

Offerings Here Tomorrow

Every day brings forth some good results of our constant vigilance and seeking to give thirty Kingston women some extraordinary values. Yesterday was lucky to us in that we received a shipment of Special Ribbons and Skirts. Probably a more timely special would be hard to find than this lot of pure Silk Taffeta Ribbon for to-morrow. And one thing more, we want to assure you of our extra endeavor to successfully serve all who come. We think you may comfortably take advantage of our offer to-morrow. Better come a little before the sale hours—9 and 9.30.

Not large—for us, that is—wards in black, white and only, and in 4 and 5-inch. The regular value you'll appreciate when you handle as being 15c, or over, per yard, have your choice, and in the morning at sharp 9.30 only.

A sample lot of different styles, some trimmed with insertion, others tucked and ruffled. Regular values from 1.00 to 1.25, but to-morrow at sharp 9.30 only.

ROBERTSON BROS.

Dear Madam

You Should Know

That more Furs are damaged or ruined by moths each year than through actual wear. This fact has been demonstrated thousands and thousands of times, but still there are many who, through oversight, carelessness, or perhaps, false economy, neglect to properly care for their Furs, through the dangerous summer months. A Fur Garment of quality with proper care will last a long time, can easily be altered to the latest style and made to look like new, but if moth-eaten, it will either be completely ruined, or at best the expense to repair the damage will greatly exceed our charges for storage. Profit by the experience of others, and avoid the risk.

NOW IT'S SIAM

That Menaces The World's Peace.

KAISER'S SCHEME

SINCE THE SETTLEMENT OF MOROCCO TROUBLES.

Encouraged by Outcome of Conference He is Said to Have Turned His Attention to Siam Where He Plans to Make German Power Supreme.

Berlin, April 7.—Now that the Moroccan question has been settled the peace of the world is likely to be menaced in Siam. The Kaiser, encouraged by the outcome of the Moroccan conference, is reported to share in the spoils in Siam and is shaping his course to do so.

The Pan-German weekly review, Der Deutsche, publishes an article entitled "After Morocco Comes Siam," which seems to give the cue to the German programme.

The review argues that Germany cannot recognize the existing agreement between England and France, defining the spheres of influence in Siam, and points out that Germany's commercial interests there are very important and in fact greater than those of England or France, since the North German Lloyd steamship line bought up two British steamer lines trading with Hong Kong, Singapore and Bangkok, the capital of Siam, in 1900, and Germany is now pushing the construction of railways and public works there.

In conclusion the article says: "We express the urgent desire that the government will defend its interests in Siam more vigorously and with less tendency to compromise than it did in Morocco."

Sensational developments are expected soon.

CHINESE ARE UGLY.

Still Angry Over Supposed Murder of Magistrate.

Pekin, April 7.—Native papers in North China, are still printing inflammatory articles, and the French missionaries, insisting that the French missionaries killed the Chinese magistrate.

In many places the Catholic converts are the latest addition to the list of the Chinese, and the missionaries are prepared for the presence of the troops stationed near the missions by the government orders, the slightest friction would result in massacres.

WILL BE A FIGHT.

Bambaata is Marching on Greytown.

Greytown, Natal, April 7.—Bambaata, the leader of the Zulu rebels, is believed to be in the neighbourhood of Greytown. He has only 200 followers. It is impossible for infantry to penetrate the bush in pursuit of the rebels, but overlooking their hiding place is an eminence on which artillery is being placed. The rebels are expected to tackle Bambaata in native fashion in the bush.

Starting On Maiden Trip.

Rotterdam, April 7.—The New Amsterdam, the latest addition to the fleet of the Holland-America Line started from here to-day on its maiden trip to New York. In honor of the event the ships in the harbor displayed flags and when the great liner passed out of the harbor the whistles and sirens of the craft in the harbor gave a parting salute. The liner carried a full cargo of passengers and freight for New York and expects to return from New York to Rotterdam on April 25th.

The New Amsterdam is not an ocean flyer. Its speed does not exceed sixteen knots, which is rather slow for an Atlantic liner. It is built more for safety and comfort than for speed.

Fight For Control of Mutual.

New York, April 7.—The outcome of the annual meeting of the Mutual Life Insurance company is awaited with a great deal of interest by insurance companies in this country, as the company in particular. The meeting, which will be held this afternoon is of the greatest importance, as it will definitely settle the question, whether the present management is to remain in control of the affairs of the company or not. The management of the company has been extremely active during the last few weeks to secure proxies for their trusted agents, George F. Baker, president of the First National Bank; Elbridge T. Gerry and John W. Auchincloss.

CRISIS IS OVER.

A New Premier is to be Appointed.

EX-PREMIER FEJERVARY.

Vienna, April 7.—After fourteen months of controversy, between the throne and the coalition parties, the Hungarian crisis finally has been settled. Both sides express satisfaction with the result obtained which appears to be in the nature of a compromise. Premier Fejervary has resigned and Alexander Vallerie has been appointed premier with a mandate to form a conciliatory cabinet for Hungary.

RUSSIAN LOAN

Cannot Be Recommended To Germans.

SAID TO BE SNUB

SITUATION DEPICTED IN ALARMING MANNER.

It is Said That Germany is Upsetting Political Arrangements and There is Danger of a Decided Type—A Big Cruiser Has Been Found Unseaworthy.

London, April 7.—A German official announcement, that the government is unable to recommend a Russian loan to the German market, is exciting attention in all the European capitals. There is widespread opinion, despite an official intimation, that no political consideration is involved, that Germany's refusal is intended as a snub in return for Russia's failure to support Germany at the Algiers conference.

The St. Petersburg correspondent of the Telegraph depicts the situation, in which the Russian refusal is an indication, in German eyes, of a lack of confidence in Germany, and that Germany, he says, resolved to make herself considered and not to let all nations, is deliberately upsetting European political arrangements with results which may become much graver and far-reaching than is generally anticipated. Every power which contributed to isolate Germany at Algiers has been or is being punished more or less conspicuously.

The Daily Express says that the new armored cruiser, Duke of Edinburgh, commissioned three weeks ago to join the first cruiser squadron, has been found unseaworthy, owing to her excessive top hamper, and has been docked at Portsmouth. During her sea trials in the channel the vessel rolled so badly that four of her citadel guns started and threatened to break adrift.

PROPOSE CHANGES.

Acquisition of Ontario Veterinary College.

Toronto, April 7.—When the house assembled yesterday the report of the royal commission of the University of Toronto was laid on the table. It recommends that administration of the university be placed in the hands of a board of fifteen members, appointed by the crown and that the senate be retained to supervise the academic work also that a faculty be created and the office of the president be invested with very largely increased powers.

Since it finds that \$163,000,000 are invested in Ontario in live stock the commission advises that a degree in veterinary medicine be established, and in order to avoid having a rival institution, that arrangements should be made to take over from the owners the Ontario Veterinary College, the college to be conducted like the O.A.C.

NOT POSITIVE

That Bradley Was the Man Seen With Child.

Montreal, April 7.—Eugenie Ledou and Beatrice Lapierre, the two little girls who saw the murderer of five-year-old May Ahern, loitering about the church at Cote St. Paul, were this morning brought into the presence of the man Bradley, who is detained on suspicion of having committed the crime. When they were brought face to face with him, Beatrice Lapierre, who is the younger of the two, was so overcome by emotion, that she fainted dead away. Then she came to, however, and said that she thought he resembled the man she saw a great deal, still she could not be positive as to his identity. The son's testimony was given by her companion, who also declared that though she thought it was the man she could not take her oath to that effect.

FATHER WAS STABBED.

The Son Says He Did It in Self-Defence.

Belleville, Ont., April 7.—George Cameron, a young farmer, of Carleton township, is under arrest, charged with stabbing his father. There was a quarrel between father and son over property, and the son claims that the old man struck him with his fist. Thereupon he stabbed the old man three times in one arm and once in the left arm, from which wound the old man nearly died to death. The wounded man, O. K. Cameron, is nearly seventy years of age.

The Spelling Cranks.

Buffalo Commercial.

Life gets a little belated fun out of the "simplified spelling" crusade, as all the daily newspapers have done. "Shall we do it?" it asks. "Shall we oblige the committee and make simplified spelling fashionable? We ought to—probably. We understand that Mr. Sprag, (Charles E. Sprague is a member of committee) has excused from his name the silent letters that formerly give it a stylish appearance, and had them set in a ring which he has given to Mr. Carnegie as the first fruits of benevolence. Dr. Melvil Dewey, a member of the board, long ago dropped the two silent letters of his first name. The gentlemen mean business. Spelling rhyme "rime" is a little like shaving one's moustache to go to a fancy ball, but we can do it if it is right, and the board intends to make us see that it is right."

TO ERECT FLAG POLE

In Honor of Victory of Bradstreet.

The British flag was raised by Bradstreet when he captured Fort Frontenac and destroyed the naval supremacy of the French on Lake Ontario, August 27th, 1758. Bradstreet brought 2,800 men from Oswego. He threw up earth batteries from the water's edge on which the K. & P. station now stands, to the site of St. Paul's church. To commemorate this historic event of interest to all Ontario, the sailors of Kingston are uniting to erect a flag pole. The associations of Masters and Mates and Engineers and the Lake Steamers and Marine Firemen's unions have agreed to offer this for the Frontenac Historical society. The flag pole will not be erected until the sailors return to port in order that they may all be present when the first flag is raised.

The offer of the sailors is noteworthy for several reasons. The suggestion came from the lake seamen and the marine firemen took the first steps to realize it, but in both unions it was a voluntary offering. The masters and mates and the engineers would not be left out in the cold, and when approached readily consented to unite with the unions that the flag pole might be the gift of all the men connected with the shipping interests. The Frontenac Historical Society is delighted. It takes this unexpected gift as an omen that it will succeed in its endeavor to mark and restore the various places of interest and give Kingston its rightful fame as one of the most interesting historical places in Upper Canada. It hopes when the flag pole is erected that the dominion flag will float from it on all days of national significance, and that it may be the beginning of a growth of enthusiasm for one flag and the principles for which it stands.

This proffered gift is also significant of the growth in public estimation of our sailors. The public schools, the increased intelligence demanded in the calling, the better wages, making possible a higher standard of living, have all tended to improve the status of the sailor and to-day some of our most intelligent as well as honest men follow the calling of the lakes. Sailors have always been noted for their rough and ready virtues, their courage, presence of mind, in the face of danger, generosity, but democracy in the future, will award its plaudits to the men, who through danger and hardship make possible our commerce and home comforts.

The Frontenac Historical Society readers, the sailors most hearty thanks for their offer to erect the flag pole, and hopes its erection may be as full of significance to the sailors as to the city and province.

To Have A Big Field Day.

Montreal, April 7.—At a meeting of the commanding officers of all the military corps, in the city, last evening, at the Military Institute, Col. Buchanan's plans for a field day, on Victoria day, May 24th, were approved. Instead of the customary inspection, the plans for this year are much more extensive than in the past, and will include some elaborate field manoeuvres. The city council will be asked to assist in bearing the expense of the day.
