ARE QUARANTINED.

Bank Clerks Victim of Smallpox

Pembroke, Ont., March 30.-Emlovees of the Ottawa, Merchants and Union banks are in a peculiar predicament as the result of an alleged case of smallpox which broke out in their hoarding house. They are quarantined, and bank clerks from Ottawa and other places have been sent up to fill their positions.

Most of the bank employees of Pembroke boarded together in a fashionable part of the town, about a quarter of a mile from the post office. The smallpox case was discovered, Monday morning, and none of the clerks, since that time, have been allowed to of is he not? leave their homes. The banking business was practically suspended Mon-Those in quarantine include J. Foley, at your knee, Nor is this an isolated Ottawa, and T. Benson, captain of the Pembroke hockey team. petite to a prodigious eater.

"My brother, who is a lawyer Chicago, came to visit me and thin and run down. I had not seen at his appearance. He told me not to for years as a result of chronic dyspepsia. I asked him what he had done for it, and he said he had done every thing-taken every remedy he had ever heard of, and consulted doctors without number, none of them helped him. asked him if he ever took Stuart's Dyspepsia Tablets, and he said he hadn't and what was more he wouldn't. He had sworn off taking medicine of any kind

"I had my husband bring home box from store and I actually made him take one or two of the tablets after he had eaten. They made him feel so much better that he offered no further objection. He had not taken the one box before he was greatly improved and three or four boxes cured him of gyspepsia, and gave him a wonderful appetite. He came near eating us out of house and home. My, but it did me good to see him eat. He gained lifteen pounds before he returned home, and he writes me that he has not been troubled with dyspepsis

Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of their work of digestive action. Their component parts are identical with those of the digestive fluids and secretions of the stomach and they simply take up the grind and carry on the work just the same as a good strong, healthy stomach would do it On this account Stuart's Dyspensia Tablets are perfectly natural in their action and effects. They do not cause in the stomach or bowels. They themselves digest the food and supply the system with all the nourishment contained in what is eaten and carry out Nature's plans for the sustenance and maintaince of the body.

Stuart's Dyspepsia Tablets, by thus relieving the stomach of its work, enable it to recuperate and regain its normal health and strength. bers do not indulge in wild ravings to disturb the public, but the interests of the public are well guarded by it. One great step forward in the protection of public rights without wrong to special interests was taken when devised the measure for the better control of Canadian railways and appointed a railway commission, the benefits of which the country already feels. This session it has announced its determination to control the Niagara and other power export so as to regulate the rates for Canadian users benefit. Now it is announced that ac tion will be taken to place the control of telephone rates in the hands of the railway commission, and to make it as effective as the control railway rates. These are measures for the regulation of what must always be natural monopolies, and which, uncontrolled by government agencies, abuse their privileges. The means of regulation devised ensures fair play to all. This policy avoids the danger to the individual of corporate ggression or rapacity, as it avoids the vastly greater evil and injustice to private investors and the public generally of plunging into socialistic confiscation and the waste and corrup ting influences which cannot be dis ership and operation of such utilities.
