AN OLD SAYING.

Showing How Cause and Effect Are Never Far Removed. It is an old saying, "Where there' honey there's bees"-not less true one which science has coined more recently, "Where there's dandruff there's germs"-and to push the inference still further we may truly say "Where there's dandruff cured Newbro's Herpicide has been at work. The reason of Herpicide's isolation

as a genuine cure for dandruff lies in the fact that it attacks and destroys the root of the whole trouble parasitic germ which feeds upon the material which nourishes the Other so-called remedies are no

### THE EASY OIL

Scott's Emulsion is "the easy oil"-easy to take, easy in action. Its use insures deliverance from the griping and nauseating sensation peculiar to the raw oil. Nobody who has any regard for their stomach thinks of taking cod liver oil in the old way when Scott's Emulsion is to be had. It is equally certain that no one having a regard for their health will accept a cheap emulsion or alcoholic substitute for Scott's Emulsion. It fulfills every mission of cod liver oil and more.

SCOTT & BOWNE, Torente, Oat.

Embargo Removed. Montreal, April 17.-If one were czar of Canada, it would be his master stroke of policy to suspend the preference to Great Britain until the prohibition against Canadian cattle s cancelled. This was the striking phrase in

which Sir William Van Horne, chief director of the C.P.R., referred on his return trip to England to the regulation decreeing the slaughter of Canadian cattle shipped to British ports, "I believe," he declared with em phasis, "if we had an open competition, we would carry off the honors, but it is useless talking about open competition at British exhibitions,

> Great Britain's trade with Canada, ir William thinks, has become o such importance that a suspension of the preference would hit England hard, and he did not think that any gov rnment could withstand the indignation that would arise if the suspension came as the result of the shut

hibition was an outrageous thing, jut terly indefensible, and he hoped time would come when it might igorously resented. "It is through her trade that Great Britain could be made to feel this." said Sir William. "Commercial conditions are not what they were. The people of England know the value of cultivating trade. The time was when he world had to go to England for the greater part of the commodities required, but that time has gone by. In England they have found it
