ARTHUR ELLIS, Architect.

Office—Near Armouries.

MAKE A $3,500 JOB.

Drainage Referee For Eastern Ontario.

Toronto, April 28.—The second reading of Mr. Hanna's bill to amend the drainage act brought out the fact that the government is providing another $3,500 appointment for some one. For the purposes of administration the province is divided into eastern and western districts, with a drainage referee for each. Col. Rankin of Chatham, will retain the western district, and a new man will be appointed at the same salary for the east.

Hon. Messrs. Ross and Harcourt soundly criticized the proposition, claiming that it was a subterfuge for working a political friend into a good position. Business in the drainage courts did not demand a second man, and, so far as known, Col. Rankin was not an overworked official. The new appointee will not be debarred from court work which does not involve his connection with a drainage dispute.

Moth camphor and cedar, for moths, at Chown's.

WAR HISTORY

Sidelights On Russo-Japanese Struggle.

CURIOUS STORIES

TOLD OF HOW THE FIGHT ORIGINATED.

Private Yachts Hired to Act as Scouts—Once on Sea the "Happy Family" Began Quarrelling.

Paris, April 28.—A case which has just been concluded at the Palais de Justice, and in which the decision has been reserved, casts a curious sidelight on the Russo-Japanese war. Toward the close of 1904, Russia, having at length decided to send her fleets to the far east, despatched the first squadron by way of the Mediterranean and Suez canal, while other ships were to double the Cape. In order to protect the Russian ships against surprise several fast-going pleasure yachts were chartered with instructions to act as scouts and signal the presence of suspicious craft in the Mediterranean, and especially near the approaches to the canal.

Capt. Maurice Loir, retired, was in command of the little flotilla, which comprised the Florentina, the Esmeralda, and another yacht destined to acquire still greater fame in bearing the ill-gotten fortunes of Galley and his mistress, the Catharine. These yachts were hired from private owners at the rate of $5,000 to $7,000 a month each, and for a period of two months, which might be prolonged, if the necessity should arise.

M. Tordo, president of the "Yachting Agency," played a leading part in the affair, and in order that the yachts might be able to prove, if overhauled, that they were pleasure yachts, he helped to fill them with adventure loving friends, and finally accepted a passage on board the Florentina for his wife and himself, braving the dangers of the sea, and, possibly, of cannon and torpedoes.

Once in the Mediterranean, the happy family began to quarrel and when the orders was given to go through the canal and enter the Red Sea, the "trippers" hastily asked to be put ashore. From November to February M. and Mme. Tordo stuck to the Florentina through thick and thin. Then they were put ashore at Naples, against their wish, it seems. M. Tordo claimed repayment from M. Loir of sums advanced to him and also fees due for month's extra cruising.

EXODUS FROM 'FRISCO

Slows Up—The Air is Full of Projects.

San Francisco, April 28.—The exodus is slowing up, and the timid have about cleared away and the crowds waiting at the railroad office for transportation and passes are sensibly smaller. The air is full of projects.

Herbert Law, a capitalist, has gone east, after, it is said, a conference of men, to lay before congress a request for a government loan of $100,000,000, at two per cent. interest, to be used in re-building, and to supplement the insurance company payments. According to the plan the loan is to run for twenty-five years, and to be secured by city real estate.

The plan to move all the Chinese out to Hunter's Point, six miles away, may fail. The committee of Chinese merchants declare that the location is far too distant from the heart, of the city, and as a result the plan is in abeyance. While they wait the authorities will move the Chinese out to the Presidio, where the celestials can be kept under surveillance. Most of the white refugees have left the Presidio. The opening of stores along Market and Fillmore streets has greatly reduced the number of people in the bread lines. Families of moderate means are now paying their board.

Killed In The 'Quake.

St. Thomas, April 28.—William Burnip, a well-known G.T.R. engineer of St. Thomas, is believed to have been lost in the San Francisco disaster. He was on a visit to his son in that city, and a letter received here by relatives states that his son's house, on Seventh street, has been demolished, and although the debris has been searched no trace could be found of him. Mr. Burnip had been a resident of St. Thomas for years and was driving the engine which struck and killed Barnum's big elephant, Jumbo, in this city in 1885.

Absolutely Untrue.

Ottawa, April 28.—The newspaper statement about a masked attempt being made at the liberal caucus to demand the resignation of Hon. Mr. Emmerson and Sir Frederick Borden is absolutely untrue. Neither gentleman was even mentioned in the meeting in question.

Offered To Mr. Tye.

Montreal, April 28.—The position of chairman of the proposed board of administration of the Montreal harbor has been offered by the government to W. F. Tye, formerly chief engineer of the Canadian Pacific railway. It is believed he will accept the position.

A Franklin Statue.

Paris, April 28.—The statue of Benjamin Franklin, presented to the city by John H. Harjes and which stands at the head of Rue Franklin, where he had lived, was unveiled on Friday.

Give your eyes comfort and a good time by putting them behind a pair of glasses got at Chown's Drug Store.

HELPED ENEMIES.

The Wife of a Sculptor Aided Revolutionists.

MRS. MAY HANBERY FISCHER-PERRY.

New York, April 28.—During the trial of a suit by Joseph L. Cunningham, for the recovery of $25,000 from Juan L. Jiminez, formerly president of San Domingo, alleged to be due for services rendered in a revolution in 1897, it was disclosed that Mrs. May Hanbury Fischer-Perry, wife of the sculptor, Roland Hinton Perry, had assisted the revolutionists of Santo Domingo with money.

MORE TROUBLE IN CHINA.

Reformers Plot to Overthrow Dynasty.

Singapore, Straits Settlement, April 28.—The correspondent of the Publishers' Press, is informed that the notorious Chinese revolutionist, Dr. Sim Yat Sen, paid a secret visit here recently. It is reported on good authority that despite the recent more peaceful outlook in China the reformers there are busy trying to organize a new plot.

Their present plan is to stir up trouble between the southern and central provinces on the one hand and the northern provinces on the other. Their aim in this is to bring about the overthrow of the present dynasty. Even the friends of the reformers engaged in this scheme consider it is folly to make such an attempt, but the majority of the reformers are incapable of accurately judging what the sitation is.

MILITARY POWER.

Great Britain Stronger Than United States.

London, April 28.—A despatch from Berlin quotes an article by Prof. Hans Delburch, in the Journal there which says that England is a stronger military power than the United States for England can despatch two hundred thousand men from Canada before the states have even assembled their field army. To this the Berlin Post replies that England's land force is considerably over-estimated. England might easily, and she would probably, fare worse than she did 130 years ago. With the loss, Canada would be driven out of the American continent. The states need be as little concerned about two hundred thousand men from Canada as we about the much-discussed one hundred thousand which would allegedly land in Schleswig-Holstein.

Production Of Steel.

New York, April 28.—There will be an increase in every department of the United States Steel Corporation this year. The finished and semi-finished product is expected to reach 10,500,000 tons as compared with 9,226,386 tons last year. More than 20,000,000 tons of iron ore will come from the lake regions and the blast furnace production will be 11,000,000 tons. The steel corporation in March produced at the rate of 14,000,000 tons of ingots a year and 12,000,000 tons of pig iron a year.

Another Carnegie Library.

Toronto, April 28.—E. A. Hardie, secretary of the Ontario library association, has received word from Oshawa, that Dr. Carnegie had given that town $12,000 for a public library. This and the $50,000 offered to Victoria University increases the Carnegie donations to Canadian cities and towns for library purposes to nearly $1,000,000.

Resigns From Cobalt Company.

Ottawa, April 28.—Hon. Frank R. Latchford, K.C., announces that for "personal reasons" he has resigned from the presidency and directorate of the Cobalt Silver Queen, limited. The company is capitalized at $1,500,000 and owns the celebrated Stormont mine with forty acres adjoining, which formerly belonged to the Temiskaming & Hudson Bay Mining company.

Book Of Common Prayer.

Toronto, April 28.—As it is expected by the western bishops that in a few years practically all the young people in the western provinces will speak English, the general board of the Missionary Society of the Church of England, decided yesterday not to translate the prayer-book into the languages of foreign settlers.

Warning To Scorchers.

Toronto, April 28.—"If any natob from this or any other city should hurt or kill a member of my family, if I had no other recourse, I would blow his brains out," was Mr. Duff's (West Simcoe), vigorous contribution on the auto legislation in the municipal committee this morning. The bills will be further discussed next week.

LATEST NEWS

Despatches From Near and Distant Places.

NEWS OF THE WORLD

GIVEN IN THE BRIEFEST POSSIBLE FORM.

Matters That Interest Everybody —Notes From All Over—Little of Everything Easily Read and Remembered.

The anthracite coal owners have refused the demand for an increase of wages.

Andrew Carnegie addressed the Toronto Canadian Club on the question of universal peace.

Rev. Dr. Barclay, Montreal, has been granted the honorary degree of D. C. L., by McGill College.

The resignation of H. B. Bridgeland, sheriff of Muskoka, has been forwarded to the government.

The Queen's Own Rifles, Toronto, were received with enthusiasm at the New York military tournament.

The French strike is said to be practically over, the government everywhere having secured the upper hand.

It is reported that the Ontario government will introduce a bill to provice for the transmission of cheap power.

The big floating dock Dewey, on her way from the United States to the Philippines, has entered the Suez canal.

Thomas O'Dowd, treasurer of the Cigarmakers' Union, at Hamilton, was arrested on a charge of misappropriating union funds.

William A. Brewer, Jr., formerly president of the Washington Life Insurance company, has been indicted at New York for perjury.

DEVLIN IS AFTER DRYDEN.

Forfeited His Right to Sit on Commission.

London, April 28.—On Monday Charles Devlin, M.P., Galway, will ask the chief secretary for Ireland whether his attention has been called to a statement of John Dryden, recently appointed to the commission to enquire into agricultural conditions in Ireland, to the effect that Canadian farmers enjoy no advantages over Irish farmers, that the latter are better off by reason of their proximity to English markets, and that if they have fallen behind it is simply due to discouragement. And that by reason of the Irish Land Act the Irish farmer is on as good footing as the Canadian farmer in regard to procuring and of tenure of land.

Will the secretary state if the government were aware of Mr. Dryden's views when making the appointment, and whether it is the intention of the government to continue the appointment in view of the publication of Mr. Dryden's views?

VISITED VESUVIUS

And Gave $4,000 to the Fund For Sufferers.

Naples, April 68.—King Edward and Queen Alexandra, arrived here yesterday. They were received by the Duke of Aosta. Cardinal Prisco, Archbishop of Naples, greeted them on behalf of the pope. Later in the day in spite of the inclement weather their majesties started for Vesuvius in an automobile with the Duke of Aosta. The roads were difficult for the ashes had turned into mud. Their majesties gave $4,000 to the fund to the relief of the sufferers by the recent eruption.

Canada Drops Him Over.

London, April 28.—The Liverpool Post, commenting on Edward Porritt's "Interesting and Instructive Story of Canada's Tariff Mood Towards the United States," in the current number of the North American Review, says that Canada has thrown over Chamberlain. The C. M. A. fought hard for him and for themselves rather than him; the tariff revision they asked is not the kind they desired, nor the kind the United States would have welcomed, but is going to have features that will commend it to manufacturers and workmen here.

Baseball Summary.

National League.—St. Louis, 8; Pittsburg, 2. New York, 3; Philadelphia, 1. Brooklyn, 10; Boston, 9. Chicago, 7; Cincinnati, 6 (twelve innings.)

American League.—Philadelphia, 3; Boston, 0. St. Louis, 10; Chicago, 5. Washington, 5; New York, 2. Cleveland, 7; Detroit, 4.

Eastern League.—Baltimore, 5; Buffalo, 3. Newark, 1; Toronto, 0 (thirteen innings.) Jersey City, 9; Montreal, 0. Providence, 5; Rochester, 2.

This Boy Committed Suicide.

Oxford, Pa., April 28.—Before he would graduate with a class of girls, being the only boy in the class, James Andrews filled his pockets with flat-irons and stones and jumped into White Clay Creek, where the body was found. His parents and teachers had insisted that he take part in the exercises.

Will Fight Twenty Rounds.

New York, April 28.—Bob Fitzsimmons and Tommy Burns (Noah Brusso), have been matched to fight twenty rounds at Tom O'Rourke's Tuxedo, Club, at Essington, Pa., May 30th.

Buy Mennens and Colgate's talcum powder at Gibson's Red Cross drug store. 'Phone 230.

TO CAPTURE PASSES.

Senators Say U. S. Railways Are After Ottawa.

Ottawa, April 28.—The bill before the railway committee asking, among other things, power to build through the Yellow Head Pass to Edmonton produced vigorous objection from Senators McMullin and Kirchhoffer against American lines being allowed to take up all the available passes through the Rockies. There seemed to be an organized attempt by outside interests, they said, to corner all these passes. The Canadian companies could furnish all the track needed. Senator Macdonald, of British Columbia, declared that the V. W. and Y. was not an American line.

Senator Lougheed declared that the Americans were making a deliberate attempt to capture the grain trade of the Canadian west.

The bill stands for further consideration.

CONTRACT AT OTTAWA.

To Build Reduction Plant Near That City.

Oswego, N.Y., April 28.—Contractor A. H. Smith has returned from Ottawa, where he went to meet John J. Tonkin, late of this city. Mr. Tonkin is president of a large company which is opening graphite mines at Buckingham, a place of about 4,000 inhabitants, sixteen miles northeast of Ottawa.

Mr. Smith has the contract to build two large reduction plants for the company. The mills are to be of slow burning construction, 100 by 70 feet and two storeys. The concrete foundations are now being laid and the structural work is to be commenced at once.

The company owns 2,500 acres and the deposit of graphite is said to be the richest on the continent. Mr. and Mrs. Tonkin are passing the summer at Buckingham.

LEFT FOR HOME

Owing to Outlook of Trouble With Turkey.

Naples, April 28.—As a result of despatches received here by King Edward, from the home government, in regard to the crisis with Turkey, which has arisen over the occupation of Tabah, by Turkish troops, the British monarch has decided to hurry back to London, by the overland route and will start on Monday. Queen Alexandra will return to England by water.

$9,000,000 Naval Order.

Rio De Janeiro, April 28.—It is announced that $9,000,000 has been remitted to London for the building of the three new battleships for the Brazilian navy. The Armstrongs have the contract.

Representatives of German and French shipbuilding yards have been here for some time past endeavoring to obtain this order, but the German firms were completely out of the running owing to the little indiscretions of the command of the German gunboat Panther at Itajahy, where a Brazilian subject was seized and forcibly taken to the German boat.

This incident will affect the commercial relations of Brazil with Germany for a long time to come.

Fixed Too High.

Toronto, April 28.—The members of the house are figuring with a view to reducing the minimum salary for teachers mentioned in the new schools act. As it stands now it is claimed to be much too high, and will be reduced at least by one-third when it comes up. Dr. Seath, Toronto, the high school inspector, has been selected, it is said, for the position of superintendent of education and the appointment will be made in a few days.

Want The Convention.

Detroit, April 28.—A representative of the Shriners and people of Los Angeles, arrived here, last night, on the way to Toronto, with a monster petition, asking Imperial Potentate Collins to withdraw his decision calling off the convention which was to have met in Los Angeles, on May 8th, and asking him at once to issue orders for the conclave to be held in that city during the week of May 28th.

Collision Of Steamboats.

Ogdensburg, N.Y., April 28.—The Rutland Transit company steamer Prince, collided with the Canadian steamer Fairmount, while locking through the Welland canal. The stem of the Ogdensburg boat was broken in two at a point three feet above the main rail. Repairs will be made while the boat is unloading at Cleveland.

Will Call At Detroit.

Detroit, Mich., April 28.—It is announced that the passenger and freight steamers of the Northern Navigation company (Collingwood), will make Detroit a port of call this season, beginning July 1st. The Britannic will run as far as Kincardine.

Ice For Erie, Pa.

Detroit, Mich., April 28.—An Erie, Pa., despatch says the steamer Isabella Reed brought a cargo of ice, to-day from Canada, the first to arrive here in many years. The ice crop in this vicinity failed here last winter.

All Missing Consuls Safe.

San Francisco, April 28.—The French, Italian and Danish consuls at San Francisco, reported as among the missing, have all been heard from. They had temporarily become separated from their friends.
