150 cords

of wood piled at the derrick. Yours

faithfully, R. M. YEAGER, manager,

neighborhood is still known. It would

be folly to blame them for their ina-

bility to see into the future. At that

and scarcely anything of its possibili-

ties. It is curious to note, however,

that the Americans from Ohio, who

visited the Sudbury district about the

same time, appeared to have been

more favorably impressed by what

they saw than the Canadians were.

Perhaps they had some vision of the

future; perhaps they were willing to

take a chance. Whatever the explana-

tion may be, the fact is that a group

of men, Judge Stevenson Burk, Sena-

tor H. B. Payne, H. P. McIntosh,

Thomas Cornell and others-after a

thorough exploration of the country,

decided that there was something

there worth while. They purchased a

lock of land in the vicinity of Sud-

bury, and organized the Canadian

great nickel supply, while the Canadians slept. The Canadians may have been sleeping, but that surely was no! of the men from Ohio. The real fact appears to be that while chance has favored the Americans in a remarkable way, they showed an appreciation of the situation, a faith in the future, and a degree of courage in ! years, or until the discovery of nickel risking their money in what was then a very questionable venture that the Canadians appeared to lack. For it must be remembered that when the Canadian Copper company was formed in 1884, nickel was not what it is today. The discoveries which gave nickel its importance had not yet been made. As a matter of fact, the Canadian Copper company, as the name indicates, was formed to mine copper, not nickel. The story of how the slag of the copper ore, which at first was cast aside as worthless, became the est deposits of nickel ore in the whole trate for the Sudbury district. He was product of most value, and how from industry grew up, will be told later in this series.

BRILLIANT SILKS AND SATINS Garb the Orientals Now Visiting

New York. New York, Feb. 10.-When the Chinese imperial commission came to town it was as if a particularly bright rainbow had been caught from some favoring sky and had been flung athwart the street. The Chinese faces were not any more captivating than the Russian vocabulary, but their gorgeous raiment, not merely aroused the innermost yelling powers of the hoodlums on the sidewalks, but enraptured all beholders. Where a comwould have gone along in solemn sombreness, clothed in monotonous black, these fifty Orientals, come down to us from the most ancient of ancestors on the globe, and worshippers of that ancestry to the very root of the whole tree, came in brilliant silks and satins, which they wore with dignity. They were plainly delighted with New York, and have been feast ed and feted, but it is reported that they are carrying their investigations into the realm of food as well as in other departments; and instead of ordering birds' nests, served in different styles, they partake of the food o the vicinage, even to corn beef and beans. They have made it evident that they like Americans and American ways. With many visitations like the present one. Americans may come to like Chinese.

CHRISTIAN UNITY.

Conference Ministers.

Twenty-two Anglican clergy of On-Bay of Quinte Methodist conference, under the chairmanship of the Dean of Ontario, in the council chamber, Belleville, on Wednesday, and in a brotherly way discussed Christian unity. The dean made an opening address, pointing out the change that has taken place, regarding organic union, quoting Henry Ware Beecher's pessimistic, and his successor cerning it. Union can be reached only by faith, patience, charity and prayer, Rev. M. E. Wilson, Methodist, prime paper on the "History of the Disunity of the Church," His conclusions evinc ed a decided leaning towards episcopa government. Archdeacon Carey read a paper of Archdeacon Macmorine's, Rev. Mr. McCamus read one on "Organic Union a Necessary Outcome of Christian Unity." In the evening, Rev. E Costigan and Dr. Metzler gave strong papers from the Anglican and Methodist viewpoint. Throughout the conference was carried on in the best of temper and good fellowship.
