Wants Of The Hour.

Resuming the discussion of the light eat and power committee's report for the information of the people, the Whig reverts to a point in its previous article, namely, that on account 'maintenance' the sum of \$10,000 will have to be expended this year from current revenue. That is unless complete overhauling, which the pert advisor recommends, is under taken without further delay.

There is, the Whig understands, certain obsolete machinery the continued operation of which is a detriment, that it is costly and inefficient. The uggestion is that this out-of-date or antique machinery be cast aside sold for what it will bring, which be taken by modern machinery.

The result, it is stated, will be saving of \$6,000 or \$7,000 a year, Here is the question of all questions The estimated saving, capitalized, would represent a very large sum. It is essential that this sum should accurately figured so that the council may see how far it would go towards the purchase of the new and modern
