BURDOCK BLOOD BITTERS DID FOR HIM WHAT FOUR DOCTORS FAILED TO DO

KEEWATIN, ONT., July 28th. 1905 MINERS. THE T. MILBURN CO., LID.,

DEAR SIRS:—I am writing to let you know what Burdock Blood Bitters has done for me.

I had four doctors trying to cure me but they had very little success. They would stop them for a month or six weeks and then they would be as bad as ever again.

try taking Burdock Blood Bitters for the blood?" I was willing to try anything and immediately sent for a bottle, but at the time was doubtful if it would be of any use. However, I used that bottle and while I was taking it I began to feel better, although I still kept having a few boils but not nearly such bad ones. I did not miss any work, while otherwise, I used to miss, sometimes, a week out of every month. I kept on taking the medicine until I had taken six bottles, and needless to say, I was not sorry I did so when I tell you I have not had a boil appear for the past three months. Every body was surprised when they beard that Burdock Blood Bitters had done for me what four doctors failed to do. If any sufferers are affligted with boils, I would strongly advise them to use B.B.B. It makes you feel like a new man. I always keep a bottle in the house, now, as I think it is a medicine that should be in every household.

Why Tea Quality Varies

70U know how the quality of strawberries from the same patch will sometimes vary from one day to

One day sweet, compact, well ripened, well colored; richly flavored-next day it rains, is cloudy,-following picking is soggy, sour, green, coarsely-flavored, poor.

Tea, also, on account of its volatility of flavor after picking and during the curing process is very be ceptible to weather changes. A few hours of sunshine or bad weather after picking may make the difference between good and poor tea.

So that while one picking may be first class, the next from the same garden may be very poor.

I select only the pickings which come up to the Red Rose standards of richness and strength in Indian, and delicacy and fragrance in Ceylon teas, and thus that "rich, fruity flavor" of Red Rose Tea is produced and maintained.
