#### A Call To Business.

Some thoughts follow the discuss mittee's report, and to the probable edification of the people

The first is the admission that of lodge, he was a tower of strength, the \$34,000 spent in improvements bringing to every duty or function during the seventeen months, during ripeness of judgment which had which the gas and electric plants were under municipal management, to the ed like the water extensions th

appeal to the dieutenant-governor

would be justified, not otherwise. It will be remembered that when the water works became a city asset, it was not worth very much though large figure had to be paid in order to recover the franchise and control he perfected extensions were made, but they were clearly outlined in reports of which the council approved. The work was conducted under the tract system, but free of the defects which attended some of the gas extensions of last year. The contract system is all right when the contractors are responsible men and follow speci fications to the very letter.

The light, heat and power busines was originally, as a public venture like the water business, but it has not been developed, so far, in the the piece-meal plan, and it is not tisfactory for the reason that it not comprehended by the council. The expenditure goes on space, as some thing has to be done to keep the their services are now remembered. plants running, but there is surprise at the end of the year when it is seen that so large a sum as \$10,000 has

been extracted from current revenues There is to be no more of this. The fol- of a visit to a certain public institulows that the committee must get tion of which he is the political masdown to business, specify what chanter, to wit, the Kingston asylum for DR. Then it can go before the council with the budget preliminary to exercise the franchise as they to going before the people and ask-

ing their approval. boss thought upon the subject, and and the undertaking which was sumed when the change in proprietorship took place, is not defined and probably with as much sincerity. presented to the council for serious

Ballot In The Bye-Election.

The discussion of the numbered bal lot will do good. It will demonstrate that the promise of the government has not been fulfilled. In opposition the conservatives were particularly pronounced against the numbered bal lot, It was argued, in its behalf, that it was practically secret; that number upon it was only to in tracing and exposing crookedness that there never was an attempt to had a proprietary interest in their destroy the secrecy of the ballot.

Still the numbered ballot had go. That was the demand of the con servatives, and they were so noisy about if that when they succeeded to power something had to be done Hence the act of last session. The sur prise was the keener, therefore, when the ballots used in the bye-elections were numbered, and so if the figures. Montreal Ster.

sell bonds at a discount.

#### What Colds Lead To

Not the Lungs Only, But Every Organ of the Body in Danger From Neglected Colds.

# LINSEED AND TURPENTINE

Most people know that such ail ments as pneumonia and consumption have their beginning in a cold, but all do not realize that other vital organs of the body are almost equally liable. Not infrequently colds settle on the liver or kidneys, causing serious dis-

ease of these organs. In other cases colds hang on until to contagious diseases. The only safe way is to speedily get rid of all colds before they become

fastened on the system. This can best be accomplished by the use of Dr. Chase's Syrup of Linof intercepting a grit elector, and of seed and Turpentine. This medicine has come to be con-
