ESTABLISHED 188

TO BE HELD BY QUEEN'S MEDICAL FACULTY.

Dr. C. K. Clarke Received Honorary Degree and Addressed Graduates-Dean Connell Adyised Graduates Against Professional Jealousies.

in Grant hall is to be the last, as hereafter there will be but one university convocation at the end of April for all faculties, in view of the extension of the medical session to There was a large attendance at this afternoon's ceremony, Sir Sandford Fleming, the aged chancel-

or, presided. Rev. W. S. MacTavish. Ph.D., was chaplain of the convoca-

Chancellor's Address. Six Sandford Fleming made the fol lowing important remarks upon the university commission question: "Members of Convocation, This appears to be a fifting moment to give expression to thoughts on a passing event of profound interest to this and every Canadian university. "His honor, the lieutenant-governor of the province of Ontarie, in October last year, appointed a royal commis-Brussels, Tapestries all the newest

sion to inquire into and report on matters relating to the University of brontp. Seven residents of the city of not only an enlightened and enthus- next year when lectures will continue one of you now graduating to aim development, at the public expense, New stock just in from Austria, Toronto were constituted a royal commission; they have had the whole matter under their consideration for a period of six months; they have had seventy-seven meetings to reach conclusions; they have prepared a bill em-Window Shades, Linoleum bodying in detail the provisions of a scheme they recommend the government to carry out, and they have exdained the whole in a report dated he ith of the present month By the terms of their appointment

the commissioners were authorized to inquire into and report upon: 1 .cheme for the management and gov ernment of the University of Toronto in room and stead of the one under which the said university is now man aged and governed. 2.—A scheme for the management and government of University College, including its relations to and connection with the said University of Toronto. 3.-The advisability of the incorporation of of the School of Practical Science with the University of Toronto, 4. Such changes as in the opinion of t he commissioners should be brought about in the relations between the said iniversity of Toronto and several coleges affinated or federated therewith, having regard to the provisions of the federation act. 5 .- Such suggestions and recommendations in connection

of the commissioners may be desira-"The attention of the commissioners, has, by the terms of their appointment, been confined to Toronto University and affiliated colleges. We have only the kindliest feelings towards Toronto university; we rejoice it has accomplished. We must, therefore, congratulate our sister universsympathetic report which has been issued within the last few days by the royal commissioners. We hail with even greater satisfaction the action of the government in initiating the in quiry, as we think it can only be the beginning of an extended inquiry into

with or arising out of any of the sub

all matters appertaining to the higheducation of the province. "We are all aware that Toronto not the only educational centre. The people of the province of Ontario are familiar with the existence of at Kingston. They know that Queen's University has long labored with success to advance the intellectual cul-ture of our country, that she has done and is doing a large proportion influence of such men as Profs, Wat- not reside in parliamentary speeches.
