R. CRAWFORD,

POST OFFICE QUEEN ST.

Leading Canadian Physicians Endorse The Canadian Discovery

Fruit-a-tives

or Fruit Liver Tablets.

DR. ALEXANDER FALKNER, Williamsport, Ont., a physician who has enjoyed a large practice for the past thirty years:—"I have much pleasure in certifying to the value of 'Fruit-a-tives' or 'Fruit Liver Tablets' as a medicine for chronic constipation and biliousness, dyspepsia, etc., etc. I have prescribed this medicine for the past six months and can strongly recommend it in all cases of constipation, indigestion and flatulence, headaches due to weakened digestion, etc.

DR. A. FRANKFORD ROGERS, Ottawa, a physician who has enjoyed one of the largest practices in that city, states:—"I have no hesitation in recommending 'Fruit-a-tives' or 'Fruit Liver Tablets' as the fact of these tablets being made from a laxative material extracted from ripe fruit appeals, and has appealed to my judgment, and I have used these tablets extensively in my practice and always with most gratifying results. The proprietors of this medicine do not hesitate to furnish the formula of the tablets to physicians, and hence any physician can use these tablets and recommend them without loss of self-respect. The formula of 'Fruit-a-tives' is certainly a magnificent one, and in my experience no medicine ever used by me has given such excellent results in constipation and stomach and liver troubles as 'Fruit-a-tives' has. That these tablets act beneficially on the kidneys and skin is beyond doubt and in many cases where the skin was sluggish and inactive and the complexion had 'Fruit-a-tives' have given the most pleasing results."

DR. D. J. COSTELLO, member of the internal staff of the General Hospital, Ottawa, and who has extensive experience, states:—"I have used 'Fruit-a-tives' or 'Fruit Liver Tablets' with most beneficial results in obstinate constipation and biliousness, and found their action mild and non-irritating, and yet more curative than any medicine ever used previously. I strongly recommend 'Fruit-a-tives' to the suffering from these complaints."

At all druggists or sent postpaid on receipt of price. 50c. a box or 5 boxes for \$2.50.

FRUIT-A-TIVES LIMITED, OTTAWA.

CARTER'S LITTLE LIVER PILLS.

Quickly cures all the troubles incident to a bilious state of the system, such as indigestion, nervousness, dizziness, headache, pain in the side, &c. While their most satisfactory success has been shown in curing

headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing the most distressing constipation, while they cure all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure

ache they would be most precious to those who suffer from this complaint, but fortunately their goodness does not stop there, for who knows they will find these little pills valuable in many ways that they will not be able to do without them. But after all this has

THE WHIG—73rd YEAR

DAILY BRITISH WHIG, published each evening at 506-510 King Street, Kingston, Ontario, at 50 per year Edition at 2.00 and a 6-monthly Weekly BRITISH WHIG, 12 pages and over, published in parts on Monday and Thursday mornings at \$2 a year. Attached is one of the best Job Printing offices in Canada; rapid, stylish and cheap work; nice improved presses. The British Whig Publishing Co., Limited EDW. J. B. FENSE, Managing Director.

THE DAILY WHIG. "Opiter per Orbem Dicor."

Point Of The Issue.

Ontario liberal papers are making much ado because Dr. Beattie Nesbitt, M.L.A., has been appointed Registrar of one of the Toronto divisions. Is it a new liberal doctrine that jobs and pensions and things of that sort must only be given to liberal statesmen?—Montreal Gazette.

No, the peculiarity of the case lies in the fact that the conservatives preached against the appointment of parliamentaries and now practice the reverse of it.

Moreover, Dr. Nesbitt flamed about Toronto as a sort of new evangel, the aim of his life being to get "jobs for the boys." And he was the first to disappear from the public arena, having, on account of ill-health, suddenly diagnosed, fallen into a \$5,000 a year office. The vacancy in it was only known outside of the retiring official, to the government and himself.

The movement is growing.

The normal school scheme has been fairly launched, and it seems pretty certain that the institution will be added to those already here and representing our educational system.

The government, to begin with, gave an assurance sometime ago that one of the normals would be located here. The announcement was made during the bye-election, and it was only held in abeyance because, it is said, the much use of it would have been regarded as a bribe. The fact that the government promised the school, however, whatever the result of the election, is now inviting, when the city and county and surrounding district are pressing for it.

The movement has broadened out. It is no longer a school board issue. Queen's College has become interested in it, on account of its allied interests; the city council lends its aid; Bronteneau has been invited to participate because of its educational advantages, and Lennox and Leeds and Grenville, will find in it an occasion for hearty co-operation.

The purpose will be to show that though the normal school in Kingston would be of local importance, as an educational centre the city has the cordial support of the surrounding counties, their towns and villages. The school may come any way as part of the plan of the government, and it may come the quicker as a result of the impulse which can be given by the educational authorities in its behalf.

What Is Yellow Journalism?

The question is pertinent, now that an ex-judge of the supreme court has designated three of the best evening papers in Ontario as "miserable yellow journals." The term is not applicable when applied to the Toronto Telegram, the Toronto Star, and the Toronto News.

Yellow journalism has been the reference that befits some publications, not in Canada however, and not reflecting in any sense public opinion. Occasionally one sees a paper, with glaring headlines, which are offensive and meant to pander to morbid tastes. The whole appearance is suggestive of low aims and impulses and with desires to shock rather than edify the readers.

The Toronto papers—nor one of them—have had no ambition to serve but the public interest, and one can pick them up and read them anywhere without any reserve or compunction of conscience. They are scored by an eminent K.C., and why? Because they have ceased to be journals of public opinion? No. Then why are they abused? Because they give all the facts with regard to the street railway and, in an action for damages, taken by a citizen, have so edified the people that there is no sympathy with the company in its delusions.

If the street railway company seeks to become popular it will have to change its tactics. It will have to give the most liberal interpretation to its agreement with the city, and serve the people so far as it can. Hitherto it has been in constant collision with the council and its law departments. Every concession has been forced from it. The whole experience of the city has been a resort to the law and the machinery it provides for the enforcement of an agreement.

Naturally the press is with the people. That is where it ought to be, and the fact that the papers are so unambitious in their action, that they are all against the company, is evidence enough that they are in the right. What if they are called bad names? They can stand it. They may be even libelled without loss of prestige.

There is evidence of turbulence among the Kafirs of Natal. Friendly natives are warning the whites that trouble is coming.

Editorial Notes.

The man who injected or projected politics into the normal school movement heard of it several times last evening.

Mr. Whitney has promised a pathological building and a normal school to Kingston. He should not need much urging to keep his word.

The sugar refiners want to discuss profits with the tariff commission. Mr. Anderson, wholesaler, of Montreal, wants to take a hand in it, publicly.

The demonstrations of the unemployed in London are a failure. They were promoted by the politicians, who collected money for the purpose. Anything to embarrass the government.

Mr. Balfour is again the unionist leader—because Mr. Chamberlain will not accept the call. Suddenly Mr. Balfour's ideas have become acceptable to the party.

Helen Keller is ill from overwork! Blind, totally, yet so busy that she injures her health. Here is something to make people with their sight stop and meditate.

Sir Wilfrid Laurier, according to the Montreal Gazette, is not a clever boss. He does not claim to be a boss at all. He is a leader of men, simply, and a very clever one.

The Albany legislature has under consideration the investigation of banking, insurance and other departments, which threatens to keep the house in session all summer.

The historians were very much in evidence at the normal school meeting last evening. They recalled a lot of things that were said and done thirty odd years ago. How will they affect the present?

An American paper, referring to the threatened miners' strike, announces that to be "forewarned is forearmed." In what way? What good will it do any man with an empty coal bin to know that he was warned of what might happen?

SPIRIT OF THE PRESS.

A Dream Likely.

With education excluded from politics through the appointment of a non-political superintendent a great step forward will be accomplished.

The Secret Is Out.

Sam Jones says Toronto parsons are altogether too serious. Perhaps if Sam could see the collection plate sometimes after it comes back from his rounds he might understand it.

A Matter Of Habit.

The Ontario government can't get over the habit they got, under liberal management, of running to surplus. Even the pessimistic Mr. Matheson is embarrassed with a surplus.

Going Too Far.

The Toronto Sunday observance people met on Monday and decided to demand that all electric, radial and street railways be prohibited running on Sundays. Was that a wise resolution? Can't these people see that such demands alienate the sympathy of moderate men who want to aid in preserving the same rest day?

Where Is He At.

Mr. Whitney ought to appoint a commission, first thing he does this session, to ascertain whether the spoils system is in force or not. The poor man must be gloriously befuddled, before reading the liberal papers and listening to the roar of the patronage committee.

Montreal's Tammany.

The Montreal Tammany or liquor shop organization for controlling elections has already shown itself a power in the city. In civic politics the liquor interest is like Nebuchadnezzar; whom it will it likes, and whom it will it keeps alive.

Great Bargains All Month.

Look at Prevost's window 55 Brock street, for a fine display of new imported tweed suits. Suits made to order for \$15, guaranteed a first-class fit. They are really worth \$20 a suit. Now is your time to leave your order, and save money.

Cowboys Catch Locomotive.

A Caspar Wyo., correspondent of the Technical World, says that when the engineer of a locomotive in the yards in that town left his engine recently he failed to shut off steam completely, and discovered it moving too late to catch up.

The engine was on the main line and ran away. Ten miles east two cowboys gave chase. One rode close to the engine and made a flying leap from the horse into the cab.

At first he pulled the throttle the wrong way, and increased the speed, but finally succeeded in stopping it. As he knew nothing of how to fill the water tanks the engine "died" and had to be towed back.

Big Order For Cartridges.

Philadelphia, Feb. 14.—An order for four million cartridges has been received from the ordnance department, at the Frankford arsenal, here. It is understood they are intended for the troops in the Philippines. It is intimated that the increased order for ammunition is in anticipation of possible trouble in China.

Dr. David Fawcay, one of the oldest and best-known physicians of Watertown, N.Y., dropped dead, Tuesday afternoon, while making a call on a patient.

NEWS OF THE WORLD

OCURRENCES RECOUNTED IN BRIEF FORM.

Matters That Interest Everybody—Notes From All Over—Little Of Everything Easily Read And Remembered.

A refinery to treat silver ores will be established at Hamilton. A. H. Macdonnell, town engineer of Port Arthur, dropped dead.

The Allan line steamer Pomeranian, from London, arrived at Halifax on February 13th.

The Allan line R.M.S. Parisian, from St. John, N.B., arrived at Liverpool at 11 a.m. today.

John A. McCall, former president of the New York Life Insurance company, is reported to be dying.

A legacy of \$500 was left by the late R. B. Miles, Tillsonburg, to the Institute for the Blind at Brantford.

Peace has come to the warring copper mining interests of Butte. Heinze having sold out his interests.

Ex-Mayor Laporte, in his farewell address, predicted that in ten years Montreal's population will total half a million.

Hon. Dr. Reame announces that there will be a thorough overhauling of the fishery regulations during the coming session.

The Russian government shortly will make a state purchase of all private lands for sale and will allot these lands to peasants.

The suit of Countess Boni de Castellane, will be unopposed, and probably pass through medium of a separation to divorce in three years.

Montreal's eruption is assumed. A railway track has been damaged at six points and the principal station is threatened with destruction.

The A. E. Kemp Manufacturing company, Toronto, have purchased an extensive site on St. Antoine street, in the heart of Montreal, and will build there a large warehouse for their tin and enamel goods.

Paul Celis, a watchman, of Montreal, shot Mortimer Gleason, one of a trio he had caught in a clothing store at night. The other two got away. Gleason was captured and will recover.

The Chicago chief of police has issued a general order to all police officers to see that no boy or girl under eighteen years of age is allowed hereafter in a public dance hall unattended by his or her parents.

The Canadian Foresters' Association has received an invitation from the British Columbia lumbermen to hold its summer meeting in the Pacific coast. Halifax is also anxious that the meeting should be held in that city.

The friends of Thomas A. Hastings, the former Toronto license inspector, will be pleased to learn of his appointment to the vacant office of superintendent of dominion government public buildings throughout Ontario.

George W. Beavers, former chief of the post office department, Washington, pleaded guilty to an indictment charging him with conspiracy to defraud the government. He was immediately sentenced to two years in the penitentiary at Buzzards Bay, Va.

The position of the president of the coal carrying trade is said to be such that "the miners will have to strike or back down. There is a growing belief that if the operators will be liberal in making concessions to the miners the demand for the large real estate interests of the union may not be pressed.

Windsor, Ont., conservatives are displeased because it is said that the liberals intend to have Judge Falconbridge, Toronto, speak during the meeting of Ontario Fish and Game Protection Association meeting to be held here this week. The conservatives say that if the judge speaks they will bring Mr. Gamey here to address a rival meeting.

Be Ready For Colds.

A hard cold so lowers the vitality that it takes the system a month to throw it off. These are danger periods when ailments more serious than colds get their start. Don't have colds. They can absolutely be prevented by promptly using Wade's Cold Cure Tablets (Laxative). The cure also for La Grippe, Headache and Constipation. In boxes, 25c. Sold only at Wade's Drug Store. Money back if not satisfactory.

A Cat Story.

A story comes from England which tells of a cat that was accidentally shut up in the hold of a ship for two weeks with nothing to eat or drink. When released it was discovered that the animal had become so mad with hunger that it had started to eat part of its own body. The eastern manufacturers of Canada are not cats, but they display remarkable similarity to the desperate little animal mentioned in the English story. The Canadian manufacturers have shut Canada up in a high tariff hold, and then, driven mad, not by hunger, but by the greed for gain, have settled down to feed fat upon the agricultural west.

You Need The Other.

Ozone is a germ-killer and a valuable remedy, but to get the best results from it you must have a tonic laxative to take with it. "Solution of Ozone (the coupon kind)" is the purest and best form in which Ozone is sold. Every bottle of this remedy contains a coupon which entitles you to a bottle of "Celery King," the well-known remedy, free.

In buying this solution you get about twice as much Ozone for your money as you would get by buying other brands, in addition to getting a package of "Celery King" for nothing. You thus save money in two ways, besides getting Ozone in its purest and most concentrated form.

Ask your druggist for "Solution of Ozone (the coupon kind)" and if he does not keep it you can get it from the Public Drug Co., Bridgeburg, Ont., by writing for it.

WHO SHE WAS

SKETCH OF THE LIFE OF LYDIA E. PINKHAM

And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused It to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose maiden name was Estes, was born in Lynn, Mass., February 9th, 1819, coming from a good old Quaker family. For some years she taught school, and became known as a woman of an alert

little credit. Her first laboratory was the kitchen, where roots and herbs were steeped in the stove, gradually filling a gross of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphlets setting forth the merits of the medicine, now called Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkham sons in Boston, New York, and Brooklyn.

The wonderful curative properties of the medicine were, to a great extent, commended it to others, and the demand gradually increased.

In 1877, by combined efforts the family had saved enough money to commence newspaper advertising—and from that time the growth and success of the enterprise were assured, until to-day Lydia E. Pinkham and her Vegetable Compound have become household words everywhere, and many tons of roots and herbs are used annually in its manufacture.

Lydia E. Pinkham herself did not live to see the great success of this work. She passed to her reward many years ago, but she had provided means for continuing her work as effectively as she could have done it herself.

During her long and eventful experience she was ever methodical in her work and she was always careful to preserve a record of every case that came to her attention. The case of every sick woman who applied to her for advice—and there were thousands—received careful study and the details, including symptoms, treatment and results were recorded for future reference, and to-day these records, together with hundreds of thousands made since, are available to sick women the world over, and represent a vast collaboration of information regarding the treatment of women's ills, which for authenticity and accuracy are hardly to be equaled in any library in the world.

With Lydia E. Pinkham worked her daughter-in-law, the present Mrs. Pinkham. She was carefully instructed in all her hard-won knowledge, and for years she assisted her in her vast correspondence.

To her hands naturally fell the direction of the work when its originator passed away. For nearly twenty-five years she has continued it, and nothing in the work shows when the first Lydia E. Pinkham dropped her pen, and the present Mrs. Pinkham, now the mother of a large family, took it up. With woman assistants, some as capable as herself, the present Mrs. Pinkham continues this great work, and probably from the office of no other person have so many women been advised how to regain health. Sick women, this advice is "Yours for Health" freely given if you only write to ask for it.

Such is the history of Lydia E. Pinkham's Vegetable Compound; made from simple roots and herbs; the one great medicine for women's ailments, and the fitting monument to the noble woman whose name it bears.

The three sons and the daughter, with

investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature.

In 1843 she married Isaac Pinkham, a builder and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it was common for mothers to make their own home medicines from roots and herbs, nature's own remedies—calling in a physician only in specially urgent cases. By tradition and experience many of them gained a wonderful knowledge of the curative properties of the various roots and herbs.

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over disease. She maintained that just as nature so bountifully provides in the harvest-fields and orchards vegetable foods of all kinds—so, if we but take the pains to find them, in the roots and herbs of the field there are remedies expressly designed to cure the various ills and weaknesses of the body, and it was her pleasure to search these out, and prepare simple and effective medicines for her own family and friends.

Chief of these was a rare combination of the choicest medicinal roots and herbs found best adapted for the cure of the ills and weaknesses peculiar to
