Generation after Generation have pronounced Shiloh to be the salest, surest, quickest and best family cure for Colds and Coughs. Nothing has ever been found to take its place in the home. Try Shiloh and be cured, or say you were not and get your money back. Isn't this fair? Mrs. E. James, of Hibbing, Minn., says:—
"There is no cure like Shiloh for Count. "There is no cure like Shiloh for Coughs, Colds, Coup., Sore Throat, Houseness, Bronchitis or Whooping Cough. My oldest son was almost choked. The doctors could not relieve him. He used two bottles of Shiloh and was completely cured. It has no equal."

FOREVER ATTACHED

Relation of Dominion Mother Country. In his address to the Toronto University students, Premier Laurier made the following statement: "Every party in England regards the prosperity of the dominion with hopefulness. At the present moment the dominion is reality independent. It has its destiny in its own hands. Its statesmen are recognized as the proper parties to judge of its interests, and to decide the course to pursue in order best to consult its interests. England looks to them for guidance in dealing with the dominion, and whatever this decision may be whether it be to continue the present connection, or in due time of the maturity of the growth of the

dominion to change it for some other form of alliance-England will be prepared in good faith to accede to their wishes, and, in case of change, to give effect to it, and to consider any plan that may be proposed in a friendly and generous spirit. England has no interests of her own to consult in this matter-interests of the people of England-and they coincide with their wishes in this, and this alone. So long as the dominion maintains its dependency they will do nothing to take at away, but if the dominion wishes to change its position, every step of that change will be conducted so that the dominion may be convinced of othe friendship of England, and that she may remain forever and finally an attached friend of the mother country But the choice of these measures rests entirely with the people and statesmen of Canada. Whatever way they may incline, I am confident the people of
