Buggies.

Expert Tea Blending

LIAVE you ever tried to blend colors to match the shade of the red rose? Pretty difficult, yet an expert can do it easily.

Why? Because he can tell by looking at the rose what colors are required to produce that tint or shade, He can make that precise color every day in the week.

Just as the artist in colors blends the tints of the red rose, so my artists in tea blend the "rich fruity flavor" of Red Rose Tea.

With expert knowledge and intuitive skill he selects the particular picking of rich, strong Indian tea and the precise grade of fragrant, delicate Ceylon, and by skilful blending produces the peerless flavor of Red Rose Tea-a tea which for delicacy and strength is matched by no brand of Ceylon alone.

is good Tea
