Tea Flavor and Strength

THE greater body and richness of Indian tea when combined with the delicately flavored but thinner tea of Ceylon, produces that "rich fruity flavor" of Red Rose Tea-a tea that is strong and goes further-requires less to make a cup of equal strength than any brand of Ceylon tea alone.

Red Rose, Tea combines the strength and richness of Indian tea and the delicacy and fragrance of Ceylon tea.

CLEVELAND IMPROVED

What the Business Men of That Big City Did.

H. Estabrooks

The Chamber of Commerce, Cleveland, is the pieneer among boards of trade in deating not only with trade plan of life of a great city. It seeks not only to be alive to the present. needs of the city, but endeavors to extend its outlook into the future and provide against contingencies

Most conspicuous of the movements pertaining to civic improvement, in which this chamber has been engaged, is that of the magnificent grouping of the public and semi-public buildings, about a central mall, extending from the lake to the public square forming a stately gateway to the city. The plan involved the expenditure of more than thirteen million dollars, a part of which sum will be returnable to the city by the sale under restrictions

The sentiment of this chamber has been to advocate all seasonable plans for the improvement and extension of its parks system. Its influence was often exerted in aid of the park commission under whose management the great development of Cleveland's park system was made. It has a committee sanitation, which improved the sicians. Its industrial committee has wages, seasonable homes, and comfortable and sanitary surroundings are highest efficiency of a business can aly be reached by bringing about the ments. The prevalence of these ideas is

These are only a few of the activities of this up-to-date chamber of commerce, but it is noteworthy that in their report the parks and group plan of public buildings receive first place. AGAINST JEWS SINCE THE TWELFTH CENTURY.

How a Hebrew Writer Regards It -Superstitious Notion That Jews Required Blood Christian Child for Passover. The Jewish News.

The advent of Passover reminds us of the grim connection which history has established between the celebra tion of what is otherwise one of our brightest and happiest festivals, and the diabolical charge of ritual murder which enemies of the Jewish people have preferred against them ever since twelfth century. Easter ! 'tne Blood Accusation ! 'The two things invariably suggest one another by the force of association of ideas. 'the Middle Ages, the Alexandria, the Tis-za-Eslar, the Corfu, the Xanten, the Polna, and the Konitz cases, in modern times, have all had their origin in the superstitious notion that Jews require the blood of a Christian child for the manufacture of Passover bread, and of Passover wine. The case of Simon of Trent, in 1475, is particularly instructive, inas-

much as the Feast of Passover that year began on Wednesday evening, March 22nd, but the boy did not disappear until Thursday, and he is said to have been murdered on Friday. Although it was thus impossible that the boy's blood could have been rebusiness and mancial matters, but ex-tending its work and influence to every were not at a loss to frame an dictment. The year 1475 was celebrated by the Catholic church as a jubiler year, so it was assumed that the Jews also celebrated it as a jubilee, and on this particular occasion they required "fresh Christian blood."

But when the people are sunk in ig norance and given over to superstition, no belief is too incredible for them to harbor, whether they live in mediaeval or modern times. Credo Astounding Act of Revolutionquia absurdum est is the principle upon which they think. It must be so, to convince those among whom tales revolutionary episode, occurred in the of Jewish child murder at Easter-tide neart of Moscow recently, when thirty circulate of their monstrous false armed men entered the Mutual Credit concerning its use of land which it will | hood. Any one of these little incidents could have ser ved in rude times to excite the belief that Jews had been engaged in some diabolical conspiracy. But, taken altogether, they would have amounted in the eyes of an ignorant multitude to positive proof of the commission of a crime. Add to this the fact that the Jewish Passover is coincident with Easter, the celebration of which in the Roman and Eastern churches is ago are recalled by this newest model of a nature to excite the fanaticism for the separate silk jacket.
