DEBATE ON THE ADDRESS CLOSED ON TUESDAY.

New Era in Education—Attack and Counter Attack on Spoils System—Hon. Geo. W. Ross Speaks for the Opposition.

Toronto, Feb. 21.—The debate on the address in reply to the speech from the throne was closed in the legislature, at six o'clock, yesterday evening. Hon. George W. Ross was the only speaker for the opposition and Premier Whitney replied for the government. Mr. Ross made an eloquent and effective speech, illuminated by flashes of humor and apt comparison. His remarks on the legislative and educational system, his defence of the course of the present administration, particularly in respect to dismissals from office, were the notable features of a speech lasting about one hour and a half. For the greater part of the time Mr. Ross, who was somewhat fatigued, though mentally as brightly alert as ever, sat in his chair. Premier Whitney, who followed Mr. Ross, spoke for nearly the same length of time as the leader of the opposition. He vigorously defended the government's policy and actions. At times he was somewhat harsh in his personal references to the opposition leader. The point chiefly dwelt upon by Mr. Whitney was the necessity for a forward movement.

The business of the afternoon opened with the introduction of E. J. B. Pense, the victor in the recent by-election at Kingston, whose sponsors were Hon. George W. Ross and T. H. Preston (Brant). The members of the opposition loudly applauded as the speaker, who was accompanied by a number of representative citizens in formal attire, Speaker St. John exchanged a hearty handshake with Mr. Pense, who afterwards took the seat he occupied last session next to Mr. Preston.

Joseph Phillips, president of the York County Loan, was again before the police magistrate, this morning, on a charge of conspiracy. The crown, however, was not prepared to go on and a further adjournment was granted for a week. Compulsory examination of the eyesight and hearing of public school pupils, by teachers, was asked for by a deputation of the Ontario Education Association, which waited on Hon. Dr. Pym. The deputation also desired medical inspection of schools where contagious diseases had occurred and attention to some other matters.

BUT ONE GAME

Will Likely Be Between Queen's and Ottawa.

A despatch from Ottawa to the Whig says: Chances are there will be but one Queen's-Ottawa Stanley cup game. There is to be a meeting of the Ottawa Hockey club, this afternoon, but it is stated, on excellent authority, that Ottawa's are opposed to playing two consecutive games, and that only one, some time next week, will be held.

The members of the club conferred with the cup trustees, and they gave them the option of a sudden death game, or two consecutive ones. They are likely to choose the former, and Wednesday is mentioned as the likely day. There will probably be a definite announcement to-night.

Queen's University, notified P. W. Ross, trustee of the Stanley cup, that Tuesday and Thursday of next week were hardly satisfactory dates for their team to play the Ottawas and suggested Wednesday and Thursday instead of one sudden death game. This did not meet with the approval of the officials of the Ottawa Hockey Club and a meeting was called at noon, to-day to consider the matter. It was finally decided to appoint a committee to call upon Mr. Ross for the purpose of discussing the dates.

Messrs. Murphy and Dickson composed the committee and held a conference with Mr. Ross at one o'clock. The outcome was the Stanley cup trustees gave the Ottawa Hockey Club the option of two consecutive days, or one sudden death game, or one game would be played with Queen's, as the club management did not take to the idea of playing two games on two consecutive nights. In case but one game is played it will be Wednesday night next.

Hopkins, Gunner Williams, Corp. Macdonald, Corp. Lamontagne, and Gunner O'Donohue.

With the completion of the business affairs, a smoker and concert followed, until eleven o'clock. Chayer and Robert Harvey contributed to the programme. The affair was certainly unique and enjoyable success.

Death Of Charles Oliver.

Deceased was a quiet, faithful citizen. He was a member of St. Paul's church. He was born in Kingston seventy-one years ago. About forty years ago on the death of his father, he succeeded him as customs broker.

Besides his widow, two brothers survive, George T. Oliver of this city, and Frederick Oliver, Victoria, B.C.

The New York Sun says of him: "He is six feet tall and powerfully built and is a left-hander with great speed."

JUDGE'S SENTENCE

ON MAN WHO ASSAULTED SAAD, THE ASSYRIAN.

Newport Gets Ten Years in Penitentiary, and Fifty Lashes—Saad, Though Still Weak, is Daily Improving.

Thomas Newport was sentenced by Judge Madden, in Napanee, on Tuesday, to ten years in the penitentiary, and to receive fifty lashes, twenty-five to be administered within the next two months, and the remainder before leaving the penitentiary. Newport was found guilty of the charge of assault with intent to rob, Saad, an Assyrian, on the night of December 20th, the murderous attack being made within a few miles of Enterprise, and an axe weapon used. Saad identified the prisoner out of a crowd of men, and Dr. McCarthy, of this city, who had been in attendance on Saad, swore that his mental faculties had been quite regained. In sentencing the prisoner, Judge Madden gave him a severe lecture, with a warning to have a care over his future conduct.

Interest was keenly manifested in the trial, and when the court opened, at ten in the morning, the room was packed to its fullest capacity. Spectators driving in from the surrounding country. It was 8 p.m., when Newport was taken from the court. The all but fatal wound on Saad's head is not yet healed, but though the Assyrian is yet in a very weak state, his condition is daily improving.
