COMMERCIAL MATTERS

That Is Going On In the Business World-The Markets. It is interesting to record the fact that the sales of stroks, on the Montreal exchange for the first six weeks of 1906 are just about half of the sales in the whole fifty-two weeks of 1904. Canadian railways have already placed orders for 200,000 tons of rails, for de-

orders for 200,000 tons of rails, for delivery in 1903. These rails will be made at the two big Canadian mills at Sydney. C.B., and Sault Ste. Marie.

Rolling stock to the amount of \$584.000 will be added to the squipment of the Intercolonial railway, and the first part of this expenditure will be made for sixteen high class passenger engines. It is announced that the Toronto Railway company is negotiating for model schools.

Ment of Normal Schools.

Toronto, Feb. 16.—One of the most serious defects in the efficacy of the present public school work which the provincial government clocated during its recent analytic examination of the whole system was found in the Railway company is negotiating for from 5,000 to 6,000 tons of steel rails for the city routes. Then there will prob-The latest American firm to announce

POLICE COURT,

sault Case Diamissed.

"The finishing touches to the police round-up of Tuesday night were handed out by Magistrate Farrell at police court this morning, when Agnes Kelley, who had been remanded from Wednesday morning, was given a light sentence for frequenting a disorderly house, "I commit you for your share in the Tuesday night affair to two months in the common jail." A case of assault was dismissed, owing to the non-appearance of the complainant.

The college fracas, adjourned from last week, to come up Saturday, will not likely have a further airing before the magistrate.

Unable To Supply Stone. The board of works has before another season to run has notified the city council that he will be unable supply stone at the old price of \$3.50 a toise, and asks \$4. Last year, Mr Smith was unable to supply the city with enough stone, and the city gineer recently recommended to board of works that new tenders new tenders.

Proper Use Of Curling Irons. The use of curling irons that are too hot is a great source of injury to the hair. They should be used only warm and held in the hair until the moisture is entirely dried out, then the process produces a lasting curl. A properly heated iron will also promote rapid growth as the warmth acts upon the hair as the sun does upon
