"Fruit-a-tives" cure Constipation because they are made of fruit.

Constipation comes from just one cause—lack of bile. It is the bile—flowing into the stestines - that causes the lowels to move. More bile is the only thing that can cure Chronic Constipation.

Fruit acts directly on the liver. It stimulates and strengthens the millions of tiny liver cells causes more bile to be made-and makes the liver give up more bile to

MRS. KATE RURTZ, Dunnville, Ont., writes stating that for years constipation was her trouble, and says:—"I have used "Fruit-a-tives" with great benefit, and they are a grand medicine for constipation and other stomach trouble. I would not care to be without them in the house, they are so good."

Cathartics, pills, salts, aperient waters don't reach the liver. They merely irritate the bowels and make the bowels move by irritating the lining membrane. Constipation is made worst by such

or Fruit Liver Tablets.

contain no calomel, cascara, senna or other bowel irritants. They are concentrated fruit juices, combined and made more active medicinally by our process of uniting them. "Fruit-a-tives" are a liver tonic. They tone up and stimulate the liver-and cause the liver to secrete more bile. This means a healthy bowel action and a permanent cure for

A Strike Is Probable." The latest intelligence from the min ing districts of the United States most discouraging. The operators have been long and earnestly in sea tion, and they are announced to be of one mind with regard to the outcom of the difficulty, so far as they are concerned. In the last great crisis there was distress enough and loss enough, amounting to many millions of dollars, but it was of small moment compared with the present emer-

The bituminous mines as well a the anthracite will be closed, if the strike proceeds, and this will mean the enforced idleness of half a million men, and the want, poverty and suffering of all their dependents. It will mean more than this-the suspension, sooner or later, of industries for lack lieve it. million men. There will thus be the pletion of contracts, the loss of large have good hotels in the option revenues by employers and employees, tricts. The commercial travellers mercial collapse.

All these contingencies are being modation, duly considered. The men who are engaged in conference, and sweating blood as they seek a solution of the problem, are carrying an intense strain. They desire a settlement of some kind, and they have so far failsand men, representing the great army of miners, are standing on guard while their leaders wrestle with Hamilton Times.

Why should Canada pay bonuses continues. Better that than a loss of \$5,000,000 a day by the break, which is the last resort.

At this time of writing there is not Toronto Star. there will be a strike.

The Coon Comes Down.

David Crockett's experience has been ecalled by that of the Standard Oil magnates. Crockett was a fine shot as well as politician in Texas, and he told the story that having once treed and the scientist will have perform a coon it recognized him and called a still more wonderful feat. out, "Don't shoot, colonel, I'll come down as I know I'm a gone coon." Attorney General Hadley, of Misouri has been after the Standard Oil people on account of its trust ar. will depend very largely on the perrangement in the state. The aim of sonal qualifications and idiosyncrasies Mr. Hadley was to get evidence of a like Mr. Killam can be found there certain kind and he called Mr. Rogers need be no doubt, about the usefulness vice-president of the Standard, as and popularity of the board under his or more pleasant to a & a witness. Mr. Hadley asked if the the Waters-Pierce company, and the Standard Oil company, of Indiana, Those Who Will Serve During the Dr. Chase's was not held in trust by the Standard Oil of New Jersey? Mr. Rogers refus- At the annual convention of the

The attorney-general was not going morning, the following officers were to be "bluffed" in that way. He was elected MFRE., MONTHEAL, 5-1-06 & ad bound to prove the existence of trust by members of it, and failing to get what he wanted from Mr. Rogers went in pursuit of John D. Rockafeller. The old man realized what was coming and disappeared. The process servers have searched for him unsuc ressfully for weeks. He seems to in hiding. The story that he sai ed for Europe is not believed. He rather believed to be in retreat, ar any one who is closed in as tight as he is must consider himself a prisoner The czar of Russia represents great power, pomp and importance. He surrounded by all the luxuries he can desire, and still he is reported to be as miserable as one can be and envy the poorest man in the realm

the liberty he enjoys. Similarly the richest men in world, Mr. Rockafeller, must worried in his confinement, and Mr. Rogers, through his attorneys, at the last meeting of the court, an swered Mr. Hadley's question practically admitted the existence a trust in Missouri.

What an object lesson this is the world! Rockafeller used to give Johnston, past grand master; T. his experience for the good of ais fe low men, but they had reference to his early service and methods of saving money. Now that he can give evidence as to how he extracts his millions from the people, by a toll the most exasperating, he hides himself.

RESTORED RIGHTS

A Peaceful Revolution in San Marino. San Marino, March 28.-The small pennine republic of San Marino, the idest and smallest in the world, and careely known outside of its narrow frontier, except to stamp collectors, has just re-entered upon a democratic regime. The arringe, as the original representative body of the republic is called, has once more met and the citizens of San Marino, numbering in all about 1,700 families, have once more been restored to their civic rights. Under the original constituthe tion of San Marino the government of the republic, consisted of a general assembly of heads of families, the so-called arringo, and sof a grand counnobles, twenty citizens and twenty landowners, Gradually, however, the republic became more and more of an oligarchy and the arringo ultimately became a mere name, while the council of sixty, elected for life, and it vacancies caused by death, was practically absolute. This was the has been the condition until the present day. During the last few years, lar agitation against this oligarchic ystem, that, to prevent a revolution. happiness throughout the re-born re-

BANK OF B. N. A

The Year's Record Was Highly Satisfactory.

Mr. Brodie, who presided at the annual meeting of the Bank of British North America, in London, on March 6th, may not be accused of taking too roseate a view of the Canadian situation. He is not alone, however, in recognizing the two great evils attend ant upon the inrush of settlers into the North-West, the increasing num ber of business failures with heavliabilities, and the artificial inflation of the value of land, Both are features accompanying the rapid develop ment of a new country. The year's record of the bank was evidently con sidered satisfactory by the proprietors for they not only passed the usual vote of thanks to Mr. Stikeman and his fellow officers, but failed to accepthe invitation of the hairman to as questions, an invitation usually promptly availed of where all considered satisfactory. The earnings for the year were almost cent., enabling the payment vidend, the addition to the reserve fund of \$97,333, the reduction of the bank premises' account by \$48 666, and the usual provision for the officers funds of the institution. That the bank possesses the confidence of the people in a marked degree is i dicated by the fact that its principal gain in deposits is, as was in the case last year, in the savings bank branch

To Rebuild The Body Umbrellas

When it is Weak and Wasted by Overwork or Disease You Can Use

Nerve Food

"Our bodies," says Huxley, "may which retains its shape for a while, though every instant each particle of water is changing. The tissues of the body, composed

of millions of tiny cells, are being constantly broken down and wasted away by the process of life and especially by overwork and disease. In order to reconstruct these wasted tissues there are necessary such elements as iron, sulphur, magnesia, potash, etc., and when these are not supplied in sufficient quantities in the food we cat it is necessary to aid nature by the use of certain restorative

Especially during the winter season foods are unusually artificial and as a result the spring linds the body in a weak and run-down condition.

Dr. Chase's Nerve Food is particularly effective under such circumstances because it is composed of the very elements of nature which go to form new, rich blood, create new nerve cells and rebuild wasted tissues. This great food cure is radically different to the medicines that are usual-

ly used for nervous diseases, for while they stimulate tired nerves to over exertion or by narcotic influence soothe and deaden them, Dr. Chase's Nerve Food revitalizes the wasted cells and so accomplishes lastingly beneficial results. While modern and scientif

position and preparation, Dr. Chase's Nerve Food has been on the market sufficiently long to prove in thousand of cases its extraordinary restorative and reconstructive power. For men who are suffering from headaches, indigestion and sleepless

ness, for women who besides these symptoms suffer from weaknesses and irregularities of the delicate femining organism, for children who are pale weak and puny, there is, we believe, no preparation extant which will bring about such satisfactory results as the use of Dr. Chase's Nerve Food, 50c. a 84 INVICTUS SHOES are made in box, 6 boxes \$2.50, at all dealers or Edmanson, Bates & Co., Toronto.
