LACTATED FOOD
Saves Babies' Lives

Why has Lactated Food proved such a grand success above all other makes? Simply because it is composed of nature's food—breast milk—has been the model. Lactated Food is a triumph of medical science and cannot be improved in any way. The best physicians in Canada have taken hold of it with the utmost confidence. They know its healing, nourishing and building qualities and prescribe it freely.

Mothers, this grand food will save you much trouble, sorrow and anguish if you give it a trial for your weak and sickly babies. Thousands of mothers have already testified to its great superiority over all other forms of diet. Lactated Food has established a reputation that must endure forever. It saves babies' lives after everything else fails to give vitality and strength.

If you have not tried Lactated Food, dear mother, send your address at once to **Wells & Richardson Co., Limited**, Montreal, P.Q., and they will send free of charge a package, so that you may test its virtues.

SHOT FOR DEBT.

Killed While Father Was Signing Receipt.

Rome, April 3.—A telegram from Ajaccio states that a family of five persons has been murdered as the result of a law feud.

The courts had ordered a man named Pola to pay a debt within three days to a neighbor named Lenci. On the third day Pola, accompanied by two men, went to Lenci's house and stated that he had brought the money with him.

He asked that Lenci's family might be present as witnesses to the transaction, and Lenci called his sister and three daughters.

As Lenci took a pen to sign the receipt for the money the three visitors raised their rifles and fired two volleys, killing the entire family on the spot. The murderers were afterwards arrested.

All About One-Fifth Of A Penny.

Berlin, April 3.—One of the most curious cases of red tape has developed from a case of bankruptcy at Dusseldorf, in Germany, the postal administration of which figured as a creditor for the amount of about twenty-five cents, a claim for unpaid telephone charges. The dividend declared was about seven cents to every five dollars, and thus the post office became entitled to one and two-thirds of a penny in German money. Concerning this claim six voluminous letters have been written by the postal authorities to the official receiver in the bankruptcy, negotiating as many replies, and the end is not yet. The receiver is at a loss how to transmit the exact sum of one and two-thirds of a penny, although the postal administration declines to write off as a bad debt, anything but the precise amount, including the fraction. There is every prospect of a voluminous dossier accumulating in this portentous matter.

Y.M.C.A. DIRECTORS.

Present Arthur Ellis, With Candelabra.

At the meeting, Monday evening, of the board of directors of the Y.M.C.A., Arthur Ellis, architect, who is to be married soon, was presented with a beautiful chaste silver candelabra. It was the design of a group of water lilies, each flower holding a candle. F. Harrison made an appropriate address of appreciation to Mr. Ellis for his valued fourteen years' service on behalf of the local association.

In his reply of thanks to the directors Mr. Ellis stated his work in connection with the Y.M.C.A. from the erection of the building, and since had indeed been of much helpfulness to him.

MAPLE SYRUP SCARCE.

Sells at High Figure; Run Slow.

Maple syrup sold by farmers, about town, to-day, at a rather high figure, \$1.20 a gallon. It is the general opinion that maple syrup will be scarce this season, owing to the fact that there is very little frost in the ground. The sap, this year, began to flow unusually early, the fore part of February. Those who have sugar bushes claim the run, which commenced at its best a few days ago, is very poor. As there is a total lack of snow, there can be no "sugaring off" parties this spring.

Note Well.

NO COMPLETE TIE-UP
COAL SITUATION EXPECTED TO IMPROVE RAPIDLY.

Many of Leading Companies Signed Scale—Complete Suspension of Operations in Hard Coal Region.

New York, April 3.—Although the greatest suspension of coal mining in the United States since the production of the fuel attained its present enormous total occurred, Monday, the fear of a complete tie-up of the industry has passed and the situation is expected to improve rapidly with each day. Reports received to-night from the bituminous fields show that many of the leading coal companies have signed the 1903 scale, which gives the men an advance of 5.55 cents over the wages they received during the last two years. The number of miners who received the increase is estimated at nearly 100,000.

If the steamer Wolfe Islander does not succeed in getting across the harbor to-day, the steamer Piermont will be sent to the city, by this evening as the ice in the harbor is in a very bad condition. This morning it took the ice breaker and letting them through all the way across.

At a quarter after three, this afternoon, the ice seemed suddenly to break away, and go floating down the river. Half of the harbor is now a clear open space and the Wolfe Islander is making her way across to the city.

During the past ten years, the dates of the opening of navigation in Kingston harbor have been as follows:

1905	April 10th
1904	April 11th
1903	March 14th
1902	March 24th
1901	April 8th
1900	April 9th
1899	April 10th
1898	April 10th
1897	April 13th
1896	April 14th
1895	April 14th

Three openings in ten years have been in March, and only four ahead of that of this year.

STRIKE NOT EXTENSIVE.

Indianapolis, Ind., April 3.—Information received so far at the National headquarters of the United Mine Workers of America, indicates that the strike of soft coal miners will not be extensive. Many of the operators already having expressed a willingness to grant the miners' demands.

The prospective situation in the various fields last night was as follows:

Indiana—Nearly all operators in the south end of the state and many in the centre will sign the advance wage scale according to the miners; but the operators' chairman says only a few will grant the advance. All mines in Ohio—Six companies have declared their willingness to pay the 1903 scale. These companies control one-sixth of the states output. Many other operators have intimated that they may pay the 1903 scale. The miners' executive board meets to-morrow to decide whether individual contracts shall be signed. States' President Green says he will urge favorable action, and probably at least half of the Ohio mines will resume operation soon.

Illinois—Many mines will be in operation to-morrow. Many operators have expressed a willingness to pay the 1903 scale. Illinois operators will meet to-morrow.

Western Pennsylvania—Almost all bituminous coal mines in Pennsylvania will grant the 1903 scale and resume operations soon.

Central Pennsylvania—Meetings will be held to-morrow with prospects of favorable settlement.

West Virginia—No strike on. Iowa—Operators and miners meet to-morrow, when an agreement will probably be reached to open mines at once.

Michigan—Operators and miners meet to-morrow with good prospects of settlement.

Ontario—No strike.

Southwestern district—All the coal mines of Kansas, Missouri, Texas, Arkansas, Indian Territory, and Oklahoma are idle, the 25,000 miners having struck. It is expected that numerous operators will sign the scale soon.

HOPE FOR SETTLEMENT.

New York, April 3.—There is a strong hope that a settlement of the strike of the anthracite miners will result at the conference, in this city, to-day, between the operators and miners representatives. This view is held by prominent operators.

AWARDS ANNOUNCED.

List of Prize Winners in College Posted.

Montreal, April 3.—The medal, scholarship and prize awards at the Presbyterian College, for the year 1902-3, were posted at the college last night. A. D. MacKenzie, M.A., of Oklawaha, winning the gold medal, heads the list. In his company are John H. Higgins and William J. Morrice travelling fellowship of \$500. The silver medal and the McCrackin fellowship of \$400 go to A. C. Ross, B.A.

The annual convocation will be held in the Davis Union Hall, to-night, when, in addition to the distribution of medals, scholarships and prizes announced, four degrees in divinity will be conferred, that of doctor of divinity on Rev. P. H. Hutchinson, Huntington, and that of bachelor of divinity on A. D. MacKenzie, M.A., A. R. Ross, B.A., and Rev. David Stewart, St. John, N.B. M. B. Davidson, B.A., will read the valedictory, and the address to the graduating class will be delivered by Rev. J. Edgar Hill, D.D.

FRIENDLIER FEELING
Likely to Result Between Leading Nations.

London, April 3.—Messages of congratulation, on the outcome of the Algiers conference, have been exchanged by Great Britain with the Paris and Berlin governments. Germany's reply is of a more cordial nature than any communication which has passed between the two nations for a long time, and is taken to indicate the beginning of friendlier feelings between the two countries.

Two Deals Closed.

Toronto, April 3.—It is understood that the Central railway of Canada, formerly the Ottawa River Railway company, has purchased the Ironclad, Bancroft and Ottawa railway, fifty miles of which have already been completed. This road will be rebuilt by the purchasers and will form a part of their new main line from Ottawa westward through central Ontario.

The same company has also purchased the Ottawa River Navigation company, together with their thirteen miles of railway, between Carleton and Grenville. The latter is a five feet six inches gauge and was built in 1859.

THE STEAMER OUT.
Likely She Will Get Over to Kingston.

The steamer Wolfe Islander left her berth at Garden Island at 2:30 o'clock this afternoon and made her passage to Wolfe Island. It is reported that the river is open for a mile below the foot of Garden Island. It is expected the Wolfe Islander will get across to the city, by this evening as the ice in the harbor is in a very bad condition. This morning it took the ice breaker and letting them through all the way across.

At a quarter after three, this afternoon, the ice seemed suddenly to break away, and go floating down the river. Half of the harbor is now a clear open space and the Wolfe Islander is making her way across to the city.

ONE GIRL CRUSHED.
A Water Tower Crashed Through Building.

Montreal, April 3.—A fatal accident occurred, about noon, at the wholesale warehouse of Boivin, Wilson & Co. liquid merchants, St. Paul street, when the water tower, above the tank for fire protection, suddenly collapsed, and tore its way through the roof to the basement. So far as known one girl was buried under the debris, and workmen are now digging in the debris to get the body out. She was working on the top flat when the tank fell and was caught under it. Several others have been taken to the hospitals in an injured condition, but their names have not yet been ascertained. The tank contained 150 tons of water.

The name of the girl killed under the tank was Louise Ross, living at 1,317 Notre Dame street.

When the supports of the tank gave way the 30,000 gallons of water was precipitated through the building doing a great deal of damage. The tank itself broke to pieces. The greatest difficulty was experienced in getting at the body of the dead girl and firemen of the Youville Square station, had to dig away a mass of debris before the body could be recovered.

The injuries sustained by others were not serious and none of the cases were reported at the hospitals.

LICENSE THE CHAUFFEUR.

Mr. Preston's Suggestion in the Legislature.

Toronto, April 3.—A lively discussion over Mr. Sutherland's bill respecting regulations for motor vehicles occupied the greater part of the time of yesterday afternoon's session of the legislature. The bill, shorn of several clauses, was referred to committee. The minister of education will introduce his education bills next Thursday.

Supplementary returns were laid upon the table of the by-elections in East Nipissing, Kingston and North Toronto.

Several private bills were passed through committee stage, and Mr. Preston's (Durham) bill respecting the town of Port Hope was read a second time.

In reply to Hon. Mr. Ross, Hon. Dr. Ross stated that eighty-five fishery overseers holding office in February 7th, 1905, had since then been dismissed, and 139 new appointments have been made, fifteen without salary. Two game wardens had been dismissed and fourteen appointed.

BOILER BLEW UP.

Two Killed and Two Fatally Injured.

Chittenango, N.Y., April 3.—The saw mill of Edward Dieffendorf at Chittenango was blown up yesterday by a boiler explosion. Edward Dieffendorf, Jr., and Patrick Baker were instantly killed and John Higgins and Jesse Kelsey fatally injured. The boiler was tossed fifty feet through the air and the body of young Dieffendorf was hurled 300 feet. Irving Loney, who stood directly beside the boiler when the explosion occurred, escaped injury, the boiler having passed over his head.

Will Be There Next Year.

The anniversary of the Battle of Hart's River was celebrated at a dinner in Toronto, on Monday, attended by about sixty survivors. Regret was expressed at the absence of the honorary vice-president, Major Bruce Caruthers, but a letter from him was read, in which he assured his presence next year. Lieut.-Col. Duff presided.

Officers Chosen.

The election of officers for St. George's Young Men's Club took place last night, with the following result: President, Canon Starr; vice-presidents, A. C. Dunbar and H. Swaine; secretary, Walter Cannon; treasurer, Charles Dalton. The club has met on Monday evenings during Lent.

Get The Famous
Perrin's French Kid Gloves Here

Of the three great Glove manufacturers in France—all considered equally good at most points—the firm of Perrin's are represented by us in Kingston. And there is just one great over-powering reason why we recommend their Gloves so highly. It is just this—the extreme care and expert knowledge used in the selection of materials. Only the freshest and most elastic skins are taken and thus, after the Gloves have been tried and stretched, they still retain that same valuable high-finish as before.

We emphasize these for to-morrow:—

Our "PREMIER" quality Gloves at \$1.25 are the best quality that the very lowest price and keeps Kingston money in Kingston. In 1.25

Our "EMPERESS" Glove, of excellent material and workmanship, in black, white, tan and grey mode, per pair 1.00

LADIES' ENGLISH DRIVING KID GLOVES, for early spring wear, excellent quality, genuine kid, per pair only .69

LADIES' LISLE SUEDE GLOVES, made by the same weight and finish of an undressed kid, two done fashion, black and neat silk point-stitched backs; grey and mode shades of drab, per present price per pair, only .35

Our present 75c. Kid Gloves really constitute the best value for the money that we have offered during many years. But there's one thing we know and will tell you—after our present stock is gone we'll be unable to continue selling them in the same quality at 75c. nor will we ever get them as low again. As to appearance, durability and genuine work they equal most of the 1.00 gloves sold in Kingston, and no mail-order house can duplicate them. Already we've sold out of some numbers, but here are what we have—tans and browns in sizes from 6 to 7 1/2, white from 6 to 7 1/2, grey from 6 to 6 1/2 (all inclusive), and black in 6, 6 1/2 and 6 3/4. They are of genuine kid, freshly made in France, with two dome fasteners and gusset thumbs, of a quality you would willingly pay 1.00 for in ordinary stores; our price, while the present assortment lasts, only .75

LADIES' LONG WHITE SILK GLOVES. We candidly tell you of the advisability purchasing these necessary styles now, for without a doubt, after a very short time, you'll be positively unable to get them at all—so great has been the demand upon the makers that their stocks are gone.

Scarlet Fever Prevalent.

Fifth Lake, April 3.—A large number were disappointed, last Friday, on not having service in the Methodist church. Our school is well attended under the management of Miss B. Murphy as teacher. Scarlet fever is prevalent in this vicinity, the home of W. M. Wagar being quarantined for it. A wedding of much interest was solemnized last week, between Stephen Oederick, North Dakota, and Miss Jennie Pruvim, adopted daughter of Mrs. Isaac Oederick, Canaan. The groom was a native of this place for many years. He and his bride intend leaving shortly for the United States, where they will permanently reside. Mr. Haley's box was largely attended on Saturday, Mr. and Mrs. S. Oederick and Mrs. Ira D. Clark, Napanee, spent one day. Last week with Mrs. W. Keech, Miss Maude Wells spent Sunday with Miss Ella Oederick.
